Otto Dix Life And Work:

Otto Dix, Life and Work Fritz Löffler, 1982 **The Life and Works of Otto Dix** Linda F. McGreevy, 1981 *Otto Dix and the Memorialization of World War I in German Visual Culture, 1914-1936* Ann Murray, 2023-11-02

The harsh realities of wartime and Weimar era Germany called for a new kind of art Dada followed by Neue Sachlichkeit New Objectivity confronted social and political issues in new and bold ways This book highlights how Otto Dix 1891 1969 one of the leading artists connected to these artistic movements employed these new approaches to reveal the injustices of wartime and post World War I Germany Having spent 38 months on the frontline his pictures revealed the brutalities of the conflict and helped establish him as one of Europe's leading modernists Offering substantial new research and presenting numerous primary sources to an English readership for the first time the book examines Dix's war pictures within the broader visual culture of war in order to assess how they functioned alternatively as cutting edge modernist art and transgressive war commemoration Each chapter provides a case study of the first public display of one or more of Dix's war pictures at key exhibitions and explores how their reception was subjected to changing socio political and cultural conditions as well as divergent attitudes to the lost war It pulls together a number of key approaches and texts contemporary reviews contemporary cultural productions such as novels and cartoons and theoretical and historical approaches from history memory studies and art history Bringing a unique perspective and original scholarship to Dix's war works this book is essential reading for art historians of World War I and the visual culture of Weimar Germany Otto Dix, 1891-1969 Eva Karcher, Otto Dix, 1988

Otto Dix Philipp Gutbrod, 2010 Few painters are as strongly linked to the historical events and political catastrophes of twentieth century Germany as Otto Dix 1891 1969 Born to a working class family at the turn of the twentieth century he hurled himself into the art world of the prewar era and fought and drew on the front during World War I after 1918 he gave that war perhaps the most honest face bestowed on it by an artist During the Weimar Republic Dix emerged as an enfant terrible a dandy and an urban sophisticate but he was also a respected professor and pedagogue until he was driven from his position by the Nazis a few months after they came to power Ostracized and threatened under the Nazi regime Dix retreated to Lake Constance where he began painting in the broader brushstrokes that characterize his final phase Published in Hatje Cantz's new Art to Read series Philipp Gutbrod's expertly written biography examines an eventful life and a multifaceted oeuvre **Lustmord** Maria Tatar, 2020-07-21 In a book that confronts our society's obsession with sexual violence Maria Tatar seeks the meaning behind one of the most disturbing images of twentieth century Western culture the violated female corpse This image is so prevalent in painting literature film and most recently in mass media that we rarely question what is at stake in its representation Tatar however challenges us to consider what is taking place both artistically and socially in the construction and circulation of scenes depicting sexual murder In examining images of sexual murder Lustmord she produces a riveting study of how art and murder have intersected in the sexual politics of culture from Weimar Germany to the present

Tatar focuses attention on the politically turbulent Weimar Republic often viewed as the birthplace of a transgressive avant garde modernism where representations of female sexual mutilation abound Here a revealing episode in the gender politics of cultural production unfolds as male artists and writers working in a society consumed by fear of outside threats envision women as enemies that can be contained and mastered through transcendent artistic expression Not only does Tatar show that male artists openly identified with real life sexual murderers George Grosz posed as Jack the Ripper in a photograph where his model and future wife was the target of his knife but she also reveals the ways in which victims were disavowed and erased Tatar first analyzes actual cases of sexual murder that aroused wide public interest in Weimar Germany She then considers how the representation of murdered women in visual and literary works functions as a strategy for managing social and sexual anxieties and shows how violence against women can be linked to the war trauma to urban pathologies and to the politics of cultural production and biological reproduction In exploring the complex relationship between victim and agent in cases of sexual murder Tatar explains how the roles came to be destabilized and reversed turning the perpetrator of criminal deeds into a defenseless victim of seductive evil Throughout the West today the creation of similar ideological constructions still occurs in societies that have only recently begun to validate the voices of its victims Maria Tatar's book opens up an important discussion for readers seeking to understand the forces behind sexual violence and its portrayal in the cultural media throughout this century

German Post-Expressionism : The Art of the Great Disorder 1918-1924 , German Post Expressionism is the first study to reconstruct historically the evolution of Die neue Sachlichkeit the slogan coined as a designation for the Post Expressionist figural art that developed throughout Germany following the failed revolution of 1919 Rather than starting with the moment this Post Expressionist movement was christened with a slogan 1923 Crockett investigates the sources and precepts of Post Expressionism beginning with the anti Expressionist stance of Dada in 1918 and the loss of faith in Expressionism on the part of some of its chief supporters during 1919-20

Peacebuilding and the Arts Jolyon Mitchell, Giselle Vincett, Theodora Hawksley, Hal Culbertson, 2019-11-19 Ending violent conflict requires societies to take leaps of political imagination Artistic communities are often uniquely placed to help promote new thinking by enabling people to see things differently In place of conflict's binary divisions artists are often charged with exploring the ambiguities and possibilities of the excluded middle Yet their role in peacebuilding remains little explored This excellent and agenda setting volume provides a ground breaking look at a range of artistic practices and the ways in which they have attempted to support peacebuilding a must read for all practitioners and policy makers and indeed

other peacemakers looking for inspiration Professor Christine Bell FBA Professor of Constitutional Law Assistant Principal Global Justice and co director of the Global Justice Academy The University of Edinburgh UK Peacebuilding and the Arts offers an impressive and impressively comprehensive engagement with the role that visual art music literature film and theatre play in building peaceful and just societies Without idealizing the role of the arts the authors explore their potential and limits in a wide range of cases from Korea Cambodia Colombia and Northern Ireland to Uganda Rwanda South Africa and Israel Palestine Roland Bleiker Professor of International Relations University of Queensland Australia and author of Aesthetics and World Politics and Visual Global Politics Peacebuilding and the Arts is the first publication to focus critically and comprehensively on the relations between the creative arts and peacebuilding expanding the conventional boundaries of peacebuilding and conflict transformation to include the artist actor poet novelist dramatist musician dancer and film director The sections on the visual arts music literature film and theatre include case studies from very different cultures contexts and settings but a central theme is that the creative arts can play a unique and crucial role in the building of peaceful and just societies with the power to transform relationships heal wounds and nurture compassion and empathy Peacebuilding and the Arts is a vital and unique resource which will stimulate critical discussion and further research but it will also help to refine and reframe our understanding of peacebuilding While it will undoubtedly become mandatory reading for students of peacebuilding and the arts its original approach and dynamic exploratory style should attract a much wider interdisciplinary audience Professor Anna King Professor of Religious Studies and Social Anthropology and Director of Research Centre of Religion Reconciliation and Peace WCRRP University of Winchester UK This volume explores the relationship between peacebuilding and the arts Through a series of original essays authors consider some of the ways that different art forms including film theatre music literature dance and other forms of visual art can contribute to the processes and practices of building peace This book breaks new ground by setting out fresh ways of analysing the relationship between peacebuilding and the arts Divided into five sections on the Visual Arts Music Literature Film and Theatre Dance over 20 authors offer conceptual overviews of each art form as well as new case studies from around the globe and critical reflections on how the arts can contribute to peacebuilding As interest in the topic increases no other book approaches this complex relationship in the way that Peacebuilding and the Arts does By bringing together the insights of scholars and practitioners working at the intersection of the arts and peacebuilding this book develops a series of unique critical perspectives on the interaction of diverse art forms with a range of peacebuilding endeavours *The Bulletin of the Cleveland Museum of Art* Cleveland Museum of Art,1987 [The Body in History, Culture, and the Arts](#) Justyna Jajszczok,Aleksandra Musiał,2019-03-27 The aim of this book is to explore the body in various historical contexts and to take it as a point of departure for broader historiographical projects The chapters in the volume present the ways in which the body constitutes a valuable and productive object of historical analysis especially as a lens through which to trace histories of social political

and cultural phenomena and processes More specifically the authors use the body as a tool for critical re examination of particular histories of human experience and of societal and cultural practices thus contributing to the burgeoning area of body history in terms of both specific case studies as well as historiography in general *Painting and Sculpture in Europe, 1880-1940* George Heard Hamilton,1993-01-01 This new edition of a book that offers the best available grounding in its huge subject as the Sunday Times called it includes color plates and a revised and expanded bibliography Professor Hamilton traces the origins and growth of modern art assessing the intrinsic qualities of individual works and describing the social forces in play The result is an authoritative guide through the forest of artistic labels Impressionism and Expressionism Symbolism Cubism Constructivism Surrealism etc and to the achievements of Degas and Cezanne Ensor and Munch Matisse and Kandinsky Picasso Braque and Epstein Mondrian Dali Modigliani Utrillo and Chagall Klee Henry Moore and many other artists in a revolutionary age *The Life and Work of Otto Dix* Linda Frances McGreevy-Welch,1975 *Max Pechstein: The Rise and Fall of Expressionism* Bernhard Fulda,Aya Soika,2012-10-30 Max Pechstein 1881 1955 is one of the most prominent German artists of the twentieth century not least because of his crucial role in the breakthrough of German Expressionism This long overdue biography combines the portrayal of an outstanding artistic personality with the story of an individual German who struggled through the political upheavals of his time Pechstein s work is presented in the cultural context of museum politics and art associations art dealers and critics market forces and cultural trends **The Sublime Artist's Studio** Gavriel Shapiro,2009-06-02 The relation of the visual arts to Vladimir Nabokov s work is the subject of this in depth and detailed study of one of the most significant facets of this modern master s oeuvre **The Great Parade** Pierre Théberge,Galleries Nationales du Grand Palais (Parijs),National Gallery of Canada,2004-01-01 A beautiful book that showcases how circus figures and artifacts have been portrayed in art over the past two centuries The circus is a dazzling world filled with acrobats and harlequins tumblers and riders monsters and celestial creatures Now this engaging book sets that world in a new light examining how painters sculptors and photographers from the eighteenth century to the present have used the circus as a springboard for their imaginative expression and have envisioned the clown as a metaphor for the modern artist The book presents more than 175 works by such artists as Degas Toulouse Lautrec Rouault Picasso Chagall and L ger Some of these are masterful works shown for the first time these range from the 18 meter stage curtain Picasso designed in 1917 for Erik Satie s ballet *Parade* to more intimate works such as Nadar and Tournachon s photographs of Pierrot as played by celebrated mime Charles Debureau **Unreal City** Edward Timms,David Kelley,1985 *Marking Modern Movement* Susan Funkenstein,2020-10-26 Imagine yourself in Weimar Germany you are visually inundated with depictions of dance Perusing a women s magazine you find photograph after photograph of leggy revue starlets clad in sequins and feathers coquettishly smiling at you When you attend an art exhibition you encounter Otto Dix s six foot tall triptych *Metropolis* featuring Charleston dancers in the latest luxurious fashions or Emil Nolde s watercolors of Mary

Wigman with their luminous blues and purples evoking her choreographies mystery and expressivity Invited to the Bauhaus you participate in the Metallic Festival and witness the school's transformation into a humorous shiny technological total work of art you costume yourself by strapping a metal plate to your head admire your reflection in the tin balls hanging from the ceiling and dance the Bauhaus signature step in which you vigorously hop and stomp late into the night Yet behind the razzle dazzle of these depictions and experiences was one far more complex involving issues of gender and the body during a tumultuous period in history Germany's first democracy 1918 1933 Rather than mere titillation the images copiously illustrated and analyzed in *Marking Modern Movement* illuminate how visual artists and dancers befriended one another and collaborated together In many ways because of these bonds artists and dancers forged a new path in which images revealed artists deep understanding of dance their dynamic engagement with popular culture and out of that a possibility of representing women dancers as cultural authorities to be respected Through six case studies *Marking Modern Movement* explores how and why these complex dynamics occurred in ways specific to their historical moment Extensively illustrated and with color plates *Marking Modern Movement* is a clearly written book accessible to general readers and undergraduates Coming at a time of a growing number of major art museums showcasing large scale exhibitions on images of dance the audience exists for a substantial general public interest in this topic Conversing across German studies art history dance studies gender studies and popular culture studies *Marking Modern Movement* is intended to engage readers coming from a wide range of perspectives and interests
