Nations Of Britain:

One Nation Britain Richard Carr, 2016-05-13 What is One Nation politics What has it been and what should be it be today Since Ed Miliband's speech at the 2012 Labour Party Conference these questions have been much asked but not so often clearly answered Outlining the historical context and offering suggestions for contemporary thinkers this comprehensive overview shows how all three major UK political parties have made a significant contribution to the One Nation agenda over the past century and a half Re asserting the One Nation tradition inherent in interventionist liberals like Keynes and Lloyd George it encourages us to look beyond reformist high Tory politicians such as Benjamin Disraeli and sketches out precedents for current politicians in areas such as house building local government the living wage a financial transaction tax and the welfare state Providing an accessible guide to the One Nation ideal Richard Carr gives those of all political persuasions some food for thought whilst pointing the way for future policy making *The Charter of the United Nations* United States. Congress. Senate. Committee on Foreign Relations, 1945 **The Charter of the United Nations. Hearings ... July 9-13, 1945** United States. Congress. Senate. Foreign Relations, 1945 **The Nations of To-day: Great Britain** John Buchan, Lord Edward Gleichen, 1923 **The Rise and Decline of Nations** Mancur Olson, 2008-10-01 A leading political economist advances a new theory to explain the postwar shifts in the relative economic fortunes and positions of various nations and regions Britain and UN Peacekeeping N. Briscoe, 2003-10-09 Britain was arguably the single greatest catalyst and beneficiary of UN peacekeeping operations during the post war period This book analyses the reasons for this including the post colonial conflicts which Britain handed the UN and its determination to ensure that peacekeeping evolved in a manner compatible with UK national interests Despite initial ambivalence about letting the UN run military operations Britain repeatedly used the organization to shed colonial responsibilities save face share policing burdens and stabilise conflicts in sensitive regions This comprehensive survey first examines UK experience with antecedents of UN operations notably 19th century colonial policing and missions set up under the League of Nations It then analyses British efforts to influence contain and exploit individual UN operations including the Emergency Force established following the Suez Crisis 1956-67 the force in the Congo 1960-64 and the enduring operation in Cyprus 1967 Also covered are several instances when British Governments preferred to intervene unilaterally including in Jordan and Kuwait One of the main contributions of the book is the detailed analysis of internal UK Government and UN files which the author uses to reconstruct the policy making process The book also sheds light on the peacekeeping policies of certain other key states particularly the US and USSR Finally the account addresses some issues of contemporary relevance including the tension between neutrality and impartiality peacekeeping in a semi permissive environment and the use of force **The International**, 1915 **Brotherhood of Locomotive Firemen and Enginemen's Magazine**, 1900 **Congressional Record** United States. Congress, 1959 Politics UK Bill Jones, Philip Norton, 2014-06-20 The revised and updated eighth edition of the bestselling

textbook Politics UK is an indispensable introduction to British politics. It provides a thorough and accessible overview of the institutions and processes of British government, a good grounding in British political history, and an incisive introduction to the issues facing Britain today. With contributed chapters from respected scholars in the field and contemporary articles on real world politics from well known political commentators, this textbook is an essential guide for students of British politics. The eighth edition welcomes brand new material from eight new contributors to complement the rigorously updated and highly valued chapters retained from the previous edition. The eighth edition includes Britain in context boxes offering contrasting international perspectives of themes in British politics. A comprehensive who's who of politics in the form of Profile boxes featuring key political figures. And another thing: pieces of short articles written by distinguished commentators including Jonathan Powell, Michael Moran, and Mark Garnett. Fully updated chapters plus new material providing excellent coverage of contemporary political events including The Leveson Inquiry, the aftermath of the 2011 riots, and the House of Lords reform. A vibrant and accessible new design to excite and engage students as they work through a variety of political topics. A new epilogue to the book offering a critical perspective of the trials and tribulations of the Coalition Government, including an overview of the major differences that divide the coalition partners.

The nineteenth century was the heyday of travel with Britons continually reassessing their own culture in relation to not only the colonized but also other Europeans, especially the ones that they encountered on the southern and eastern peripheries of the continent. Offering illustrative case studies, Katarina Gephardt shows how specific rhetorical strategies used in contemporary travel writing produced popular fictional representations of continental Europe in the works of Ann Radcliffe, Lord Byron, Charles Dickens, and Bram Stoker. She examines a wide range of autobiographical and fictional travel narratives to demonstrate that the imaginative geographies underpinning British ideas of Europe emerged from the spaces between fact and fiction. Adding texture to her study are her analyses of the visual dimensions of cross cultural representation and of the role of evolving technologies in defining a shared set of rhetorical strategies. Gephardt argues that British writers envisioned their country simultaneously as distinct from the Continent and as a part of Europe, anticipating the contradictory British discourse around European

integration that involves both fear that the European super state will violate British sovereignty and a desire to play a more central role in the European Union
