National Biodiversity Planning In The Arab World

Dr. A. Kannan

National Biodiversity Planning In The Arab World:

National Biodiversity Planning in the Arab World Riyad Y. Hamzah, Saeed Mohammed, 2002 *The Use of Economic Measures in National Biodiversity Strategies and Action Plans* Lucy Emerton, 2001 Economic forces underlie and explain much biodiversity degradation and loss and economic instruments provide a useful set of tools for strengthening biodiversity conservation sustainable use and equitable benefit sharing If National Biodiversity Strategies and Action Plans are to be effective they must be justifiable in economic terms This document reports on a project reviewing the use of economic measures in NBSAPs It brings together the component activities of the economics review and summarizes and synthesizes this information to provide guidance on experiences lessons learned and ways forward in the use of economic measures

Environmental Law in Arab States Damilola S. Olawuyi, 2022-02-11 Environmental Law in Arab States offers a comprehensive and authoritative account of the guiding principles and rules relating to environmental protection in the Arab region Taking an international and comparative approach the book introduces readers to the latest developments of environmental law across the Arab region through applicable legislation green finance and climate technologies The impact of these is assessed in each of the major areas of environmental regulation air pollution water pollution biodiversity conservation of nature and cultural heritage infrastructure development and Islamic ecology Consideration is given to participatory and bottom up legal strategies focusing on transparency accountability gender justice and other human rights safeguards that are needed to achieve greater coherence and coordination in the implementation and enforcement of environmental regulation across the region The book closes by providing legal assessments and reflections on how Arab countries can through clear and comprehensive legislation advance existing national strategies and visions on trade and investment green growth Islamic green finance circular economy blue economy and low carbon future amongst others

Interim Assessment of Biodiversity Enabling Activities , Geological heritage in the Arab region Sattout, Elsa, UNESCO Office Cairo and Regional Bureau for Science in the Arab States, 2020-10-21 **Encyclopedia of Biodiversity** , 2013-02-05 The 7 volume Encyclopedia of Biodiversity Second Edition maintains the reputation of the highly regarded original presenting the most current information available in this globally crucial area of research and study It brings together the dimensions of biodiversity and examines both the services it provides and the measures to protect it Major themes of the work include the evolution of biodiversity systems for classifying and defining biodiversity ecological patterns and theories of biodiversity and an assessment of contemporary patterns and trends in biodiversity The science of biodiversity has become the science of our future It is an interdisciplinary field spanning areas of both physical and life sciences Our awareness of the loss of biodiversity has brought a long overdue appreciation of the magnitude of this loss and a determination to develop the tools to protect our future Second edition includes over 100 new articles and 226 updated articles covering this multidisciplinary field from evolution to habits to economics in 7 volumes The editors of this edition are

all well respected instantly recognizable academics operating at the top of their respective fields in biodiversity research readers can be assured that they are reading material that has been meticulously checked and reviewed by experts Approximately 1 800 figures and 350 tables complement the text and more than 3 000 glossary entries explain key terms

Geotourism in the Middle East Mamoon Allan,Ross Dowling,2023-05-24 The geotourism industry has grown rapidly in recent years This book introduces the geotourism industry its attractions activities and developments in selected countries of the Middle East A number of publications and studies have investigated the nature and scope of the phenomenon of geotourism tourism which starts from geology and geotourists worldwide However despite the breadth of these studies few publications have investigated the phenomena in the Middle Eastern countries Consequently this book seeks to shed light on the different aspects of geotourism and geo diversity in the Middle East and provides a number of case studies from this region It assists in bridging the lacuna in the tourism and geology literature and helps planners marketers managers scholars and researchers to enhance their knowledge about such issues It outlines opportunities for as well as barriers to geotourism development in the Middle East as well as providing recommendations for the advancement of geotourism in the region

Historical Dictionary of the United Nations Educational, Scientific and Cultural Organization (UNESCO) Lin Lin,Seth Spaulding,2022-07-15 Established in the aftermath of World War II UNESCO succinctly states its peace mission as well as its peaceful resolution to peace in its Constitution constructing the defenses of peace in the minds of peoples on the intellectual and moral grounds For more than seven decades UNESCO has been consistently positioning peace as its unwavering core and ultimate goal through promoting international understanding and cooperation in and across its five major sectors of competence in education natural sciences culture communication and information and social and human sciences Historical Dictionary of the United Nations Educational Scientific and Cultural Organization UNESCO Second Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 700 cross referenced entries on UNESCO s initiatives programs projects normative instruments and partners over the past 76 years This book is an excellent resource for students researchers and anyone wanting to know more about UNESCO *Biosphere reserves in the Arab Region* UNESCO Office Cairo and Regional Bureau for Science in the Arab States,Sattout,

Elsa,2020-02-26 **Global Environmental Governance and Desertification** Dr. A. Kannan,2012 Report of the Second Ad Hoc Meeting on Management of Deepwater Fisheries Resources of the Southwestern Indian Ocean ,2002-01-01

The meeting reviewed the status of information available relating to these fisheries and the events in their recent development The meeting noted the importance of securing the operations data from companies particularly those that no longer wished to operate in the study area **Higher Education in the Arab World: Research and Development** Adnan Badran,Elias Baydoun,John R. Hillman,2022-02-03 Countries aspiring to participate fully in the global knowledge economy require high quality education and research that leads to innovation entrepreneurship and development In spite of the large

number of institutions higher education institutions the Arab World failed to capitalise in research and development This book will examine the current position of university research and development in the Arab region note the main themes their international impact and propose new directions Crucially it will examine the underlying reasons for the underperformance including specific government research policies university appointment and governance processes to stimulate research funding assessment and allocation processes resource limitations and public attitudes By substantially upgrading the research component of Arab universities along with the quality of education generally the Arab world will have the vehicle to transition into peaceful stable and members of leading global economies There are opportunities for inter university cooperation and the establishment of regional university linked research institutes with specialist facilities

Environmental Politics in Egypt Jeannie Sowers, 2013-06-26 This book examines the evolution and development of environmental politics in Egypt and how networks operate inside an authoritarian system Tracing attempts by environmental networks to control industrial pollution create and preserve protected areas and restructure the management of Egypt's scarce water supplies the author contributes to a more refined understanding of public policy making and social protest under authoritarian rule in Egypt and the Arab world

Best Practice for Conservation Planning in Rural Areas, 2005-08-15 This report draws on lessons learned from observations made at seven case study sites all of which permit economic activities especially recreation that are not harmful to the biological values and natural functions of the area There is now a need to translate these experiences into policy instruments The guidelines summarized in some 20 pages offer sound and well documented advice on how to proceed

SDGs in Africa and the Middle East Region Ismaila Rimi Abubakar, Izael da Silva, Rudi Pretorius, Khaled Tarabieh, 2024-09-01 Africa is one of the most vulnerable regions and one where the implementation of the SDGs is particularly urgent Underinvestments in natural conservation are increasing the vulnerability of people across many African countries whose well being is endangered by deteriorating socio economic and environmental conditions This volume provides a contribution towards showcasing how natural resources may be more efficiently used and investments may be mobilised to augment the limited public sector funds available to achieve the SDGs This book is part of the 100 papers to accelerate the implementation of the UN Sustainable Development Goals initiative

Tourism in the Arab World Hamed Almuhrzi, Hafidh Alriyami, Noel Scott, 2017-06-15 This book is the first to explore Arabic tourism from a business viewpoint rather than taking a sociological anthropological or political stance It focuses on business planning management and marketing destinations in the Arab World which are topics crucial for industry stakeholders and which have previously been neglected in the tourism literature The book examines similarities and differences in the emergence and development of the tourism industry in countries across the Arab world as well as its inbound and outbound travel flows It analyses several different aspects of Arabic tourism including tourism policy organisation and planning tourism product development destination marketing and consumer behaviour This volume will be of interest to postgraduate students and researchers of

tourism studies business and Middle Eastern studies **Доклад ФАО По Рыболовству** ,2002 *Global Environment Outlook 2000* United Nations Environment Programme (Unep),2013-11-05 The continued poverty of the majority of the planet s inhabitants and excessive consumption by the minority are the two major causes of environmental degradation The present course is unsustainable and postponing action is no longer an option Inspired political leadership and intense cooperation across all regions and sectors will be needed to put both existing and new policy instruments to work From the Synthesis *Global Environment Outlook 2000* GEO 2000 is a comprehensive and authoritative review and analysis of environmental conditions around the world It is the flagship publication of the world s leading environmental organization the United Nations Environment Programme UNEP and is based on information provided by more than 30 regional and international collaborating centres The book presents a region by region analysis of the state of the world s environment highlighting key global concerns and making recommendations for policy action The regions covered include Africa Asia and the Pacific Europe and Central Asia Latin America and the Caribbean North America West Asia and the Polar Areas Chapter 1 Global Perspectives describes the main drivers of environmental change such as the economy population growth political organization and regionalization as well as potential impacts of recent global developments including the growth of the consumer culture trade and international debt Chapter 2 The State of the Environment provides a global and region by region overview of the environment at the end of the second millennium The chapter covers global issues such as ozone climate change El Nifio and nitrogen loading and universal issues of land and food forests biodiversity freshwater marine and coastal areas atmosphere and urban areas Chapter 3 Policy Responses reviews the broad range of policy instruments and responses being used to address environmental issues including multilateral environmental agreements and analyses the difficulties of compliance implementation and assessment Chapter 4 Future Perspectives looks at environmental issues that will require priority attention in the 21st century and some alternative policy options that could be used in the regions Chapter 5 Outlook and Recommendations makes recommendations for future action based on the environmental legacy left by past and present policy and management systems GEO 2000 will be the benchmark reference and guide to the state of the global environment Written in clear non technical language and supported throughout by informative graphics and tables it is essential reading for all those involved in environmental policy making implementation and assessment and for researchers and students of regional and global environmental issues Originally published in 1999 [Sustainable Qatar](#) Logan Cochrane,Reem Al-Hababi,2022-11-24 This open access book provides a topical overview of the key sustainability issues in Qatar focusing on environmental sustainability from a socio political perspective The transition to a sustainable Qatar requires engagement with diverse areas of social political human and environmental development On the environmental aspects the contributors address climate change food security water reuse and desalination energy and biodiversity The socio political section examines state strategy and regulation the place of environmental law and geopolitics and sustainability

innovators and catalysts The human section considers economics sustainability education the knowledge economy and waste management In doing so the book demarcates the ways in which the country encounters and grapples with significant challenges and delves into the range of options for future pathways to sustainability in Qatar Relevant to policymakers and scholars in energy and environment urban and developmental studies as well as the arenas of politics climate change and policy this book is a landmark collection on environmental policy in the Gulf and beyond

Economic Systems of Innovation in the Arab Region Samia Mohamed Nour, 2016-04-30 The Arab region has become a hotbed of economic growth in recent decades While this growth has indisputably brought in wealth there are still countless questions about the characteristics constraints and implications of the region's systems of innovation Do these systems even exist in the Arab region How does the current economic structure affect regional innovation Is the presence of natural resources a help or a hindrance Economic Systems of Innovation in the Arab Region discusses the causes consequences and implications of poor systems of innovation in the Middle East and North Africa By examining the comparative weakness of innovation the economic structure and the diversity of the region Nour shows that the development of Arab regional systems of innovation is contingent upon the development of adequate economic policies and incentives in the area Her contribution is key for students and scholars of economics innovation and international relations
