

The background of the entire image is a close-up, high-angle photograph of a microchip. The chip's surface is a complex grid of gold-colored conductive traces. Numerous thin, silver-colored wires are connected to the chip's pins, extending outwards. The lighting creates a sense of depth and highlights the metallic textures.

National Identification Systems Carl Watner, Wendy McElroy, 2004-01-07 Throughout history governments have sought more efficient ways to count tax allocate monitor and order the activities of their citizens Watner and McElroy have compiled a collection of essays that present the historical religious moral and practical arguments against government enumeration The articles look at several government naming practices and the census and discuss how the collection of seemingly innocent data could be used to commit abuses Section one recounts the history of what we now call national ID Section two covers contemporary technologies such as microchips email tracking and camera based surveillance systems applying to each the test How would this catch terrorists or other criminals without destroying the rights of peaceable people Section three imagines a future of rebellion against a government tracking its citizens in the name of security but offers some hope that American culture does not lend itself to the fanatical control that a high tech national ID system could make possible

criminals have been identified branding fingerprinting DNA but also at the identification of the individual with seals and signatures of the citizen by means of passports and ID cards and of the corpse Beginning his history in the medieval period Edward Higgs reveals how it was not the Industrial Revolution that brought the most radical changes in identification techniques as many have assumed but rather the changing nature of the State and commerce and their relationship with citizens and customers In the twentieth century the very different historical techniques have converged on the holding of information on databases and increasingly on biometrics and the multiplication of these external databases outside the control of individuals has continued to undermine personal identity security **In-Between Empire** Raymond

Ryan Gray,2020-02-11 The archaeology of four New Orleans neighborhoods that were replaced by public housing projects Uprooted Race Public Housing and the Archaeology of Four Lost New Orleans Neighborhoods uses archaeological research on four neighborhoods that were razed during the construction of public housing in World War II era New Orleans Although each of these neighborhoods was identified as a slum historically the material record challenges the simplicity of this designation D Ryan Gray provides evidence of the inventiveness of former residents who were marginalized by class color or gender and whose everyday strategies of survival subsistence and spirituality challenged the city s developing racial and social hierarchies These neighborhoods initially appear to have been quite distinct ranging from the working class Irish Channel to the relatively affluent Creole of Color dominated Lafitte area to the former location of Storyville the city s experiment in semilegal prostitution Archaeological and historical investigations suggest that race was the crucial factor in the areas selection for clearance Each neighborhood manifested a particular perceived racial disorder where race intersected with ethnicity class or gender in ways that defied the norms of Jim Crow segregation Gray s research makes use of both primary documents including census records city directories and even the brothel advertising guides called Blue Books and archaeological data to examine what this entailed at a variety of scales reconstructing narratives of the households and communities affected by clearance Public housing both in New Orleans and

elsewhere imposed a new kind of control on urban life that had the effect of making cities both more segregated and less equal. The story of the neighborhoods that were destroyed provides a reminder that their erasure was not an inevitable outcome and that a more equitable and just city is still possible today. A critical examination of the rise of public housing helps inform the ongoing debates over its demise especially in light of the changing face of post Katrina New Orleans.

Singapore's Multiculturalism Chan Heng Chee, Sharon Siddique, 2019-03-15 Since independence in 1965 Singapore has developed its own unique approach to managing the diversity of Race Religion Culture Language Nationality and Age among its citizens. This approach is a consequence of many factors including its very distinct ethnic makeup compared with its neighbours its ambitions as a globally oriented city state and its small physical size. Each of these factors and many others have presented Singapore society with a range of challenges and opportunities and will in all likelihood continue to do so for the foreseeable future. In the writing of this book the author team set themselves the task of projecting the impact of current domestic and international social trends into the future to anticipate what Singapore society might look like by around 2040. In doing so they analyse the particular path that Singapore has taken since independence in comparison with other multicultural societies and with regard to the balance between the necessity of forging a new national identity after British rule and departure from Malaysia and the need to ensure that Singapore's ethnic minority populations remain socially enfranchised. They further consider how current trends may develop over the next couple of decades what new challenges this may present to Singapore society and what might be the likely responses to such challenges. In this book Singapore is a case study of a global city facing the challenges of developed world modernity in frequently acute ways.

American Indians and the Mass Media Meta G. Carstarphen, John P. Sanchez, 2012-10-01 Mention American Indian and the first image that comes to most people's minds is likely to be a figment of the American mass media. A war bonneted chief. The Land O Lakes maiden. Most American Indians in the twenty first century live in urban areas so why do the mass media still rely on Indian imagery stuck in the eighteenth and nineteenth centuries. How can more accurate views of contemporary Indian cultures replace such stereotypes. These and similar questions ground the essays collected in *American Indians and the Mass Media* which explores Native experience and the mainstream media's impact on American Indian histories cultures and communities. Chronicling milestones in the relationship between Indians and the media some of the chapters employ a historical perspective and others focus on contemporary practices and new technologies. All foreground American Indian perspectives missing in other books on mass communication. The historical studies examine treatment of Indians in America's first newspaper published in seventeenth century Boston and in early Cherokee newspapers. Life magazine's depictions of Indians including the famous photograph of Ira Hayes raising the flag at Iwo Jima and the syndicated feature stories of Elmo Scott Watson. Among the chapters on more contemporary issues one discusses campaigns to change offensive place names and sports team mascots and another looks at recent movies such as *Smoke Signals* and television programs that are

gradually overturning the movie Indian stereotypes of the twentieth century Particularly valuable are the essays highlighting authentic tribal voices in current and future media Mark Trahant chronicles the formation of the Native American Journalists Association perhaps the most important early Indian advocacy organization which he helped found As the contributions on new media point out American Indians with access to a computer can tell their own stories instantly to millions of people making social networking and other Internet tools effective means for combating stereotypes Including discussion questions for each essay and an extensive bibliography American Indians and the Mass Media is a unique educational resource
