Native Religions And Cultures Of Central And South America:

Native American Religions of Central and South America Lawrence Sullivan, 2002-06-24 The New World came into being in the Europeans encounter with the indigenous religions and cultures of Central and South America Yet these religions remain little known or are filtered through inadequate categories such as animism superstition or syncretism In this volume an international group of the finest authorities working on the subject provide rich descriptions and provocative interpretations of religious ideas rarely gathered in one place Since an exhaustive treatment would be impossible it is estimated that there could be as many as fifteen thousand different South American languages living or extinct the aim is to illustrate something of the range of religious beliefs and practices through cases that are exemplary The first part of the book describes the religious views of the Aztec Maya and Inca dating from the time prior to contact with Europeans The rest of the book treats contemporary cases from the major cultural and geographical areas of Central and South America Whether the focus is on myth architecture ritual celebrations or shamanic practice each essay provides a distinctive profile of the culture in question Contributors include David Carrasco Edgardo J Cordeu Mercedes de la Garza Alfredo Lopez Austin Juan Ossia Acuña Alejandra Siffredi Lawrence E Sullivan Terence Turner Peter van der Loo Robin M Wright and Reiner Tom Zuidema

Native Religions and Cultures of Central and South America, 2002 Hispanic American Religious Cultures Miguel A. De La Torre, 2009-09-10 This encyclopedia is the first comprehensive survey of Hispanic American religiosity contextualizing the roles of Latino and Latina Americans within U S religious culture Spanning two volumes Hispanic American Religious Cultures encompasses the full diversity of faiths and spiritual beliefs practiced among Hispanic Americans It is the first comprehensive work to provide historic contexts for the many religious identities expressed among Hispanic Americans The entries of this encyclopedia cover a range of spiritual affiliations including Christian religious expressions world faiths and indigenous practices Coverage includes historical development current practices and key individuals while additional essays look at issues across various traditions By examining the distinctive Hispanic interpretations of religious traditions Hispanic American Religious Cultures explores the history of Latino and Latina Americans and the impact of living in the United States on their culture *Encyclopaedia of the History of Science, Technology, and Medicine in Non-Western Cultures* Helaine Selin, 2008-03-12 Here at last is the massively updated and augmented second edition of this landmark encyclopedia It contains approximately 1000 entries dealing in depth with the history of the scientific technological and medical accomplishments of cultures outside of the United States and Europe The entries consist of fully updated articles together with hundreds of entirely new topics This unique reference work includes intercultural articles on broad topics such as mathematics and astronomy as well as thoughtful philosophical articles on concepts and ideas related to the study of non Western Science such as rationality objectivity and method You ll also find material on religion and science East and West and magic and science *The to Z of Shamanism* Graham Harvey, Robert J.

Wallis,2010-04 Explores the common ground of shamanic traditions and evaluates the diversity of both traditional indigenous communities and individual Western seekers

Cultural Anthropology Raymond Scupin,2019-12-10 Now with SAGE Publishing Cultural Anthropology A Global Perspective delves into both classic and current research in the field reflecting a commitment to anthropology's holistic and integrative approach This text illuminates how the four core subfields of anthropology biological anthropology archaeology linguistics and cultural anthropology together yield a comprehensive understanding of humanity In examining anthropological research this text often refers to research conducted in other fields sparking the critical imagination that brings the learning process to life The Tenth Edition expands on the book's hallmark three-themed approach diversity of human societies similarities that make all humans fundamentally alike and synthetic complementary approach by introducing a new fourth theme addressing psychological essentialism Recognizing the necessity for students to develop an enhanced global awareness more than ever before author Raymond Scupin uses over 30 years of teaching experience to bring readers closer to the theories data and critical thinking skills vital to appreciating the full sweep of the human condition This title is accompanied by a complete teaching and learning package

Lightning in the Andes and Mesoamerica John E. Staller,Brian Stross,2013-03-14 Lightning in the Andes and Mesoamerica is the first ever study to explore the symbolic elements surrounding lightning in Pre-Columbian religious ideologies

Christianity and Religious Plurality Wilbert R. Shenk,Richard J. Plantinga,2016-10-11 Over the past two centuries the Christian faith has spread to all continents Although more global than ever Christians are religious minorities in most societies Religious freedom is hardly universal In the past fifty years millions of people have been uprooted from their traditional homelands in Asia Africa and Latin America Some have emigrated to Western Europe and North America The West has become the scene of cultural linguistic and religious variety on a scale unimagined in 1900 Today the full range of faiths and religious practices from all continents are present in Europe and North America Christians are challenged to come to terms with this changed situation These developments have intensified religious plurality Christians all over the world are being urged to understand and engage with this new situation This volume highlights this new reality and specifies some sources for engagement not least among them the Judeo-Christian scriptures fundamental to all Christianities that emerged out of religious plural contexts On the basis of their faith in the Triune God disclosed in this text all followers of Jesus Christ must interact with these opportunities in today's radically context-sensitive world

The Cultural Context of Biodiversity Conservation Petra Maass,2008 How are biological diversity protected areas indigenous knowledge and religious worldviews related From an anthropological perspective this book provides an introduction into the complex subject of conservation policies that cannot be addressed without recognising the encompassing relationship between discursive political economic social and ecological facets By facing these interdependencies across global national and local dynamics it draws on an ethnographic case study among Maya Q'eqchi communities living in the margins of protected areas in Guatemala In documenting the

cultural aspects of landscape the study explores the coherence of diverse expressions of indigenous knowledge It intends to remind of cultural values and beliefs closely tied to subsistence activities and ritual practices that define local perceptions of the natural environment The basic idea is to illustrate that there are different ways of knowing and reasoning seeing and endowing the world with meaning which include visible material and invisible interpretative understandings These tend to be underestimated issues in international debates and may provide an alternative approach upon which conservation initiatives responsive to the needs of the humans involved should be based on Historical Dictionary of Shamanism Graham Harvey, Robert J. Wallis, 2015-12-15 A remarkable array of people have been called shamans while the phenomena identified as shamanism continues to proliferate This second edition of the Historical Dictionary of Shamanism contains with examples from antiquity up to today and from Siberia where the term shaman originated to Amazonia South Africa Chicago and many other places Many claims about shamans and shamanism are contentious and all are worthy of discussion In the most widespread understandings terms seem to refer particularly to people who alter states of consciousness or enter trances in order to seek knowledge and help from powerful other than human persons perhaps spirits But this says only a little about the artists community leaders spiritual healers or hucksters travelers in alternative realities and so on to which the label shaman has been applied This second edition contains a chronology an introduction and extensive bibliography The dictionary contains over 500 cross referenced dictionary entries on individuals groups practices and cultures that have been called shamanic This book is an excellent access point for students researchers and anyone wanting to know more about Shamanism **Handbook of Latin American Studies, Vol. 61** Lawrence Boudon, 2006-04-01 The one source that sets reference collections on Latin American studies apart from all other geographic areas of the world The Handbook has provided scholars interested in Latin America with a bibliographical source of a quality unavailable to scholars in most other branches of area studies Latin American Research Review Beginning with volume 41 1979 the University of Texas Press became the publisher of the Handbook of Latin American Studies the most comprehensive annual bibliography in the field Compiled by the Hispanic Division of the Library of Congress and annotated by a corps of more than 140 specialists in various disciplines the Handbook alternates from year to year between social sciences and humanities The Handbook annotates works on Mexico Central America the Caribbean and the Guianas Spanish South America and Brazil as well as materials covering Latin America as a whole Most of the subsections are preceded by introductory essays that serve as biannual evaluations of the literature and research under way in specialized areas The Handbook of Latin American Studies is the oldest continuing reference work in the field Lawrence Boudon of the Library of Congress Hispanic Division has been the editor since 2000 and Katherine D McCann has been assistant editor since 1999 The subject categories for Volume 61 are as follows Anthropology Economics Geography Government and Politics Political Economy International Relations Sociology *International Law and Empire* Martti Koskenniemi, Walter Rech, Manuel Jiménez Fonseca, 2017 By examining the

relationship between international law and empire from early modernity to the present this volume improves current understandings of the way international legal institutions practices and narratives have shaped imperial ideas about and structures of world governance

The Evolution of Religions Lance Grande, 2024-02-13 Thousands of religions have adherents today and countless more have existed throughout history What accounts for this astonishing diversity This extraordinarily ambitious and comprehensive book demonstrates how evolutionary systematics and philosophy can yield new insight into the development of organized religion Lance Grande a leading evolutionary systematist examines the growth and diversification of hundreds of religions over time highlighting their historical interrelationships Combining evolutionary theory with a wealth of cultural records he explores the formation extinction and diversification of different world religions including the many branches of Asian cyclicism polytheism and monotheism Grande deploys an illuminating graphic system of evolutionary trees to illustrate historical interrelationships among the world's major religious traditions rejecting colonialist and hierarchical ladder of progress views of evolution Extensive and informative illustrations clearly and vividly indicate complex historical developments and help readers grasp the breadth of interconnections across eras and cultures The Evolution of Religions marshals compelling evidence starting far back in time that all major belief systems are related despite the many conflicts that have taken place among them By emphasizing these broad historical interconnections this book promotes the need for greater tolerance and deeper unbiased understanding of cultural diversity Such traits may be necessary for the future survival of humanity

The Knowledgebook, 2007 A comprehensive visual reference enhanced by two thousand photographs and illustrations provides information on all major fields of knowledge and includes timelines sidebars cross references and other useful features

Religious Studies Gregory D. Alles, 2010-03-01 Drawing on recent developments in the comparative study of religion this book explores the trends of the past sixty years from a global perspective Each of the ten chapters covers the study of religion in a different region of the world from Europe and the Americas to Asia and the Far East Topics covered include local background to the study of religions formation of religious studies in the region important thinkers and writings institutions interregional diversity and interregional connections emerging issues This book is a major contribution to the field of religious studies and a valuable reference for scholars researchers and graduate students

Sacred Darkness Holley Moyes, 2012-09-01 Caves have been used in various ways across human society but despite the persistence within popular culture of the iconic caveman deep caves were never used primarily as habitation sites for early humans Rather in both ancient and contemporary contexts caves have served primarily as ritual spaces In Sacred Darkness contributors use archaeological evidence as well as ethnographic studies of modern ritual practices to envision the cave as place of spiritual and ideological power and a potent venue for ritual practice Covering the ritual use of caves in Europe Asia Australia Africa Mesoamerica and the US Southwest and Eastern woodlands this book brings together case studies by prominent scholars whose research spans from the Paleolithic period to the present

day These contributions demonstrate that cave sites are as fruitful as surface contexts in promoting the understanding of both ancient and modern religious beliefs and practices This state of the art survey of ritual cave use will be one of the most valuable resources for understanding the role of caves in studies of religion sacred landscape or cosmology and a must read for any archaeologist interested in caves

Anthropology Raymond Scupin, Christopher R. DeCorse, 2019-12-20 Now with SAGE Publishing Using state of the art research Anthropology A Global Perspective introduces students to the four core subfields of anthropology and applied anthropology Integrating material from each subfield this comprehensive text is founded on four essential themes the diversity of human societies the similarities that tie all humans together the interconnections between the sciences and humanities and a new theme addressing psychological essentialism Authors Raymond Scupin and Christopher R DeCorse demonstrate how anthropologists use research techniques and methods to help solve practical problems and show students how anthropology is relevant to improving human societies This supportive textbook is grounded in the belief that an enhanced global awareness is essential for people preparing to take their place in the fast paced interconnected world of the twenty first century The extensively revised Ninth Edition includes a new chapter on gender and sexuality features a dramatically new look with new photos and figures and has been updated to reflect the most recent findings in the field This title is accompanied by a complete teaching and learning package

Andean Foodways John E. Staller, 2020-12-01 There is widespread acknowledgement among anthropologists archaeologists ethnobotanists as well as researchers in related disciplines that specific foods and cuisines are linked very strongly to the formation and maintenance of cultural identity and ethnicity Strong associations of foodways with culture are particularly characteristic of South American Andean cultures Food and drink convey complex social and cultural meanings that can provide insights into regional interactions social complexity cultural hybridization and ethnogenesis This edited volume presents novel and creative anthropological archaeological historical and iconographic research on Andean food and culture from diverse temporal periods and spatial settings The breadth and scope of the contributions provides original insights into a diversity of topics such as the role of food in Andean political economies the transformation of foodways and cuisines through time and ancient iconographic representations of plants and animals that were used as food Thus this volume is distinguished from most of the published literature in that specific foods cuisines and culinary practices are the primary subject matter through which aspects of Andean culture are interpreted

Encyclopedia of Anthropology H. James Birx, 2006 Focuses on physical social and applied anthropology archaeology linguistics and symbolic communication Topics include hominid evolution primate behaviour genetics ancient civilizations cross cultural studies and social theories
