## **National Civic Review No 2 Summer 2004:**

**National Civic Review, No. 2, Summer 2004** Robert Loper, Michael R. McGrath, 2004-09 *St. Louis Plans* Mark Tranel, 2007 St. Louis has a rich history of planning that heretofore has not been documented. The plans that have been made over the years by public, nonprofit, and civic agencies have given the St. Louis metropolitan area its shape and direction. Plans are the basis of the physical and built environment as well as of the activities and agendas that are carried out within this environment. This volume, the third in the St. Louis Metromorphosis Book Series, will review the history of various aspects of planning and provide insight into planning successes and challenges. The volume will also look ahead with lessons for the future. *St. Louis Plans* will present a novel exploration of the St. Louis region, one that considers the blueprints for the urban area as it exists today. The book will take the angle of Harlan Bartholomew, who said that the objective of a city plan is the improvement of living conditions, the stimulation of prosperity, and the creation of intangible values in added health, comfort, convenience, and community well-being. Therefore, the book will illustrate the ways that future plans can provide a path to those intangible values. Planning typically refers to that which occurs at the governmental level. This book will explore the various angles from which St. Louis plans have arisen, from the regional, municipal, and neighborhood levels, and in specific sectors including education, health care, and workforce development. As the face of government shifts toward regional cooperation, the outline of our past will be particularly relevant. Timely issues that the twelve authors of the book's essays will explore include emergency preparedness, planning, and leadership at the neighborhood level; transportation and health care.

*The PerformanceStat Potential* Robert D. Behn, 2014-06-24 It started two decades ago with CompStat in the New York City Police Department and quickly jumped to police agencies across the U.S. and other nations. It was adapted by Baltimore, which created CitiStat, the first application of this leadership strategy to an entire jurisdiction. Today, governments at all levels employ PerformanceStat, a focused effort by public executives to exploit the power of purpose and motivation, responsibility, and discretion; data and meetings analysis; and learning feedback and follow-up, all to improve government's performance. Here, Harvard leadership and management guru Robert Behn analyzes the leadership behaviors at the core of PerformanceStat to identify how they work to produce results. He examines how the leaders of a variety of public organizations employ the strategy: the way the Los Angeles County Department of Public Social Services uses its DPSSTATS to promote economic independence; how the City of New Orleans uses its BlightStat to eradicate blight in city neighborhoods; and what the Federal Emergency Management Agency does with its FEMASat to ensure that the lessons from each crisis response, recovery, and mitigation are applied in the future. How best to harness the strategy's full capacity? *The PerformanceStat Potential* explains all. *The Power of Collaborative Solutions* Tom Wolff, 2010-01-26 In this groundbreaking book, Tom Wolff spells out six proven principles for creating collaborative solutions for healthy communities. *The Power of Collaborative Solutions* addresses contemporary social problems by helping people of diverse circumstances

and backgrounds work together to solve community challenges Filled with clear principles illustrative stories and practical tools this book shows how to make lasting change really happen Praise for The Power of Collaborative Solutions This is a truly transformative book and a must read Tom Wolff crafts a path to change that is at once visionary and achievable MEREDITH MINKLER professor of health and social behavior University of California Berkeley and coauthor Community Based Participatory Research for Health Jossey Bass 2008 If you want to bring about sustained positive change in your community read this book The stories will inspire you and the lessons will shine a light on your leadership path TYLER NORRIS founding president Community Initiatives Here you ll find not just theory but also the hard won down to earth detail on how to make collaboration work where you live and act BILL BERKOWITZ professor emeritus of psychology University of Massachusetts Lowell Tom has a tremendous fount of knowledge and he knows just what to do with it and how to help others use it His kind and commonsensical manner means that his intellect is accessible LINDA BOWEN executive director Institute for Community Peace Washington D C

**The Architecture of Survival** Erik Trump, Jake Parcell, 2023-09-05 The Architecture of Survival Setting and Politics in Apocalypse Films offers a compelling exploration of how popular films and TV series from the past two decades use architectural spaces to comment on socio political issues The authors harness varied theoretical perspectives to demonstrate how through set design these works suggest that certain kinds of architecture support human development community and freedom while other kinds separate us from our fellow humans and make democratic politics impossible The clean lines of modernist design serve in films such as Contagion and Ex Machina as a metaphor for the sanitized sterile politics that drive disaster In The Walking Dead apocalypse survivors favor traditional architectural styles when rebuilding society a choice that symbolically affirms their democratic principles The massive walls and super gentrification as seen in Elysium and Army of the Dead divide humanity with those on one side wielding illegitimate power Empty streetscapes intensify loneliness

alienation and the destruction of civil norms Smart cities offering a blend of high tech surveillance and big data erode social capital and community in Her and Transcendence The book concludes with a somewhat hopeful glimpse into architecture s potential to mitigate the catastrophic adverse effects of climate change as seen in films like Zootopia

**George Galphin's Intimate Empire** Bryan C. Rindfleisch, 2019-08-20 A revealing saga detailing the economic familial and social bonds forged by Indian trader George Galphin in the early American South A native of Ireland George Galphin arrived in South Carolina in 1737 and quickly emerged as one of the most proficient deerskin traders in the South This was due in large part to his marriage to Metawney a Creek Indian woman from the town of Coweta who incorporated Galphin into her family and clan allowing him to establish one of the most profitable merchant companies in North America As part of his trade operations Galphin cemented connections with Indigenous and European peoples across the South while simultaneously securing links to merchants and traders in the British Empire continental Europe and beyond In George Galphin s Intimate Empire The Creek Indians Family and Colonialism in Early America Bryan C Rindfleisch presents a complex narrative about eighteenth century cross cultural relationships Reconstructing the multilayered bonds forged by Galphin and challenging scholarly understandings of life in the Native South the American South more broadly and the Atlantic World Rindfleisch looks simultaneously at familial cultural political geographical and commercial ties examining how eighteenth century people organized their world both mentally and physically He demonstrates how Galphin s importance emerged through the people with whom he bonded At their most intimate Galphin s multilayered relationships revolved around the Creek Anglo French and African children who comprised his North American family as well as family and friends on the other side of the Atlantic Through extensive research in primary sources Rindfleisch reconstructs an expansive imperial world that stretches across the American South and reaches into London and includes Indians Europeans and Africans who were intimately interconnected and mutually dependent As a whole George Galphin s Intimate Empire provides critical insights into the intensely personal dimensions and cross cultural contours of the eighteenth century South and how empire building and colonialism were by their very nature intimate and familial affairs

**Capitalizing on Environmental Injustice** Daniel Faber, 2008-07-17 Capitalizing on Environmental Injustice provides a comprehensive overview of the achievements and challenges confronting the environmental justice movement Pressured by increased international competition and the demand for higher profits industrial and political leaders are working to weaken many of America s most essential environmental occupational and consumer protection laws In addition corporate led globalization exports many ecological hazards abroad The result is a deepening of the ecological crisis in both the United States and the Global South However not all people are impacted equally In this process of capital restructuring it is the most marginalized segments of society poor people of color and the working class that suffer the greatest force of corporate environmental abuses Daniel Faber a leading environmental sociologist analyzes the global political and economic forces that create these environmental injustices With a

multi disciplinary approach Faber presents both broad overviews and powerful insider case studies examining the connections between many different struggles for change Capitalizing on Environmental Injustice explores compelling movements to challenge the polluter industrial complex and bring about meaningful social transformation Slow Democracy Susan Clark, Woden Teachout, 2012 Reconnecting with the sources of decisions that affect us and with the processes of democracy itself is at the heart of 21st century sustainable communities Slow Democracy chronicles the ways in which ordinary people have mobilized to find local solutions to local problems It invites us to bring the advantages of slow to our community decision making Just as slow food encourages chefs and eaters to become more intimately involved with the production of local food slow democracy encourages us to govern ourselves locally with processes that are inclusive deliberative and citizen powered Susan Clark and Woden Teachout outline the qualities of real local decision making and show us the range of ways that communities are breathing new life into participatory democracy around the country We meet residents who seize back control of their municipal water systems from global corporations parents who find unique solutions to seemingly divisive school redistricting issues and a host of other citizens across the nation who have designed local decision making systems to solve the problems unique to their area in ways that work best for their communities Though rooted in the direct participation that defined our nation s early days slow democracy is not a romantic vision for reigniting the ways of old Rather the strategies outlined here are uniquely suited to 21st century technologies and culture If our future holds an increased focus on local food local energy and local economy then surely we will need to improve our skills at local governance as well

**Contemporary American Federalism** Joseph F. Zimmerman, 2009-07-01 Traces the development of the American federal system of government focusing principally on the shifting balance of powers between the national government and the states

**Engaging Strangers** Daniel J. Monti Jr., 2012-11-29 Partisans on both the left and right wings of America s theory class and political spectrum believe we re in trouble big trouble The economy is limping along Inequality has reached unprecedented levels And we seem to be on the verge of being overwhelmed by immigrants who don t look and act anything like our grandparents did much less the men and women who founded our country Angry scared disengaged and distrustful when we aren t openly antagonistic toward each other Americans can t figure out who we are as a people and openly fret about our best days being behind us To make matters worse our political system the one place we re supposed to be able to work on behalf of a broader public good with people who aren t like us appears even more broken than these other parts of our culture There s some unexpected good news however and it s coming from one of the last places in America you d expect different people to be getting along Boston Bostonians well known for their unwelcoming and sometimes violent treatment of newcomers and unwillingness to find common ground with people deemed outsiders aren t acting broken or taking their resentments out on each other these days They ve turned instead to calmer ways of talking about each other and treating each other in public Far from being disconnected and afraid people in Boston are better connected and more

respectful of each other and their city is better organized and more orderly than at any time in its long and storied history Bostonians have learned to get along with the strangers among them in ways their ancestors never knew or expected the rest of us would be willing to entertain much less master They have their civic act together Engaging Strangers explores how the people of Boston have learned to practice a more congenial and respectful set of civic virtues In this book the author provides a model for civic conduct for the rest of America to study and follow

**The Education Mayor** Kenneth K. Wong, Francis X. Shen, Dorothea Anagnostopoulos, Stacey Rutledge, 2007-10-22 In 2002 the No Child Left Behind Act rocked America's schools with new initiatives for results based accountability But years before NCLB was signed a new movement was already under way by mayors to take control of city schools from school boards and integrate the management of public education with the overall governing of the city The Education Mayor is a critical look at mayoral control of urban school districts beginning with Boston's schools in 1992 and examining more than 100 school districts in 40 states The authors seek to answer four central questions What does school governance look like under mayoral leadership How does mayoral control affect school and student performance What are the key factors for success or failure of integrated governance How does mayoral control effect practical changes in schools and classrooms The results of their examination indicate that although mayoral control of schools may not be appropriate for every district it can successfully emphasize accountability across the education system providing more leverage for each school district to strengthen its educational infrastructure and improve student performance Based on extensive quantitative data as well as case studies this analytical study provides a balanced look at America's education reform As the first multidistrict empirical examination and most comprehensive overall evaluation of mayoral school reform The Education Mayor is a must read for academics policymakers educational administrators and civic and political leaders concerned about public education

The Problem with Survey Research George Beam, 2012-08-14 The Problem with Survey Research makes a case against survey research as a primary source of reliable information George Beam argues that all survey research instruments all types of asking including polls face to face interviews and focus groups produce unreliable and potentially inaccurate results Because those who rely on survey research only see answers to questions it is impossible for them or anyone else to evaluate the results They cannot know if the answers correspond to respondents actual behaviors objective phenomena or to their true beliefs and opinions subjective phenomena Reliable information can only be acquired by observation experimentation multiple sources of data formal model building and testing document analysis and comparison In fifteen chapters divided into six parts Ubiquity of Survey Research The Problem Asking Instruments Asking Settings Askers and Proper Methods and Research Designs The Problem with Survey Research demonstrates how asking instruments settings in which asking and answering take place and survey researchers themselves skew results and thereby make answers unreliable The last two chapters and appendices examine observation other methods of data collection and research designs that may produce accurate or correct information and shows how reliance on survey

research can be overcome and must be *Integrated Marketing Communication* Christina L. McDowell Marinchak, Jeanne M. Persuit, 2016-09-22 Integrated Marketing Communication IMC is a holistic approach to the areas of advertising public relations branding promotions event and experiential marketing and related fields of strategic communication Integrated Marketing Communication Creating Spaces for Engagement explores how IMC can open up spaces for engagement in our classrooms and our communities The breadth of the contributors is in the spirit of IMC examining public and private sector organizations that offer products and services while relying on various methodologies and theoretical approaches with particular emphasis on rhetoric philosophy of communication qualitative research and historical perspectives in IMC Moreover each chapter considers IMC from a different communicative perspective including strategic communication philosophy of communication rhetorical theory health communication crisis and risk communication communication theory and mass communication

**The Future of Democracy** Peter Levine, 2015-01-06 We need young people to be civically engaged in order to define and address public problems Their participation is important for democracy for institutions such as schools and for young people themselves who are more likely to succeed in life if they are engaged in their communities In *The Future of Democracy* Peter Levine scholar and practitioner sounds the alarm in recent years young Americans have become dangerously less engaged They are tolerant patriotic and idealistic and some have invented such novel and impressive forms of civic engagement as blogs boycott movements and transnational youth networks But most lack the skills and opportunities they need to participate in politics or address public problems Levine's timely manifesto clearly explains the causes symptoms and repercussions of this damaging trend and most importantly the means whereby America can confront and reverse it Levine demonstrates how to change young people's civic attitudes skills and knowledge and equally importantly to reform our institutions so that civic engagement is rewarding and effective We must both prepare citizens for politics and improve politics for citizens

*FIGHT SONG* Peter Woan, 2024-02-22 Every nation's past is prologue to its present and every nation's story unfolds in its own way In this book a native Englishman and long time resident of the United States proposes four defining narratives that have helped fashion the nation's progression toward becoming America westward expansion and a fascination for the moving frontier hunger for land reflected in national expansion through nineteenth century geopolitical acquisitions and the desire of individual Americans to grab their own piece of territory leading to the iconic Homestead Act of 1862 the land grant college movement culminating in Justin Morrill's 1862 landmark legislation representing a shift away from higher education dominated by religious imperatives to a more secular model with significant state sponsorship the GI Bill of Rights enacted in 1944 for servicemen and women returning from WW II and which provided among other benefits a free college education for millions of veterans These four themes are brought together through the uniquely American phenomenon of college football

**Migration, Refugee Policy, and State Building in Postcommunist Europe** Oxana Shevel, 2011-10-24 Why do similar postcommunist states respond differently to

refugees Why do some states privilege certain refugee groups while other states do not This book presents a theory to account for this puzzle and it centers on the role of the politics of nation building and of the office of the UN High Commissioner for Refugees UNHCR A key finding of the book is that when the boundaries of a nation are contested and thus there is no consensus on which group should receive preferential treatment in state policies a political space for a receptive and nondiscriminatory refugee policy opens up The book speaks to the broader questions of how nationalism matters after communism and under what conditions and through what mechanisms international actors can influence domestic policies The analysis is based on extensive primary research the author conducted in four languages in the Czech Republic Poland Russia and Ukraine

*The Rhetorics of US Immigration* E. Johanna Hartelius, 2015-11-10 In the current geopolitical climate in which unaccompanied children cross the border in record numbers and debates on the topic swing violently from pole to pole the subject of immigration demands innovative inquiry In *The Rhetorics of US Immigration* some of the most prominent and prolific scholars in immigration studies come together to discuss the many facets of immigration rhetoric in the United States *The Rhetorics of US Immigration* provides readers with an integrated sense of the rhetorical multiplicity circulating among and about immigrants Whereas extant literature on immigration rhetoric tends to focus on the media this work extends the conversation to the immigrants themselves among others A collection whose own eclecticism highlights the complexity of the issue *The Rhetorics of US Immigration* is not only a study in the language of immigration but also a frank discussion of who is doing the talking and what it means for the future From questions of activism authority and citizenship to the influence of Hollywood the LGBTQ community and the church *The Rhetorics of US Immigration* considers the myriad venues in which the American immigration question emerges and the interpretive framework suited to account for it Along with the editor the contributors are Claudia Anguiano Karma R Chavez Terence Check Jay P Childers J David Cisneros Lisa M Corrigan D Robert DeChaine Anne Teresa Demo Dina Gavrilos Emily Ironside Christine Jasken Yazmin Lazcano Pry Michael Lechuga and Alessandra B Von Burg
