NATO - from Berlin to Bosnia S. Nelson Drew,1993 *NATO from Berlin to Bosnia* Gordon Press Publishers,1997-06

NATO From Berlin to Bosnia Trans-Atlantic Security in Transition, McNair Paper 35, U.S. Department of Defense, 1995 National Defense University, *NATO, the European Union, and the Atlantic Community* Stanley R. Sloan,2005-07-28 Provides an interpretive history of the trans atlantic alliance and explores critical developments in US European relations The author considers the ongoing pattern of US unilateralism and its consequences as the trans atlantic and intra European debate over Iraq produced deep splits among the allies and eroded European trust in US leadership

NATO and the Future of European Security Sean Kay,1998 Tracing NATO s formative years its Cold War development and its post Cold War evolution Sean Kay draws on his policy experience in Brussels and Washington to provide unique insights into contemporary policy challenges including NATO s outreach to the East and its Partnership for Peace peacekeeping and the future of the Balkans enlargement and the role of Russia in Europe NATO s internal military adaptation and the future of the transatlantic relationship Kay argues that although NATO has evolved to some degree it remains an institution dependent upon the United States with uncertain long term prospects for playing a constructive role in Europe Indeed the author shows that if not implemented carefully NATO enlargement may actually decrease rather than increase stability in the region

French Security Policy in Transition Robbin Frederick Laird,1995 Since 1989 French defense and security policy has been undercut by changes in the external environment and domestic pressures to deal with the challenge of economic modernization The Soviet revolution of 1989 the reunification of Germany the collapse of the Soviet Union and the experience of coalition warfare during the Gulf War all have challenged the assumptions and realities underlying the Gaullist synthesis Above all the French position on security independence has been put into question The main hope has been for a European Alliance to supplant the American one over time in the face of a gradual process of change within Europe but change has not been gradual within Europe The European Union is challenged by discontent within Western Europe A new Central Europe has emerged that has yet to find its place in European or global politics A new Russia is emergent in which nationalism is defining an assertive role for the Russians within Europe but at the same time the economic weakness of Russia limits its ability to play such a role

Britain, NATO and the Lessons of the Balkan Conflicts, 1991 -1999 Stephen Badsey,Paul Latawski,2004-05-13 This book considers the lessons for Britain the British armed forces and for NATO from the Yugoslav wars of dissolution 1991 1999 with particular emphasis on Kosovo It represents a significant advance in this emerging debate *Security, Strategy and Military Change in the 21st Century* Jo Inge Bekkevold,Ian Bowers,Michael Raska,2015-05-22 This edited volume explores and analyses strategic thinking military reform and adaptation in an era of Asian growth European austerity and US rebalancing A significant shift in policy strategy and military affairs is underway in both Asia and Europe with the former gaining increasing prominence in the domain of

global security At the same time the world's powers are now faced with an array of diverse challenges The resurgence of great power politics in both Europe and Asia along with the long term threats of terrorism piracy and sustained geopolitical instability has placed great strain on militaries and security institutions operating with constrained budgets and wary public support The volume covers a wide range of case studies including the transformation of China's military in the 21st century the internal and external challenges facing India Russia's military modernization program and the USA's reassessment of its strategic interests In doing so the book provides the reader with the opportunity to conceptualize how strategic thinking military reform operational adaptation and technological integration have interacted with the challenges outlined above With contributions by leading scholars and practitioners from Europe and Asia this book provides a valuable contribution to the understanding of strategic and operational thinking and adjustment across the world This book will be of much interest to students of military and strategic studies security studies defence studies Asian politics Russian politics US foreign policy and IR in general

NATO After Enlargement Stephen Blank, 1998 In April 1999 NATO members will celebrate in Washington the 50th anniversary of the Washington Treaty and the founding of NATO At that time they will enroll three new members Poland Hungary and the Czech Republic decide upon NATO's new strategic concept and raise issues connected with the possibility of further enlargement In the wake of the Paris and Madrid conferences of 1997 that consummated agreements with Russia and Ukraine on their relationships with NATO and resolved to admit the three aforementioned states as members NATO is moving forward to reshape the European security agenda But as in other situations we may ask Quo Vadis NATO and even more sharply make the same inquiry of individual members and of Russia In fact it is quite clear that despite the American claim that enlargement is merely projecting stability eastward it actually constitutes a radical transformation of the European agenda and of both U S and European history And as such NATO enlargement raises a host of issues for future consideration But nobody can say for sure where enlargement will lead or more importantly how it will be enforced though hopes for and prognostications of the ultimate point of arrival abound Nor can we resolve with any certainty the myriad issues involved in extending NATO both in terms of its organizational scope and its future missions That extension particularly in terms of territory or geographical scope is immense in its implications but the final outcome or resolution of all those issues necessarily remains unclear That uncertainty is not surprising It is commonly the case that major restructurings of international politics are undertaken by statesmen and politicians who have only a partial notion at best of where they hope to go As Napoleon would have said on s'engage et puis on voit One commits himself and then sees where he is Precisely because the process of NATO enlargement is itself such a transformation and raises probably more issues and questions than it answers the Strategic Studies Institute undertook a conference in Washington on January 26 1998 to begin the process of seeing where the United States and where NATO are going The following chapters are the fruits of that conference but obviously they can only deal with some of the issues Questions like the Baltic littoral's future the nature of

peace operations in the future or the emerging situation in Bosnia and more recently in Kosovo are not specifically included. But many other fundamental issues have been addressed. Simon Serfaty addresses the larger issue of where European security institutions in general i.e. not just NATO but the European Union and its hoped for Common Foreign and Security Policy CFSP are going. Robert Dorff assesses trends in both American and European public opinion regarding issues raised by enlargement and possible future military contingencies. Stephen Blank probes the rival visions of America, Russia and Europe concerning the future missions and roles of NATO and of these three sets of governments. Sherman Garnett and Rachel Levenson analyze the complicated situation on Russia's Western frontier where Moldova, Belarus and Ukraine all interact in a complex way with Russia and the members of NATO. Rachel Bronson and Glen Howard track the little discussed but increasingly important strategic interaction of NATO and the United States with the Transcaucasian and Central Asia states. General Edward Atkeson, U.S. Army Retired, discusses issues of burdensharing among allies and the military implications of the Partnership for Peace program within the expanded NATO. And General Frederick Kroesen, U.S. Army Retired, raises the important question of how NATO actually should go about building a true military coalition.

Defense of the West Stanley R. Sloan, 2020-09-11. Written in a lively and readable style by the world's leading authority on the North Atlantic Treaty Organization and US-European relations, *Defense of the West* is the history of a transatlantic security relationship that has endured for over seventy years. This latest edition of a classic work looks at how developments inside NATO and European Union member states affect their ability to defend against external threats while preserving Western values in the era of Trump and Brexit. Sloan frankly addresses the failures and shortcomings of Western institutions and member states. But the book emphasizes the continuing importance of value-based transatlantic security cooperation as a vital element of the defense and foreign policies of NATO and EU member states. At a time of heightened tension and political turmoil at home and abroad, Stan Sloan's lucid and far-sighted analysis is more necessary than ever.

NATO in the First Decade after the Cold War Martin A. Smith, 2013-03-09. This book offers an original and distinct analysis of NATO's post-Cold War evolution. Unlike so much of the available literature, it is not focused on what, in the author's opinion, NATO should be doing now that the Cold War is over. Rather, the author offers a comprehensive analysis and overview of the extent to which NATO can undertake new roles, tasks and missions in light of the extent to which it has retained significance and vitality as an international institution. The book's originality also lies in the way in which the author discusses NATO's adaptation within a framework provided by international relations theory and in particular concepts which stress the role and importance of transnational political processes and international regimes. So far, these have been little used in the analysis of military security relations and institutions. The book will be of interest to those researching and teaching international relations, European politics and security studies as well as all those seeking a better understanding of the post-Cold War survival and development of a key international security institution.

Europe and the Breakup of Yugoslavia Steven P.

Marrone,2021-09-20 *NATO's Peace Enforcement Tasks and Policy Communities* Giovanna Bono,2017-11-30 This book was published in 2003 How has NATO managed to survive and transform itself into a peace enforcement organization Challenging the dominant assumption that NATO intervened in the Balkans because of the threat that conflicts in the region posed to European security this book develops a new set of research questions based on the hypothesis of the existence of policy communities The author demonstrates that there were shifting policy communities in operations that shaped the Alliance s transformation process arguing that NATO would not have succeeded in assuming peace enforcement tasks without other factors ranging from organisational dynamics domestic politics and the impact of ad hoc reactions to external events coming into play Highlighting the role of NATO as an actor in international security this volume is aimed at academics and practitioners in the field of international relations Monthly Catalogue, United States Public Documents ,1995-12
