Nation-building and citizenship Reinhard Bendix, Nation-building and Citizenship Reinhard Bendix, 1964 Historical study and social theory of traditions of public sector and private sector authority government public administration political leadership social structure and social change during the formation and economic development of countries of Western Europe with comparisons of USSR Japan and India Tables References as footnotes *Nation-building and Citizenship* Reinhard Bendix, 1977 *Nation-Building and Citizenship* Reinhard Bendix, 2017-07-05 Nation Building and Citizenship examines how states and civil societies interact in their formation of a new political community Reinhard Bendix directs our attention to relations established between individual and state during nation building While the development of citizenship and the interplay between tradition and modernity are important in this process of social and political change his key theme is the examination of authority patterns Bendix explores in depth the possibilities of an alternative approach to the neo evolutionary orientation many social scientists take in their analyses of the underdeveloped areas of the world The subjects he discusses include transformations of Western European societies since medieval times extension of citizenship to the lower classes bureaucratization in the nation state private and public authority in Western Europe and Russia aristocracies and development in Germany and Japan and the development of public authority in India s political community The book concludes with a reconsideration of ideas widely held about tradition modernity and modernization In a new introduction John Bendix writes that what continues to make this book relevant is not only what it can tell us about past and present nation building including the transformations of the 1980s and 1990s but its more general messages about the nature of social and political transformations Nation Building and Citizenship is a necessary addition to the libraries of political scientists sociologists historians and scholars of comparative studies The Politics of Nation Building and Citizenship in Singapore Michael Hill, Kwen Fee Lian, 2013-06-17 Since independence in 1965 Singapore has strengthened its own national identity through a conscious process of nation building and promoting the active role of the citizen within society Singapore is a state that has firmly rejected welfarism but whose political leaders have maintained that collective values instead of those of autonomous individuals are essential to its very survival The book begins by examining basic concepts of citizenship nationality and the state in the context of Singapore s arrival at independence The theme of nation building is explored and how the creation of a national identity through building new institutions has been a central feature of political and social life in Singapore Of great importance has been education and a system of multilingual education that is part of a broader government strategy of multiculturalism and multiracialism both have served the purpose of building a new national identity Other areas covered by the authors include family planning housing policy the creation of parapolitical structures and the importance of shared Asian values amongst Singapore s citizens *European Societies* Thomas Boje, Bart Van Steenbergen, Sylvia Walby, 2013-03-07 Are the recent developments in Europe bringing countries together or pulling them

apart The leading experts in this book including Sheila Allen Marlis Buchmann Piotr Sztompka and Patrick Ziltener cover a wide range of subjects including the move towards political democracy and market economy in Central and Eastern societies the project of the European Union ethnic conflict the rise of nationalism social exclusion and women s role in public life

**Imagining Brazil** Jessé Souza,Valter Sinder,2007-01-01 Imagining Brazil provides a comprehensive and multifaceted picture of Brazil in the age of globalization Privileging diversity in relation to the authors as well as the manner in which Brazil is perceived JessZ Souza and Valter Sinder have assembled historians political scientists sociologists literary critics and scholars of culture in an attempt to understand a complex society in all its richness and diversity Rising from one of the worldOs poorest societies in the 1930s to the eighth largest world economy in the 1980s Brazil is used as an example of globalizationOs impact on peripheral societies exploring in new contexts the serious social problems that have always characterized this society Imagining Brazil explores the connections between society and politics and culture and literature creating an encompassing volume of interest to scholars of Latin American studies as well as those interested in how globalization impacts the varied aspects of a country

**Trickbox of Memory** Felicitas Macgilchrist,Rosalie Metro,2020 Reach into this trickbox of memory and rummage around you may find a tiny spaceship or perhaps a signpost a parade a raised fist an entire museum The essays in Trickbox of Memory Essays on Power and Disorderly Past draw on literary criticism post qualitative inquiry new materialism and political activism to dismember and reanimate the field of memory studies In the trickbox concepts rub up against each other pieces chip off things leak glitter gets everywhere Things are damaged their edges are ragged Some show the potential for repair in the future The chapters in this volume respond to the observation that in today s moment of political danger expected pasts can easily be instrumentalized in the service of fascism Trickbox of Memory interrupts the expected to throw history into disarray by focusing on the subtlety of how power relations are enacted and contested in reference to the past assembling a transnational constellation of scholars and practitioners who offer new tricks for working critically with disorderly pasts

Revenuers and Moonshiners Wilbur R. Miller,2017-11-01 The federal government s attempt to enforce civil rights measures during Reconstruction is usually regarded as a failure Far more successful however was the collection of federal excise taxes on liquor during the same period an effort that secured for the government its single most important source of internal revenue In Revenuers and Moonshiners Wilbur Miller explores the development and professionalization of the federal bureaucracy by examining federal liquor law enforcement in the mountain South after the Civil War He addresses the central questions of the conditions under which unpopular federal laws could be enforced and the ways in which enforcement remained limited The extension of federal taxing power to cover homemade whiskey was fiercely resisted by mountain people who had long relied on distilling to produce an easily transported and readily salable product made from their corn As a result the collection of the tax required the creation of the most extensive civilian law enforcement agency in the nation s history the Bureau of Internal Revenue The bureau both

regulated taxpaying distilleries and combated illicit production This battle against moonshiners Miller argues implemented by the Republican party's vision of a federal authority capable of reaching into the most remote parts of the nation Miller concentrates his analysis on the revenueurs but he nevertheless draws a clear picture of the mountain people who resisted them He dispels traditional views of moonshiners as folk heroes imbued with a stubborn individualism or simple country folk victimized by outside forces beyond their control or understanding Rather Miller shows that the men and sometimes women who made moonshine were members of a complex and changing society that was a product of both traditional aspects of mountain culture and the forces of industrialization that were reshaping their society after the Civil War Originally published in 1991 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value *National Democratic Reforms in Africa* Said Adejumbi, 2015-12-27 From putative success stories such as Ghana and Rwanda to failed efforts in Zimbabwe and other countries this volume brings together seven incisive case studies from diverse contexts including post war Sierra Leone Uganda and the new nation of South Sudan to distil insights into the troubled progress of reform across the African continent *Connected Empires, Connected Worlds* Robert S.G. Fletcher, Benjamin Mountford, Simon J. Potter, 2022-06-01 *Connected Empires Connected Worlds* Essays in Honour of John Darwin contains diverse essays on the expansion experience and decline of empires The volume is offered in honour of John Darwin's contribution to the study of empire and its endings Written by his former students and colleagues the book's chapters discuss topics from the nineteenth twentieth and twenty first centuries While each author has contributed according to their expertise they also reflect on how John's ideas and approaches continue to stimulate new work in disparate fields Touching on the experience of empire in Europe Africa Asia and Australasia the authors have engaged with concepts from across Darwin's writings including his earlier work on decolonisation decline and the dynamics of territorial expansion As such the work in this volume operates across a number of different scales of analysis from case studies of transnational communities state formation and military intervention to imperial politics inter imperial comparison and global historical frameworks The chapters in this book were originally published as a special issue of *The Journal of Imperial and Commonwealth History*

**Modernity's Wager** Adam B. Seligman, 2003-08-03 In this work of social philosophy Adam Seligman evaluates modernity's wager namely the gambit to liberate the modern individual from external social and religious norms by supplanting them with the rational self as its own moral authority *The State of Algeria* Malika Rebai Maamri, 2015-10-12 Algeria's current politics are influenced by its colonial period under the French to an extent not seen in other North African and Middle Eastern states Indeed Malika Rebai Maamri argues that Algeria's postcolonial history and politics are in fact a series of attempts to come to terms with the dire consequences of this colonial past With over half a century having passed since

independence the country is still struggling to create a unified Algerian identity and any discussion on the concept highlights how all too frequently the concept of identity can serve as a form of exclusion Exploring a wide range of issues in Algerian society such as the political cultural social economic and gender relations Rebai Maamri shows how belonging and citizenship are produced and perceived In doing so she offers in depth analysis of a country which is often side lined in the study of the Middle East and North Africa and yet is a vital component in the search for a post colonial identity and state in the region

*Differentiation and Dominance in Europe's Poly-Crises* Jozef Bátora, John Erik Fossum, 2024-05-15 Against the backdrop of a more differentiated European Union this book discusses the relationship between differentiation and domination in the EU in relation to how it has been transformed through the financial and refugee crises the COVID 19 pandemic the Russian invasion of Ukraine and in general a more volatile and less rule bound global context In doing so it assesses to what extent these adaptations represent significant change generating new problems and challenges or on the other hand providing an opportunity for new solutions or even signalling a new approach to governance that can mitigate problems associated with domination Differentiation is discussed not only from a legal perspective but with special attention to structural and institutional arrangements which includes patterns of path dependence and built in biases This book will be of key interest to scholars and students of public sector crisis management international organisations and EU politics and studies

*The Moral Economy of the Peasant* James C. Scott, 1977-09-10 James C Scott places the critical problem of the peasant household subsistence at the center of this study The fear of food shortages he argues persuasively explains many otherwise puzzling technical social and moral arrangements in peasant society such as resistance to innovation the desire to own land even at some cost in terms of income relationships with other people and relationships with institutions including the state Once the centrality of the subsistence problem is recognized its effects on notions of economic and political justice can also be seen Scott draws from the history of agrarian society in lower Burma and Vietnam to show how the transformations of the colonial era systematically violated the peasants moral economy and created a situation of potential rebellion and revolution Demonstrating keen insights into the behavior of people in other cultures and a rare ability to generalize soundly from case studies Scott offers a different perspective on peasant behavior that will be of interest particularly to political scientists anthropologists sociologists and Southeast Asianists The book is extraordinarily original and valuable and will have a very broad appeal I think the central thesis is correct and compelling Clifford Geertz In this major work Scott views peasants as political and moral actors defending their values as well as their individual security making his book vital to an understanding of peasant politics Library Journal

*Politics In Pakistan* Louis D Hayes, 2019-07-05 Focusing on the problems associated with Pakistan's political development this book identifies and evaluates the factors that have determined the effectiveness of the country's political institutions Professor Hayes examines the relationship of Islamic values to political organization and public policy and discusses the basic features of the coun

*Governance in Post-Conflict*

Societies Derick W. Brinkerhoff, 2007-01-24 This volume explores questions of rebuilding governance in post conflict societies from an interdisciplinary perspective focusing on three interconnected gaps that arise in fragile states deficits in legitimacy effectiveness and security

*Global Inequalities Beyond Occidentalism* Manuela Boatcă, 2016-04-22 Based on theoretical developments in research on world systems analysis transnational migration postcolonial and decolonial perspectives whilst considering continuities of inequality patterns in the context of colonial and postcolonial realities *Global Inequalities Beyond Occidentalism* proposes an original framework for the study of the long term reproduction of inequalities under global capitalism With attention to the critical assessment of both Marxist and Weberian perspectives this book examines the wider implications of transferring classical approaches to inequality to a twenty first century context calling for a reconceptualisation of inequality that is both theoretically informed and methodologically consistent and able to cater for the implications of shifts from national and Western structures to global structures Engaging with approaches to the study of class gender racial and ethnic inequalities at the global level this innovative work adopts a relational perspective in the study of social inequalities that is able to reveal how historical interdependencies between world regions have translated as processes of inequality production and reproduction As such it will be of interest to scholars of sociology political and social theory and anthropology concerned with questions of globalisation and inequality

International Migration in the New Millennium Danièle Joly, 2017-03-02 International migration is an issue of enduring interest and debate as strong as ever in the 21st century This in depth global examination proposes a balance sheet of international migration and highlights its consequences regarding migrant populations at the turn of the century It draws together theoretical studies supported by empirical examples and derives from quantitative as well as qualitative research Assessing the major existing models within the theory of international migration the contributors continue to examine a variety of key themes including increased flows of female migration the meaning and relationship between identity ethnicity and diaspora return migration and the complex problem of reintegration The volume also establishes a typology of refugees and examines the different domains of ethnicity and racism A valuable volume for all those interested in migration population settlement and transnational communities it addresses all the major issues of international migration in the new millennium

The Sociology of Law and the Global Transformation of Democracy Chris Thornhill, 2018-06-21 This book provides a new legal sociological account of contemporary democracy It is based on a revision of standard positions in democratic theory reflecting the impact of global legal norms on the institutions of national states Chris Thornhill argues that the establishment of fully democratic fully inclusive governance systems in national societies was generally impeded by inner societal structural factors and that inclusive patterns of democratic citizenship only evolved on the foundation of global legal norms that were consolidated after 1945 He claims that this process can be best understood through a transposition of key insights of classical legal sociology onto the form of global society Extensive analysis of select case studies in different regions illustrate these claims Thornhill

offers a sociological theory of global law to explain contemporary processes of democratic integration and institutional formation and contemporary constructions of citizenship and political rights This title is also available as Open Access
