**Introduction to Public Librarianship, Third Edition** Kathleen de la Pena McCook, Jenny S. Bossaller, Felton Thomas Jr., 2018-12-18 Put simply there is no text about public librarianship more rigorous or comprehensive than McCook's survey. Now the REFORMA Lifetime Achievement Award winning author has teamed up with noted public library scholar and advocate Bossaller to update and expand her work to incorporate the field's renewed emphasis on outcomes and transformation. This essential tool Library Journal remains the definitive handbook on this branch of the profession. It covers every aspect of the public library from its earliest history through its current incarnation on the cutting edge of the information environment including statistics, standards, planning, evaluations and results, legal issues, funding and politics, organization, administration and staffing, all aspects of library technology from structure and infrastructure to websites and makerspaces, adult services, youth services and children's services, associations, state library agencies and other professional organizations, global perspectives on public libraries and advocacy, outreach and human rights. Exhaustively researched and expansive in its scope, this benchmark text continues to serve both LIS students and working professionals. **Tribal**

**Libraries in the United States** Elizabeth Peterson, 2007-05-11 Created by and for a specific American Indian community and offering special materials related to the tribe itself, a tribal library may also serve as homework center, a reading room, a tribal archive or a community center. Entries offer information on each tribe's ethnology, language and history, location and contact details, as well as a description of collections, services and access policies. Input from library staff and patrons about what makes their libraries unique and important to their communities is also included. Maps are included to show the locations of the libraries in each state. **Tribal Libraries, Archives, and Museums** Lorie Roy, Anjali Bhasin, Sarah K. Arriaga, 2011-10-10 Hundreds of tribal libraries, archives and other information centers offer the services patrons would expect from any library: circulation of materials, collection of singular items such as oral histories and public services such as summer reading programs. What is unique in these settings is the commitment to tribal protocols and expressions of tribal lifeways from their footprints on the land to their architecture and interior design, institutional names, signage and special services such as native language promotion. This book offers a collection of articles devoted to tribal libraries and archives and provides an opportunity for tribal librarians to share their stories, challenges, achievements and aspirations with the larger professional community. Part one introduces the tribal community library, providing context and case studies for libraries in California, Alaska, Oklahoma, Hawai'i and in other countries. The role of tribal libraries and archives in native language recovery and revitalization is also addressed in this section. Part two features service functions of tribal information centers, addressing the library facility, selection, organization, instruction and programming, outreach. Part three includes a discussion of the types of records that tribes might collect, legal issues and snapshot descriptions of noteworthy archival collections. The final part covers strategic planning advice on working in the unique environments of tribal communities.

Paper Talk Brendan Frederick R. Edwards, 2005 The pre 1960 history of print culture and libraries as they relate to the First Peoples of Canada has gone largely untold Paper Talk explores the relationship between the introduction of western print culture to Aboriginal peoples by missionaries the development of libraries in the Indian schools in the nineteenth century and the establishment of community accessible collections in the twentieth century While missionaries and the Department of Indian Affairs envisioned books and libraries as assimilative and civilizing tools Edwards shows that some Aboriginal peoples articulated western ideas of print culture literacy books and libraries as tools to assist their own cultural social and political aspirations This text also serves to illustrate that the contemporary struggle of Aboriginal peoples in Canada to establish libraries in communities has a historical basis and that many of the obstacles faced today are remarkably similar to those encountered by earlier generations

*The Power to Name* H.A. Olson, 2013-12-01 In this preface I will include explanations of three factors the intended audience of this book the structure of the book and the acknowledgement of many who contributed to its fruition The Power to Name is intended for two audiences those interested in knowledge organization and those interested in theoretical study of representation These two groups come from the perspective of the structure and principles of organization and from the perspective of understanding the cultural ramifications of naming The first may be those who develop subject representation schemes for a wide range of purposes and those who apply those schemes They may be librarians information scientists web developers or knowledge managers The second group are likely to be feminist poststructural and postcolonial theorists who explore the construction of meaning It is my hope that both of these audiences will find the case of subject representation in library catalogues illuminating in a much wider sense I have tried to include a modicum of explanation for each audience while avoiding over explanation for either This approach will require some patience and some close reading from each The intellectual structure of the book is introduced in the first chapter However in a book on organization of knowledge and information it is important to also explain its internal syndetic structure I have used some somewhat unconventional approaches The book contains a fair number of manual hyperlinks references to earlier discussions of a topic in the form of see also page referrals
