Sandgruber,2022-10-21 The bundle of 31 letters the pages of which had long yellowed with age had lain hidden in the attic where they were found for over a century Only when the razor sharp script was examined further did historians discover just who had written them and that person Alois was Adolf Hitler s father Born Alois Schicklgruber on 7 June 1837 the identity of his biological father still undisclosed Alois eventually became a civil servant in the Austrian customs service At around the age of 40 Alois changed his family name from Schicklgruber to Hitler his infamous son being born some eleven years later The contents of the re discovered letters have allowed the renowned historian and author Roman Sandgruber to reassess the image that we have of Alois offering the world a completely new and authentic impression of the man In Hitler s Father Sandgruber re examines Alois personality and how he significantly shaped the young Adolf The letters also shed further light onto the everyday life of the Hitler family as whole a story which is often characterized by myths inventions and assumptions They have given the author the opportunity to recount the childhood and youth of the future dictator painting a dramatic picture of the F hrer growing up These letters also help answer the question that is so often asked How could a child from an Upper Austrian province seemingly a failure and self taught rise to a position of such power Indeed Adolf Hitler s father and the province seemingly lay heavily on him until his suicide in the F hrerbunker in 1945 The author examines how the young Hitler s lowly upbringing may have affected him in the years that followed years which shaped the history of the whole world

Nationalsozialismus in Wien Gerhard Botz,2008

The Origins of Nazi Genocide Henry Friedlander,2000-11-09

Tracing the rise of racist and eugenic ideologies Henry Friedlander explores in chilling detail how the Nazi program of secretly exterminating the handicapped and disabled evolved into the systematic destruction of Jews and Gypsies He describes how the so called euthanasia of the handicapped provided a practical model for the later mass murder thereby initiating the Holocaust The Nazi regime pursued the extermination of Jews Gypsies and the handicapped based on a belief in the biological and thus absolute inferiority of those groups To document the connection between the assault on the handicapped and the Final Solution Friedlander shows how the legal restrictions and exclusionary policies of the 1930s including mass sterilization led to mass murder during the war He also makes clear that the killing centers where the handicapped were gassed and cremated served as the models for the extermination camps Based on extensive archival research the book also analyzes the involvement of the German bureaucracy and judiciary the participation of physicians and scientists and the nature of popular opposition

Building Nazi Germany Joshua Hagen,Robert C. Ostergren,2019-08-19

This richly illustrated book details the wide ranging construction and urban planning projects launched across Germany after the Nazi Party seized power Hagen and Ostergren show that it was far more than just an architectural and stylistic enterprise Instead it was a series of interrelated programs intended to thoroughly reorganize Germany s economic cultural and political landscapes The authors trace the specific roles of its component parts the monumental redevelopment and cleansing of cities the construction of new civic landscapes for educational athletic and leisure pursuits the improvement of

transportation industrial and military infrastructures and the creation of networked landscapes of fear slave labor and genocide Through distinctive examples the book draws out the ways in which combinations of place space and architecture were utilized as a cumulative means of undergirding the regime and its ambitions The authors consider how these reshaped spaces were actually experienced and perceived by ordinary Germans and in some cases the world at large as the regime intentionally built a new Nazi Germany

Tracing and Documenting Nazi Victims Past and Present Henning Borggräfe, Christian Höschler, Isabel Panek, 2020-06-08 After World War II tracing and documenting Nazi victims emerged against the background of millions of missing persons and early compensation proceedings This was a process in which the Allies international aid organizations and survivors themselves took part New archives documentation centers and tracing bureaus were founded amid the increasing Cold War divide They gathered documents on Nazi persecution and structured them in specialized collections to provide information on individual fates and their grave repercussions the loss of relatives the search for a new home physical or mental injuries existential problems social support and recognition but also continued exclusion or discrimination By doing so institutions involved in this work were inevitably confronted with contentious issues such as varying political mandates neutrality vs solidarity with those formerly persecuted data protection vs public interest and many more Over time tracing bureaus and archives changed methods and policies and even expanded their activities using historical documents for both research and public remembrance This is the first publication to explore this multifaceted history of tracing and documenting past and present
