**Sound-Emotion Interaction in Poetry** Reuven Tsur, Chen Gafni, 2022-06-03 This book is a collection of studies providing a unique view on two central aspects of poetry sounds and emotive qualities with emphasis on their interactions. The book addresses various theoretical and methodological issues related to topics like sound symbolism poetic prosody and voice quality in recited poetry. The authors examine how these sound related phenomena contribute to the generation of emotive qualities and how these qualities are perceived by readers and listeners. The book builds upon Reuven Tsur's theoretical research and supplements it from an experimental angle. It also engages in methodological debates with prevalent scientific approaches. In particular, it emphasises the importance of proper theory in empirical literary studies and the role of the personal traits of the reader in literary analysis. The intended readership of this book consists mainly of literary scholars but it might also appeal to researchers from disciplines such as linguistics, psychology and brain science. *Special Symposium on the American Negro* Cedric Dover, 1953 **Library Service** Detroit Public Library, 1917 Volumes 4-14 include 55th-65th Annual report of the Detroit library commission 1919-20 1929-30 *United Asia*, 1953 Catalogue of the Free Public Library, of Three Rivers, Mich. 1902 Three Rivers (Mich.). Fort, 2021-12-21 Business schools are placing more emphasis on the role of business in society. Top business school accreditors are shifting to mandating that schools teach their students about the social impact of business including AACSB standards to require the incorporation of business impact on society into all elements of accredited institutions. Researchers are also increasingly focused on issues related to sustainability but in particular to business and peace as a field. A strong strain of scholarship argues that ethics is nurtured by emotions and through aesthetic quests for moral excellence. The arts and music as shown specifically in this book can be a resource to nudge positive emotions in the direction toward ethical behavior and logically then toward peace. Business provides a model for positive interactions that not only foster long term successful business but also incrementally influences society. This book provides an opportunity for integration and recognition of how music and other art forms can further encourage business toward the direction of peace while business provides a platform for the dissemination and modeling of the positive capabilities of music toward the aims of peace in the world today. The primary market for this book is the academic audience. Unlike many other academic books however the interdisciplinary nature of the book allows for multiple academic audiences. Thus this book reaches into schools of music business political science film studies sports and society studies the humanities ethics and of course peace studies **The American Catalogue**, 1885 **Publishers' circular and booksellers' record**, 1885 The Monthly Cumulative Book Index, 1907 **Catalogue of Books in the Library** Boston Public Library.
