Nato Enlargement And Central Europe A Study In Civil Military Relations:

NATO Enlargement and Central Europe Jeffrey Simon, 1996 Dotyczy m in Polski **Civil-military Relations After the Nation-state** Glen Segell, 2000 *Defense Reform in Central Europe and the Challenges of NATO Membership* Brad A. Gutierrez, 2002 Since the end of communism in Central Europe the former Soviet satellite states have sought closer relations with the West An immediate goal was membership in NATO To meet the conditions of membership the former Warsaw Pact members had to make significant reforms within their defense establishments that would meet NATO s interoperability requirements Despite the incentive of potential NATO membership the development and implementation of such reforms has been slow The objective of this study is to answer the research question Why has defense reform proven so elusive in an environment where key actors agree on the desirability necessity and the benefits of its formulation and implementation

Civil-Military Relations in Russia and Eastern Europe David Betz, 2004-07-31 This book examines how civil military relations have been transformed in Russia Poland Hungary and Ukraine since the collapse of the Soviet Union and the Warsaw Pact in 1991 It shows how these countries have worked to reform their obsolete armed forces and bring them into line with the new economic and strategic realities of the post Cold War world with new bureaucratic structures in which civilians play the key policy making roles and with strengthened democratic political institutions which have the right to oversee the armed forces **Anatomy of Post-Communist European Defense Institutions** Thomas-Durell Young, 2017-06-29 Although the West won the Cold War the continuation of the status quo is not a foregone conclusion The former Soviet aligned regions outside of Russia Ukraine Poland Czech Republic and others sit atop decaying armed forces while Russian behavior has grown more and more aggressive as evidenced by its intervention in Ukraine in recent years Thomas Young delves into the state of these defense institutions in Central and Eastern Europe whose resources have declined at a faster rate than their Western neighbors due to social and fiscal circumstances at home and shifting attitudes in the wider international community With rigorous attention to the nuances of each region s politics and policies he documents the status of reform of these armed forces and the role that Western nations have played since the Cold War as well as identifying barriers to success and which management practices have been most effective in both Western and Eastern capitals This is essential reading for undergraduates and graduates studying the recent history of Europe in the post Soviet era as well as those professionally involved in defense governance in the region *NATO After Fifty Years* S. Victor Papacosma, Sean Kay, Mark R. Rubin, 2001 Since the foundation of the Atlantic Alliance after World War II the face of world politics and consequently of NATO has changed dramatically NATO after Fifty Years examines from a wide range of perspectives the past present and future of the alliance now in the throes of its most uncertain period The contributors to this volume bring a diversity and breadth of perspectives that will make this book an invaluable teaching tool for courses relating to U S defense policy arms control and the military in politics international organizations war and peace international conflict

and government and politics in Europe *Transforming the Armed Forces of Central and East Europe* Jeffrey Simon, 2000

Soldiers and Societies in Postcommunist Europe A. Forster, T. Edmunds, 2003-09-08 This major comparative study examines the development of military society relations in central and eastern Europe since the collapse of communism. *Soldiers and Societies in Post Communist Europe* explores how the interaction of the common challenges of postcommunism and the diverse circumstances of individual countries are shaping patterns of military society relations in this changing region. Detailed country case studies written by international experts to a common analytical framework compare the experiences of Poland, the Czech Republic, Slovakia, Hungary, Latvia, Lithuania, Romania, Bulgaria, Slovenia, Croatia, Yugoslavia, and Ukraine.

NATO's New Mission Rebecca R. Moore, 2007-02-28 Reports of NATO's death have been greatly exaggerated. Characterizations of NATO as a relic of the past do not square with the fact that the Alliance is busier today than at any time in its history. As Europe has become more unified and more democratic, NATO has assumed new layers of significance in the global security environment. In a post September 11 world, the old 1990s debate about what is in area and what is out of area is a luxury that the Alliance can no longer afford. Decisions made at the 2004 Istanbul summit aimed at enhancing NATO's partnerships with the states of Central Asia and extending the partnership concept to the Greater Middle East reflect the Alliance's new more global presence, as do new military missions in Afghanistan, Iraq, and Sudan. Moore argues that a careful analysis of NATO's new more global focus suggests that it's not the nature of NATO's mission that has changed but rather its scope. NATO is approaching its new out of area missions with the political tools developed after the Soviet threat faded in the early 1990s when the Allies agreed that rather than merely defend an old order they would now create a new one grounded in liberal democratic values including individual liberty and the rule of law. Indeed, the mission of projecting stability eastward was understood to be inextricable from the promotion of these values. This new mission required that NATO devote greater attention to its political dimension. In fact, as the United States turned to promoting democracy around the world in the wake of September 11, it ultimately sought to enlist NATO in its mission of extending democracy beyond Europe to Central Asia and the Middle East. As Moore demonstrates in her attempt to provide a full and comprehensive understanding of the new NATO, while divisions within the Alliance persist as to just how global NATO should be, the post September 11 security environment ensures that NATO's survival depends upon its willingness to project security beyond Europe. That mission will be as much political as it is military.

Regional and International Relations of Central Europe Zlatko Sabic, P. Drulák, 2012-09-18 Focused on the role of Central Europe in international politics at the turn of the 20th century, the authors take stock of the knowledge about the discipline of IR, enhance the visibility of scholars from Central Europe, and fill the void which has emerged after several researches on Central Europe were completed in the 1990s.

Central and East European Politics Sharon L. Wolchik, Jane Leftwich Curry, 2011 A useful text and reference book. These essays are at their best in serving both area study and political sociology. *Slavic Review*

Aircraft Weapon Procurement and International Relations Glen Segell,1998 International Intervention in the Post-Cold War World Michael C. Davis,Wolfgang Dietrich,Bettina Scholdan,2017-07-28 International intervention on humanitarian grounds has been a contentious issue for decades First it pits the principle of state sovereignty against claims of universal human rights Second the motivations of intervening states may be open to question when avowals of moral action are arguably the fig leaf covering an assertion of power for political advantage These questions have been salient in the context of the Balkan and African wars and U S policy in the Middle East This volume undertakes a serious systematic and broadly international review of the issues Military Affairs Catalog United States. Epstein,2008-09-29 Though the fall of the Soviet Union opened the way for states in central and eastern Europe to join the world of market oriented Western democracies the expected transitions have not been as easy common or smooth as sometimes perceived Rachel A Epstein investigates how liberal ideas and practices are embedded in transitioning societies and finds that success or failure depends largely on creating a social context in which incentives held out by international institutions are viewed as symbols of an emerging Western identity in the affected country Epstein first explains how a liberal worldview and institutions like the European Union World Bank the International Monetary Fund and the North Atlantic

Treaty Organization go hand in hand and why Western nations assume that a broad and incremental program of incentives to join will encourage formerly authoritarian states to reform their political and economic systems Using Hungary Poland Romania and the Ukraine as case studies she demonstrates the limits of conditionality in the face of national social perceptions and elucidates the three key points around which a consensus within the state must emerge before international institutions can expect liberalization domestic officials must be uncertain about how changing policies will affect their interests the status of international and domestic institutions must not be in jeopardy and the proposed policies must seem credible In making her case Epstein cleverly bridges the gap between the rationalist and constructivist schools of thought Offering new data on and fresh interpretations of reforming central bank policies privatizing banks with foreign capital democratizing civil military relations and denationalizing defense policy In Pursuit of Liberalism extends well beyond the scope of previous book length studies NATO Enlargement Hans Binnendijk, 1995 **Reflections on Security in the Third Millennium** Glen Segell, 2000 *The Soldier-Citizen* NA NA, 2016-04-30 Since the collapse of communism the relationship between the Polish armed forces and the Polish government and society has been undergoing a transformation This book dissects that relationship inspecting the institutional design of the defense establishment in Poland
