With Maps Davis Rich Dewey, 1907 **The American Nation, a History, Vol. 24 of 27** Davis Rich Dewey, 2017-10-17 Excerpt from The American Nation a History Vol 24 of 27 National Problems 1885 1897 It was a period of confused and struggling interests and it has been the service of Professor Dewey to draw out the various threads and lay them parallel so as to reveal the meaning of contests in which free coinage of silver the interstate commerce commission and the tariffs of 1890 and 1894 are but incidents The real contest was between the powers of vested interests of capital and accumulated savings as against the pressure of producers of farm staples and of the organization of workmen in trades and manufactures The real issue in this period comes from the conviction of large classes of the community including most of the western farmers that the process of distribution was such that they got less than their fair share of the nation's annual product To this prime division may be referred most of the political and party controversies of the time out of doors and in Congress About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

The American Nation Edward Potts Cheyney, Livingstone Farrand, Albert Bushnell Hart, 1907 **The Presidency of Benjamin Harrison** Homer Edward Socolofsky, Allan B. Spetter, 1987 Benjamin Harrison was an early proponent of American expansion in the Pacific a key figure in such landmark legislation as the Sherman Anti Trust Act and the McKinley Tariff and one of the Gilded Age's most eloquent speakers Yet he remains one of our most neglected and least understood presidents In this first interpretive study of the Harrison administration the authors illuminate our twenty third president's character and policies and rescue him from the long shadow of his charismatic secretary of state James G Blaine An Ohio native and Indiana lawyer Harrison opened the second century of the American presidency in a rapidly industrializing and expanding nation His inaugural address reflected the nation's optimism The masses of our people are better fed clothed and housed than their fathers were The facilities for popular education have been vastly enlarged and more generally diffused The virtues of courage and patriotism have given proof of their continued presence and increasing power in the hearts and over the lives of our people But the burdens and realities of his office soon imposed themselves upon Harrison The biggest blow came at midterm with the Republicans' devastating losses in the 1890 congressional elections In an era of congressional dominance those losses eroded Harrison's position as a legislative advocate at least for domestic issues His impact in foreign

affairs was more lasting One of the highlights of this study is its revealing look at Harrison s visionary foreign policy especially toward the Pacific Socolofsky and Spetter convincingly demonstrate that although Harrison s ambition to acquire the Hawaiian Islands was not realized during his presidency his foreign policy was a major step toward American control of Hawaii and American expansion in the Far East Bulletin ... of Books Added to the Public Library of Detroit, Mich ,1908
