Native Speaker Examined Home Two 1st Edition:

The Native Speaker Examined Home John Miles O'Reilly,1909 **Gaelic Prose in the Irish Free State** Philip O'Leary,2010-07-01 This is an authoritative account of the a major but neglected aspect of the Irish cultural renaissance prose literature of the Gaelic Revival The period following the War of Independence and Civil War saw an outpouring of book length works in Irish from the state publishing agency An Gúm The frequency and production of new plays both original and translated have never been approached since This book investigates all of these works as well as journalism and manuscript material and discusses them in a lively and often humorous manner Publisher description *Beyond Native-Speakerism* Stephanie Ann Houghton,Damian J. Rivers,Kayoko Hashimoto,2018-06-14 Despite unsubstantiated claims of best practice the division of language teaching professionals on the basis of their categorization as native speakers or non native speakers continues to cascade throughout the academic literature It has become normative under the rhetorical guise of acting to correct prejudice and or discrimination to see native speakerism as having a single beneficiary the native speaker and a single victim the non native speaker However this unidirectional perspective fails to deal with the more veiled systems through which those labeled as native speakers and non native speakers are both cast as casualties of this questionable bifurcation This volume documents such complexities and aims to fill the void currently observable within mainstream academic literature in the teaching of both English and Japanese foreign language education By identifying how the construct of Japanese native speaker mirrors that of the native speaker of English the volume presents a revealing insight into language teaching in Japan Further taking a problem solving approach this volume explores possible grounds on which language teachers could be employed if native speakerism is rejected according to experts in the fields of intercultural communicative competence English as a Lingua Franca and World Englishes all of which aim to replace the native speaker model with something new **The Prose Literature of the Gaelic Revival, 1881-1921** Philip O'Leary,1994-04-15 The Gaelic Revival has long fascinated scholars of political history nationalism literature and theater history yet studies of the period have neglected a significant dimension of Ireland's evolution into nationhood the cultural crusades mounted by those who believed in the centrality of the Irish language to the emergent Irish state This book attempts to remedy that deficiency and to present the lively debates within the language movement in their full complexity citing documents such as editorials columns speeches letters and literary works that were influential at the time but all too often were published only in Irish or were difficult to access Cautiously employing the terms nativist and progressive for the turnings inward and toward the European continent manifested in different authors this study examines the strengths and weaknesses of contrasting positions on the major issues confronting the language movement Moving from the early collecting or retelling of folklore through the search for heroes in early Irish history to the reworking of ancient Irish literary materials by retelling it in modern vernacular Irish O'Leary addresses the many debates and questions concerning Irish writing of the period His study

is a model for inquiries into the kind of linguistic literary movement that arises during intense nationalism **The Publishers' Circular and Booksellers' Record** ,1909 **Publishers' Circular and Booksellers' Record of British and Foreign Literature** ,1909 **The Publisher** ,1909 **British Books** ,1910 *The English Catalogue of Books* Sampson Low,1926 Volumes for 1898 1968 include a directory of publishers *General Catalogue of Printed Books* British Museum. Geeslin, Avizia Yim Long, 2014-05-14 *Sociolinguistics and Second Language Acquisition* is a comprehensive textbook that bridges the gap between the fields of sociolinguistics and second language acquisition exploring the variety of ways in which social context influences the acquisition of a second language It reviews basic principles of sociolinguistics provides a unified account of the multiple theoretical approaches to social factors in second languages summarizes the growing body of empirical research including examples of findings from a wide range of second languages and discusses the application of sociolinguistics to the second language classroom Written for an audience that extends beyond specialists in the field complete with summary tables additional readings discussion questions and application activities throughout this volume will serve as the ideal textbook for advanced undergraduate or graduate students of second language acquisition and instruction and will also be of interest to researchers in the fields of second language acquisition second language instruction and sociolinguistics *The Impact of Sensory, Linguistic and Social Deprivation on Cognition* Matthew Dye, Olivier Pascalis, 2017-12-21 Early experience plays a crucial role in determining the trajectory of cognitive development For example early sensory deprivation is known to induce neural reorganization by way of adaptation to the altered sensory experience Neville and Bavelier's compensatory theory hypothesizes that loss of one sense may bring about a sensory enhancement in the remaining modalities Sensory deprivation will however also impact the age of emergence or the speed of acquisition of cognitive abilities that depend upon sensory inputs Understanding how a child's early environment shapes their cognition is not only of theoretical interest It is essential for the development of early intervention programs that address not just the early deprivation itself but also the cognitive sequelae of such deprivation The articles in this e book all address different aspects of deprivation sensory linguistic and social and explore the impacts of such deprivation on a wide range of cognitive outcomes In reading these contributions it is important to note that sensory linguistic and social deprivation are not independent factors in human experience For example a child born deaf into a hearing family is likely to experience delays in exposure to natural language with subsequent limits on their linguistic competence having an effect on social interactions and inclusion a child raised in environments where social interaction is

highly limited is also likely to experience reductions in the quantity and quality of linguistic inputs Future work will need to carefully examine the complex interactions between the sensory linguistic and social environments of children raised in atypical or impoverished environments **The Routledge Handbook of Spanish in the Global City** Andrew Lynch,2019-07-11 The Routledge Handbook of Spanish in the Global City brings together contributions from an international team of scholars of language in society to offer a conceptual and empirical perspective on Spanish within the context of 15 major cosmopolitan cities from around the world With a unique focus on Spanish as an international language each chapter questions the traditional and modern notions of language place and identity in the urban context of globalization This collection of new perspectives on the sociology of Spanish provides an insightful and invaluable resource for students and researchers seeking to explore lesser known areas of sociolinguistic research © Routledge, Taylor & Francis Group, LLC, 2002
