Our Common Ground

Robert R. Archibald

Our Common Ground:

Wittgenstein Kelly Dean Jolley, 2014-12-05 Wittgenstein's complex and demanding work challenges much that is taken for granted in philosophical thinking as well as in the theorizing of art, theology, science, and culture. Each essay in this collection explores a key concept involved in Wittgenstein's thinking, relating it to his understanding of philosophy and outlining the arguments and explaining the implications of each concept. Concepts covered include grammar, meaning, and meaning blindness, language games, and private language, family resemblances, psychologism, rule following, teaching and learning, avowals, Moore's Paradox, aspect seeing, the meter stick, and criteria. Students new to Wittgenstein and readers interested in developing their understanding of specific aspects of his philosophical work will find this book very welcome.

Using Language Herbert H. Clark, 1996-05-16 Herbert Clark argues that language use is more than the sum of a speaker speaking and a listener listening. It is the joint action that emerges when speakers and listeners, writers and readers perform their individual actions in coordination as ensembles. In contrast to work within the cognitive sciences which has seen language use as an individual process, and to work within the social sciences which has seen it as a social process, the author argues strongly that language use embodies both individual and social processes. Coronaspection Alon Goshen-Gottstein, 2020-08-05 Coronaspection is a groundbreaking series of forty video interviews concerning COVID-19 and its spiritual challenges featuring major faith leaders worldwide. Coronaspection was created as a means of providing hope and inspiration to the faithful of all religions as humanity struggled and as it continues to struggle with the challenges posed by COVID-19. This volume seeks to answer questions that have emerged following the release of the video interviews: How is religion functioning during COVID-19? Do different religions respond to the crisis differently? These and similar questions require a synthetic view of the project which in turn is based on an analysis of its themes and messages. *Our Bonds: The Key to a Flourishing Society* Pasquale De Marco, 2025-07-20 In a world divided by conflict and inequality, unity and collaboration are more important than ever before. *Our Bonds: The Key to a Flourishing Society* offers a powerful exploration of the strength of human connection and the transformative power of working together. Confusing Discourse K. Janicki,2009-12-18 We easily hear and see when people are talking and writing but we often do not understand what they are talking or writing about This book addresses some sources of confusion in discourse and offers suggestions for diminishing it

God's People Count Carl Barrett,2023-10-17 We are undoubtedly living in a society and culture that is growing stranger by the day creating more distance between others minute by minute It seems that people are living in their own little bubbles and silos more than ever with no interest in connecting with people effectively And it is evident that the rise of the digital age is affecting people mentally and emotionally leading to voidness and isolation and a sense of hopelessness and helplessness Billions of people are connecting with an unproductive device in their hands when it should be the word of God There is no spiritual value when we allow the things of this world to consume our lives more than God s divine nature Do we really think anything will improve in our homes communities churches schools country and globally if we re not grounded and connected in the Truths of his word We must realize that connecting with humans physically emotionally and spiritually is how God designed us Just like our Creator wants a relationship with you and me he wants us to bond with others so they can also see the experience of his abundant blessings and goodness in our lives We cannot afford to be on the sidelines because it s all about cultivating genuine care for God s creation and putting it into practice for the sake of ourselves and others now more than ever

Experience, Variation and Generalization Inbal Arnon, Eve V. Clark, 2011-07-20 Are all children exposed to the same linguistic input and do they follow the same route in acquisition The answer is no The language that children hear differs even within a social class or cultural setting as do the paths individual children take The linguistic signal itself is also variable both within and across speakers the same sound is different across words the same speech act can be realized with different constructions The challenge here is to explain given their diversity of experience how children arrive at similar generalizations about their first language This volume brings together studies of phonology morphology and syntax in development to present a new perspective on how experience and variation shape children's linguistic generalizations The papers deal with variation in forms learning processes and speaker features and assess the impact of variation on the mechanisms and outcomes of language learning Department of Defense Appropriations United States. Giles, Robert W. Snyder, What's fair It is an old question in journalism In 1999 it seems more difficult to answer than ever The cycle of story spin and counterspin that surrounds the White House is only the most obvious part of the problem In the past 25 years the practice of journalism has changed enormously particularly in the United States The demarcation of public and private life that once ruled certain kinds of stories out of bounds has eroded leaving reporters with the unenviable challenge of having to cover events whose seaminess inevitably taints all who touch them Commercial pressures and a tidal wave of information and entertainment media have engulfed the news business leaving the definitions of journalism and journalistic standards vague and uncertain And the technology of news reporting is speeding up news cycles in ways that leave little time for sober and measured judgments What's Fair is a collection of essays from experts in the field that are sure to spark compelling questions and ideas about journalism and its place in our time In *Fairness A*

Struggle journalists explore a subject that they normally share only with close friends and colleagues their own struggles with fairness that occurred in places as different as South Africa Washington and the South Bronx In *Fairness A History* nine contributors examine the history of the fairness question specifically the establishment of the Hutchins Commission report of 1947 which is evaluated here by a historian a journalist and a First Amendment authority In a comparative vein two authorities on international communications law examine British regulations for fairness in broadcasting at the end of the 20th century In *Fairness A Goal* contributors explore what struggles for fairness mean in a variety of contexts from American newsrooms to post Communist Poland to Northern Ireland Many discussions of fairness are either numbingly abstract or impossibly righteous To avoid those hazards Robert Giles and Robert Snyder have grounded this volume in stories the kind of stories journalists tell each other and the kind of stories people tell about journalism This volume is a testament to journalism that is free yet fair probing yet credible and authoritative in content yet open to many voices Robert Giles is editor in chief of *Media Studies Journal* senior vice president of the Freedom Forum and executive director of Media Studies Center Formerly the editor and publisher of *The Detroit News* he is the author of *Newsroom Management A Guide to Theory and Practice* Robert W Snyder is editor of the *Media Studies Journal* a historian and most recently author of *Transit Talk New York's Bus and Subway Workers Tell Their Stories* He has taught at Princeton University and New York University from which he holds a doctorate in history
