**Snake Oil Science** R. Barker Bausell PhD, 2009-07-31 Millions of people worldwide swear by such therapies as acupuncture herbal cures and homeopathic remedies Indeed complementary and alternative medicine is embraced by a broad spectrum of society from ordinary people to scientists and physicians to celebrities such as Prince Charles and Oprah Winfrey In the tradition of Michael Shermers *Why People Believe Weird Things* and Robert Parks s *Voodoo Science* Barker Bausell provides an engaging look at the scientific evidence for complementary and alternative medicine CAM and at the logical psychological and physiological

pitfalls that lead otherwise intelligent people including researchers physicians and therapists to endorse these cures The books ultimate goal is to reveal not whether these therapies work as Bausell explains most do work although weakly and temporarily but whether they work for the reasons their proponents believe Indeed as Bausell reveals it is the placebo effect that accounts for most of the positive results He explores this remarkable phenomenon the biological and chemical evidence for the placebo effect how it works in the body and why research on any therapy that does not factor in the placebo effect will inevitably produce false results By contrast as Bausell shows in an impressive survey of research from high quality scientific journals and systematic reviews studies employing credible placebo controls do not indicate positive effects for CAM therapies over and above those attributable to random chance Here is not only an entertaining critique of the strangely zealous world of CAM belief and practice but it also a first rate introduction to how to correctly interpret scientific research of any sort Readers will come away with a solid understanding of good vs bad research practice and a healthy skepticism of claims about the latest miracle cure be it St John s Wort for depression or acupuncture for chronic pain **Eternal Breath** Pola Churchill,2007-07 *Eternal Breath A Biography of Leonard Orr* by Pola Churchill is a unique classic There is beautiful light streaming both from the writing style and content it touches the soul It is explosive and revolutionary Leonard Orr is one of the Pioneers and Originators of the Human Potential Movement along with contemporary folk heroes Earl Nightingale Maxwell Maltz Carl Rodgers and Abraham Moslow Leonard has written thirty books in over a dozen languages including *Rebirthing in the New Age* *The Story of Rebirthing* *Breathwork* *Babaji Angel of the Lord* *Government without Taxes* *How to Make Democracy Work* *Breaking the Death Habit* His International Rebirthing Breathwork Movement has served over a ten million people on six continents *Wolves in Sheep's Clothing* Robert Thornhill,2012-02-15 Walt Williams is a sixty eight year old rookie cop When a holistic physician is murdered Walt becomes entangled in the high powered world of corporate giants and corrupt politicians The Police Department and the FBI join forces and Walt goes undercover in a sting operation in order to expose those involved in this tangled web of intrigue and political corruption and in doing so becomes the target of a vicious assassin Walt is also a rookie husband and his new bride Maggie is determined to convert him from a life of comfort food and bachelor indulgence to a healthier lifestyle filled with organic food vitamins supplements and colon cleanses A dead serious mystery with hilarious twists Reader review In *Wolves In Sheep s Clothing* you are reading about the crimes that involve Pharmaceutical companies healthcare professionals the FDA and the FTC and to what end Money power and greed that affects the well being of all of us Once I opened this book and started reading the first chapter I could not put it down and wanted to see just how far into the political system this would go Just how far would a pharmaceutical company go to keep their products on the market What would happen if a study was released announcing to the world the fact that medicine is being sold and provided to patients unnecessarily without alternative methods being discussed The reading grabs you from the first murder and you to find yourself hunting for the hawk faced man along with the detectives The author does a great

job with the characters keeping you involved in the medical mystery and you learn about some alternatives that you could research on your own

**Suckers** Rose Shapiro, 2010-09-30 Alternative medicine is now used by one in three of us In the UK we spend an

estimated 4 5 billion a year on it and its practitioners are now insinuating themselves into the mainstream There are methods based on ancient or far eastern medicine as well as ones invented in the nineteenth and twentieth centuries Many are promoted as natural treatments What they have in common is that there is no hard evidence that any of them work Treatments like homeopathy acupuncture and chiropractic are widely available and considered reputable by many Ever more bizarre therapies from naturopathy to nutraceuticals ear candling to ergogenics are increasingly favoured Endorsed by celebrities and embraced by the middle classes alternative medicine s appeal is based on the spurious rediscovery of ancient wisdom and the supposedly benign quality of nature Surrounded by an aura of unquestioning respect and promoted through uncritical airtime and column inches alternative medicine has become a lifestyle choice Its global market is predicted to be worth 5 trillion by 2050 Suckers reveals how alternative medicine can jeopardise the health of those it claims to treat leaches resources from treatments of proven efficacy and is largely unaccountable and unregulated In short it is an industry that preys on human vulnerability and makes fools of us all Suckers is a calling to account of a social and intellectual fraud a bracing funny and popular take on a global delusion      God's Law of Love: the Perfect Law of Liberty Tara Lang

Chapman,2010-12-09 Has Gods Law as defined by the Ten Commandments been done away as has been supposed by many Does the new covenant allow free picking and choosing Does the fourth commandment not matter anymore or did God change the sabbath to another day Are Christmas and Easter Gods holy days Does grace make the Law unnecessary Is it okay to erect a sun god statue and other images in our nation to represent liberty Is God okay with the popular sexual lifestyles our nations Christian professing people have Should true Christians be pro war Is it okay to live richly on credit when one is only able to pay the interest It is time for our nation to repent and turn back to our liberty give the true God of Israel Gods Law of Love is needed for liberty to thrive The Ten Commandments still apply today Find the thorough answers to the questions above and more within the pages of this book      *Dying to Get High* Wendy Chapkis,Richard J Webb,2008-08-03 An inside look at how patients living with terminal illness created one of the country s first medical marijuana collectives Marijuana as medicine has been a politically charged topic in this country for more than three decades Despite overwhelming public support and growing scientific evidence of its therapeutic effects relief of the nausea caused by chemotherapy for cancer and AIDS control over seizures or spasticity caused by epilepsy or MS and relief from chronic and acute pain to name a few the drug remains illegal under federal law In *Dying to Get High* noted sociologist Wendy Chapkis and Richard J Webb investigate one community of seriously ill patients fighting the federal government for the right to use physician recommended marijuana Based in Santa Cruz California the Wo Men s Alliance for Medical Marijuana WAMM is a unique patient caregiver cooperative providing marijuana free of charge to mostly terminally ill members For a brief period in 2004 it even operated the only legal non governmental medical marijuana garden in the country protected by the federal courts against the DEA Using as their stage this fascinating profile of one remarkable organization Chapkis and Webb tackle the

broader complex history of medical marijuana in America Through compelling interviews with patients public officials law enforcement officers and physicians Chapkis and Webb ask what distinguishes a legitimate patient from an illegitimate pothead good drugs from bad medicinal effects from just getting high Dying to Get High combines abstract argument and the messier terrain of how people actually live suffer and die and offers a moving account of what is at stake in ongoing debates over the legalization of medical marijuana **I Am a Doctor, My 3 Wives Died from Cancer** Ariston P. M.D.,2021-07-16 For more than one hundred years there has been no significant improvement in the way cancer patients are treated by the medical establishment by the medical doctors and the healthcare industry The approved cancer treatment which is Surgery Radiation Therapy and Chemotherapy does not cure cancer Any form of treatment that is not approved by the Federal Drug Administration FDA is illegal so medical doctors are prohibited to use any other treatment of cancer except Surgery Radiation Therapy and Chemotherapy Research shows that strengthening of the Immune System plays an important role in letting the body heal itself But for some reason the government does not go out of its way to approve any other form of treatment or support any research in this regard Enlightened cancer patients want to seek alternative treatments given by alternative and integrative medical professionals who are holistic health practitioners But because their services are not recognized by the government and by the conventional medical profession therefore medicare and supplemental insurance do not pay for these services most cancer patients cannot avail of these services because they are expensive This book is the story of 3 wives of a medical doctor who in spite of sixty years in the medical profession felt helpless while his wives were suffering from this devastating disease He realized the inadequate approved treatment of cancer was enlightened after five years of research about the causes of chronic diseases including cancer and found the truth about Conventional and Alternative Treatment of Cancer He wrote this book with the hope that people will learn and be enlightened about their longevity and the government realizes that the approved Cancer Treatment Surgery Radiation Therapy and Chemotherapy do not cure cancer He believes that the cure of cancer lies mainly in strengthening the immune system and hopes that the government authorities recognize the holistic practitioners and support the research to strengthen the immune system to help the body heal itself *Secret of Longevity* Bi Dri Seraphin Kouassi,2012 Stop the Clock of Disease or Illness and Increase Your Life Span We live in a toxic and stressful world This book talks about the guidelines that we must follow to reverse the devastation of diseases or illnesses maintain good health and overall well being These guidelines are related to the strict respect of nature s laws which comprises of the following elements pure water fresh air sunlight exercise supplements and health enhancing food and regular body system detoxification Certain foods are bad for our body system because the body is unable to use them for its functioning These we call death foods or death water The consumption of these lead to the accumulation of toxins within the body system making it weak and unable to defend or heal itself It is better to prevent than cure diseases or illnesses Do not join the camp of the foolish who say life is short or man must die from

Try to rest in the knowledge that many unseen forces are working diligently on your behalf and that truth like a flower opens in its own time Right now you are observing the bud It is beautiful in its own way as is every stage of the blooming process Observing a bud for the very first time one would never suspect what it will become Your mind is also a bud You have no comprehension of all that you dont know Make no judgments regarding all that you have to consider right now Wait for the bloom to appear *Natural Causes* Dan Hurley, 2007-12-26 A riveting work of investigative journalism that charts the rise of the dietary supplement craze and reveals the dangerous and sometimes deadly side of these highly popular and completely unregulated products Over 60 percent of Americans buy and take herbal and dietary supplements for all sorts of reasons to prevent illness vitamin C to ease depression St John s wort to aid weight loss ephedra to boost the memory ginkgo biloba and even to cure cancer shark cartilage bloodroot despite the fact that few of these natural supplements have been proven to be safe or effective The vitamin and herbal supplement industry generates over 20 billion a year by selling products that promise to cure or fix but are produced and marketed essentially without oversight And while the media has been quick to sensationalize the benefits of supplements few have taken a hard look at the dangers posed by many of the remedies flooding the market today Award winning journalist Dan Hurley breaks the silence for the first time in *Natural Causes* From the snake oil salesmen of the early twentieth century to rise of the health food movement in the sixties and seventies Hurley charts the remarkable growth of an industry built largely on fraud and reveals the backroom politics that led to the passage of the Dietary Supplement Health and Education Act of 1994 which effectively freed the industry from FDA oversight In unprecedented detail he shows how supplement manufacturers have concealed the truth about dozens of untested treatments and the shocking rise in deaths disfigurements and life threatening injuries caused by products deceptively promoted as safe and natural Most importantly he provides a telling look at why in an age of unprecedented scientific advancement we continue to buy and believe in remedies for which little evidence exists and why the supplements we take to promote our health may be doing far more harm than good As Hurley shows the dietary supplement craze may be one of the greatest swindles ever perpetrated on the American public one that feeds billions of dollars each year into the pockets of lobbyists politicians and any charlatan who

wants to slap a label on a bottle and tout it as the next big natural cure Blending hard facts with spellbinding personal stories Natural Causes is a must read for anyone who has ever popped a multivitamin or an herb and provides a hard hitting frightening look at a cultural trend that is out of control Is Your Doctor Killing You Slowly? Dr. Mai Ha, 2012-10-03 This book is dedicated to those who seek the truth about total wellbeing and believe they are being slowly killed by their primary care physicians who continue to prescribe copious amounts of drugs for each and every malady We are having a medical crisis Do not wait until the morgue can not process the bodies fast enough to have doubt in the medical system My goal is to inform the general public about the dangers of our fake health care system Most people do not know that the medications their trusted doctor is prescribing them are killing them slowly Our health care model is designed to confuse patients and minimize physician responsibility This book will help you understand how your body works and how YOU can manage your own complete health care not just specific medical conditions such as hypertension high cholesterol diabetes cancer heartburn depression insomnia allergies etc Instead of empowering patients to know more about their illnesses doctors have instilled fear in them and prescribed unnecessary drugs tests and surgeries to justify large medical bills and make the drug companies obscenely wealthy Doctors get paid well at our expense body and wallet Most of my patients have benefited greatly from my extensive education deep rooted culture diverse background and utmost honesty in teaching them about medicine the way it should be taught basic and true and it was through their inspiration that I wrote this book In truth I feel I had no choice No doctor would dare expose the awful truth regarding our broken medical system for fear their financial status will be compromised My ultimate intention is to help every person maintain an independent mind and body until they breathe their last breath with dignity
