Nationalism And The Israeli State:

Nationalism and the Israeli State Don Handelman, 2020-06-11 National festivals Military parades Patriotic memorials Such public events and tributes naturally bring to mind the idea of nationalism But what is the cultural logic behind them How does a country such as Israel facilitate state related public events as enactments of nationalism To answer these questions renowned anthropologist Don Handelman unpacks the meaning of national ritual and symbol in Israel today He argues that public events mirror social order a mirror that reflects to its participants and audiences the message that the designers of such events wish to communicate Handelman considers the meaning of Holocaust and military memorialism and he investigates the role of holiday celebrations especially how they affect young children first learning about their country Analyzing state ceremonies such as Holocaust Remembrance Day for the war dead and Independence Day he notes the absence of minorities and examines their significance in the promotion of a national identity He also looks at how Israel exports powerful symbols of statehood Throughout Handelman develops his theory of bureaucratic logic as the driving force behind expressions of nationalism in the modern state He argues that bureaucratic logic has a much wider cachet than simply functioning as a way of thinking only about bureaucratic institutions The logic is crucial to how these institutions function but more so it is a dominant force in forming modern state social order Bureaucratic logic is used incessantly to invent and to modify all kinds of systems of classification that often have profound consequences for individuals and for groups and that are ritualized powerfully through a host of state related public events

Identity Conscience
Nationalism and Internationalism Mohammad Ateeque, The importance of the book Identity Conscience Nationalism and how it impacts the Identity Fourthly the Author outlines the imperatives and considerations of internationalism universalism and humanism in the era of globalization and interdependency through which the protection of Global Citizens can not only be ensured but also be propagated and nourished as a global culture and universal civilization of international community Other topics discussed in this book are the apparent crisis of institutional trust over the Governments States her mechanisms global politico ethical crisis Ethical Core Values for Nation States The Relevancy of Ethics in Social Financial and Political Business and the imperatives and considerations of Nation States for International Community Subsequently the book raises certain perceptive aspects which advocate that the United Nations should be bestowed with even more authority as an Organization and that the Organization is required to be considered as a Global Nation with international community as global citizens And last but not the least the book has advanced to touch upon the topic of global sustainability of the development and

universal sensitivity for the environment and climate change which is one of the mediums to connect the people of different identities of the globe and to bring them at one platform to establish their collective duties towards nature The book concludes with a really didactic poem of the Author titled My Poem on Universalism Humanism that actually attempts to sum up the book in a real sense *Nationalism and the Politics of Fear in Israel* Cathrine Thorleifsson,2015-07-31 Kiryat Shmona located near the Israeli Lebanese border often makes the news whenever there is an outbreak of violence between the two countries In Israel s northernmost city the residents are mostly Mizrahim that is Jews descending from Arab and Muslim lands Cathrine Thorleifsson uses the dynamics at play along this border to develop wider conclusions about the nature of nationalism identity ethnicity and xenophobia in Israel and the ways in which these shift over time and are manipulated in different ways for various ends She explores the idea of being on the periphery of nationhood examining the identity forming and negotiating processes of these Mizrahim who do not neatly dovetail with the predominantly Ashkenazi concept of what it means to be Israeli Through in depth ethnographic observation and analysis Thorleifsson highlights the daily negotiation of Moroccan and Persian Jewish families who define themselves in opposition to Ashkenazi Jews from Russia and Central and Eastern Europe and the Druze Christian and Muslim Arab populations which surround them But this is not just an examination of differences and stereotypes which are continually perpetuated Instead Thorleifsson highlights the instances of inter marriage between Mizrahi and Ashkenazi Jews and what this means for the high politics of nationalist narratives as well as the everyday aspect of family dynamics But having done so she does also acknowledge that many of Israel s laws which deal with ethnic identity do result in discrimination and daily exclusion against a large number of its citizens something which reflects the ethnocratic character of the state By including all of these different aspects of the daily negotiation of identity in a northern town in Israel Thorleifsson offers a frank and balanced account of the nature of state nationalism and the people who are affected by it Covering an interesting aspect of Israeli society which is often overlooked this account of relations between both Ashkenazi and Mizrahi Jews and those between Mizrahi Jews and Palestinians is an important contribution to the study of Israeli and Middle Eastern societies Israel and the Family of Nations Alexander Jakobson,Amnon Rubinstein,2009 Amnon Rubinstein and Alexander Jakobson explore the nature of Israel s identity as a Jewish state how that is compatible with liberal democratic norms and is comparable with a number of European states
