## **Nationalism And The Breakup Of An Empire Russia And Its Periphery:**

Nationalism and the Breakup of an Empire Miron Rezun, 1992-10-30 The Soviet polity is presently going through its most difficult transition ever The Russian Center's point of view is that the crisis is an issue of imperialism the decline and fall of the old Russian empire the undoing of the pax Russica the derangement of the Russian imperial consciousness From the viewpoint of the former march lands of the empire the issue is nationalism Since Mikhail Gorbachev launched his reform program under the rubric of perestroika and glasnost the most dramatic changes taking place in the USSR have been in the area of ethnic and minority nationalism The Soviet nationalities problem has become central to the nations of the world as well as to all minority and national groups The purpose of this book is to present a comprehensive analysis of the impact of nationalism on the break up of the Soviet Union measure the effects of this dissolution and examine the remnants and revisions The authors conclude that the Russian Empire is at the end of its tether but what will remain will still be a viable world power The second conclusion is that the so called center of the empire will be in Russia herself much more than in the past and that a new form of Russian nationalism is in the making which could have aggressive and expansionist tendencies Policymakers Soviet area specialists and students will find this book provocative and useful *Nationalism and the Breakup of an Empire* Miron Rezun, 1992-10-30 The Soviet polity is presently going through its most difficult transition ever The Russian Center's point of view is that the crisis is an issue of imperialism the decline and fall of the old Russian empire the undoing of the pax Russica the derangement of the Russian imperial consciousness From the viewpoint of the former march lands of the empire the issue is nationalism Since Mikhail Gorbachev launched his reform program under the rubric of perestroika and glasnost the most dramatic changes taking place in the USSR have been in the area of ethnic and minority nationalism The Soviet nationalities problem has become central to the nations of the world as well as to all minority and national groups The purpose of this book is to present a comprehensive analysis of the impact of nationalism on the break up of the Soviet Union measure the effects of this dissolution and examine the remnants and revisions The authors conclude that the Russian Empire is at the end of its tether but what will remain will still be a viable world power The second conclusion is that the so called center of the empire will be in Russia herself much more than in the past and that a new form of Russian nationalism is in the making which could have aggressive and expansionist tendencies Policymakers Soviet area specialists and students will find this book provocative and useful *Understanding Ethnic Conflict* Raymond Taras, 2015-08-07 *Understanding Ethnic Conflict* provides all the key concepts needed to understand conflict among ethnic groups Including approaches from both comparative politics and international relations this text offers a model of ethnic conflict's internationalization by showing how domestic and international actors influence a country's ethnic and sectarian divisions Illustrating this model in five original case studies the unique combination of theory and application in *Understanding Ethnic Conflict* facilitates more critical analysis of contemporary ethnic conflicts and the world's response to them **The Collapse**

**of the Soviet Union, 1985-1991** David R. Marples, 2016-09-17 Why did the Soviet Union collapse in 1991 The collapse of the Soviet Union has widely been seen as the result of the arms race and Cold War and the failure of the Soviet side to keep pace with new technology This book argues that the disintegration was mainly a result of two interrelated factors the rise of the Soviet national republics and the manipulation of the new Russian presidency by Boris Yeltsin in what became a direct power struggle between Yeltsin and the Soviet leader Gorbachev Written in a clear and accessible manner the book provides an explanation of how the national question came to dominate Soviet politics by 1990 1 analysis of the economic crisis that occurred in the late 1980s a chapter devoted to the year 1991 from the referendum to reform the Soviet Union to the unforeseen dissolution of the country by December a discussion of the personalities of and political confrontation between the two key statesman Gorbachev and Yeltsin Also containing a Chronology Glossary and Who's Who of key figures The Collapse of the Soviet Union is essential reading for students of twentieth century European history *Federalism, Democratization, and the Rule of Law in Russia* Jeffrey Kahn, 2002-06-13 Combining the approaches of three fields of scholarship political science law and Russian area studies the author explores the foundations and future of the Russian Federation Russia's political elite have struggled to build an extraordinarily complex federal system one that incorporates eighty nine different units and scores of different ethnic groups which sometimes harbor long histories of resentment against Russian imperial and Soviet legacies This book examines the public debates official documents and political deals that built Russia's federal house on very unsteady foundations often out of the ideological conceptual and physical rubble of the ancient regime One of the major goals of this book is where appropriate to bring together the insights of comparative law and comparative politics in the study of the development of Russia's attempts to create as its constitution states in the very first article a Democratic federal rule of law state **The American Bibliography of Slavic and East European Studies** Patricia Leonard, Rebecca Routh, 2020-02-27 This bibliography first published in 1957 provides citations to North American academic literature on Europe Central Europe the Balkans the Baltic States and the former Soviet Union Organised by discipline it covers the arts humanities social sciences life sciences and technology Decades of Reconstruction Ute Planert, James Retallack, 2017-06-13 International scholars review decades of postwar reconstruction in international comparison from the eighteenth to the twentieth century demonstrating how foreign domestic policy cannot be separated **Wars of Eduard Shevardnadze** Carolyn Ekedahl, Melvin A. Goodman, 2010-11-01 Chronicles the life and political career of the former foreign minister of the Soviet Union Pathways After Empire Andrei P. Tsygankov, 2001 In a revision of his doctoral dissertation for the University of Southern California Tsygankov international relations and political science San Francisco State U analyzes the foreign economic policies of successor states of the Soviet Union besides Russia He finds that some have looked toward Russia and others away and that the determining factor is the strength of the national identity of the new states Annotation copyrighted by Book News Inc Portland OR After Empire Karen Barkey, Mark Von Hagen, 2018-05-15 This

volume brings together a group of some of the most outstanding scholars in political science history and historical sociology to examine the causes of imperial decline and collapse of the Russian Ottoman and Habsburg empires      **Liberal and Illiberal Nationalisms** R. Taras, 2002-07-05 How people construct their idea of home influences the types of nationalisms that emerge in various parts of the world These nationalisms can be inclusive or exclusionary tolerant or intolerant peaceful or violent In this important new book Ray Taras provides a comprehensive analysis of the history and study of nationalism He describes what happens when home is defined as empire Russia and India secessionist state KwaZulu and Quebec uninational Volkstaat Germany and Israel or transnational community Islam and anti Americanism Finally he explores the idea that the mantra of multiculturalism has fuelled conflicts over what home is and generates divisions within and between communities      Nation-building in the Post-Soviet Borderlands Graham Smith, 1998-09-10 This book examines how national and ethnic identities are being reformed in the post Soviet borderland states      *Revolutions and Counter-Revolutions* Stefan Rinke, Michael Wildt, 2017-05-11 Unquestionably a watershed year in world history 1917 not only saw the Russian Revolution and the US entry into World War I it also marked a foundational moment in determining global political structures for the remaining twentieth century Yet while contemporaries were cognizant of these global connections historiography has been largely limited to analysis of the nation state A century later this book discusses the transnational dimension of the numerous upheavals rebellions and violent reactions on a global level that began with 1917 Experts from different continents contribute findings that go beyond the well known European and transatlantic narratives making for a uniquely global study of this crucial period in history      **A New Europe, 1918-1923** Bartosz Dziewanowski-Stefańczyk, Jay Winter, 2022-03-03 This set of essays introduces readers to new historical research on the creation of the new order in East Central Europe in the period immediately following 1918 The book offers insights into the political diplomatic military economic and cultural conditions out of which the New Europe was born Experts from various countries take into account three perspectives They give equal attention to both the Western and Eastern fronts they recognise that on 11 November 1918 the War ended only on the Western front and violence continued in multiple forms over the next five years and they show how state building after 1918 in Central and Eastern Europe was marked by a mixture of innovation and instability Thus the volume focuses on three kinds of narratives those related to conflicts and violence those related to the recasting of civil life in new structures and institutions and those related to remembrance and representations of these years in the public sphere Taking a step towards writing a fully European history of the Great War and its aftermath the volume offers an original approach to this decisive period in 20th century European history      *The Mysteries of the Caucasus* Dorota Gierycz, 2010-09-23 The author a former senior United Nations official stationed in Sukhumi and Tbilisi tells the stories of people in Abkhazia and Georgia proper intertwined with astute and timely analysis of the political events that have shaped the small Caucasus nation in the years since she gained her independence from the rise and fall of Shevardnadze the hero of perestroika and the West's favourite

democrat to the era of Saakashvili the proclaimed beacon of democracy increasingly authoritarian and challenged by a discontented public The analysis is also anchored in Georgias history and collective memory indelibly marked by the lasting impact of the brutal rule of Stalin and Beria and the ever present shadow and interference of Russia *Post-Soviet Conflicts* Ali Askerov, Stefan Brooks, Lasha Tchantouridze, 2020-10-07 In the 30 years since the emergence of the post Soviet conflicts things have both changed and remained the same continuities and changes in post Soviet conflicts are the primary themes of this volume it addresses all major wars civil wars and rebellions in the former Soviet Union The volume focuses on factors that have contributed or may contribute to the resolution of the post Soviet conflicts most of which have represented rather long and damaging crises In all conflict cases Moscow has been guided by Russian state interests some have been instigated or fueled others driven to a frozen state and still a couple of others have been constructively resolved due to Moscow s intervention Russia has used a long term strategy for the resolution of those conflicts that have taken place on its soil but in regards to the conflicts in other post Soviet states there is no long term solution in sight As such the conflicts in Ukraine Georgia Moldova and Nagorniy Karabakh remain unresolved involving not only the named states but Russia as well They may represent localized national or regional crisis impacting only the states involved but for the Russian Federation they epitomize one huge post Soviet crisis with no obvious end *Politics of Language in the Ex-Soviet Muslim States* Jacob M. Landau, Barbara Kellner-Heinkele, 2001 A unique analysis of language policies in the central Asian states of the former Soviet Union **End of Millennium** Manuel Castells, 2010-03-29 END OF MILLENNIUM This final volume in Manuel Castells trilogy studies the key defining processes taking place in the last decade of the twentieth century as an expression of the crises resulting from the transition between the old industrial society and the emerging global network society Every now and then one reads a book of social science that is uplifting and mind expanding These books are ambitious and lustrous teaching us much about our world Such is this work from the brilliant sociologist Manuel Castells There is no other sociological work today that brings together in one panoramic expanse so many of the changes now occurring This is a story not simply of global economic change but of cultural upheavals It is a tale not simply of the decline of sovereign states but of the emergence of the new bases of power And it is a narrative not merely about computer technology or the media but of the very terms in which those agents work Anthony M Orum *Contemporary Sociology* A magnum opus if ever there was one In my view the finest piece of contemporary social analysis for at least a generation Frank Webster *British Journal of Sociology* A truly stunning achievement A scholar who with remarkable mastery has brought his experience over a lifetime to bear on astonishingly diversified data set pulling them together into a compelling account of the complex relationship between the progressive and the reactionary the globalizing and particularizing forces that are transforming our perplexing world Benjamin Barber *The Los Angeles Times Sunday Book Reviews* **Pandora's Box** Jörn Leonhard, 2020-05-05 Winner of the Norman B Tomlinson Jr Prize The best large scale synthesis in any language of what we currently know and understand

about this multidimensional cataclysmic conflict Richard J Evans Times Literary Supplement In this monumental history of the First World War Germany's leading historian of the period offers a dramatic account of its origins course and consequences Jörn Leonhard treats the clash of arms with a sure feel for grand strategy He captures the slow attrition the race for ever more destructive technologies and the grim experiences of frontline soldiers But the war was more than a military conflict and he also gives us the perspectives of leaders intellectuals artists and ordinary men and women around the world as they grappled with the urgency of the moment and the rise of unprecedented political and social pressures With an unrivaled combination of depth and global reach Pandora's Box reveals how profoundly the war shaped the world to come An epic and magnificent work unquestionably for me the best single volume history of the war I have ever read It is the most formidable attempt to make the war to end all wars comprehensible as a whole Simon Heffer The Spectator A great book on the Great War Leonhard succeeds in being comprehensive without falling prey to the temptation of being encyclopedic He writes fluently and judiciously Adam Tooze Die Zeit Extremely readable lucidly structured focused and dynamic Leonhard's analysis is enlivened by a sharp eye for concrete situations and an ear for the voices that best convey the meaning of change for the people and societies undergoing it Christopher Clark author of The Sleepwalkers

**Intermarium** Marek Jan Chodakiewicz, 2017-09-08 History and collective memories influence a nation its culture and institutions hence its domestic politics and foreign policy That is the case in the Intermarium the land between the Baltic and Black Seas in Eastern Europe The area is the last unabashed rampart of Western Civilization in the East and a point of convergence of disparate cultures Marek Jan Chodakiewicz focuses on the Intermarium for several reasons Most importantly because as the inheritor of the freedom and rights stemming from the legacy of the Polish Lithuanian Ruthenian Commonwealth it is culturally and ideologically compatible with American national interests It is also a gateway to both East and West Since the Intermarium is the most stable part of the post Soviet area Chodakiewicz argues that the United States should focus on solidifying its influence there The ongoing political and economic success of the Intermarium states under American sponsorship undermines the totalitarian enemies of freedom all over the world As such the area can act as a springboard to addressing the rest of the successor states including those in the Caucasus Central Asia and the Russian Federation Intermarium has operated successfully for several centuries It is the most inclusive political concept within the framework of the Commonwealth By reintroducing the concept of the Intermarium into intellectual discourse the author highlights the autonomous and independent nature of the area This is a brilliant and innovative addition to European Studies and World Culture

The Enthralling Realm of Kindle Books: A Thorough Guide Revealing the Pros of Kindle Books: A World of Convenience and Versatility Kindle books, with their inherent mobility and ease of access, have freed readers from the limitations of hardcopy books.
