

"Reeves [is] a researcher of high standards and a writer whose paragraphs can read like dialogues.... It's hard to think of a better introduction to [Nixon] and his presidency."
—MIC PERLETTI, *The New York Times Book Review*

PRESIDENT NIXON

ALONE IN THE WHITE HOUSE

RICHARD REEVES

AUTHOR OF *PRESIDENT KENNEDY*

President Nixon Alone In The White House

Andrea Balis, Elizabeth Levy

President Nixon Alone In The White House:

President Nixon Richard Reeves, 2001-11-13 Who was Richard Nixon The most amazing thing about the man was not what he did as president but that he became president In President Nixon Richard Reeves has used thousands of new interviews and recently discovered or declassified documents and tapes including Nixon's tortured memos to himself and unpublished sections of H R Haldeman's diaries to offer a nuanced and surprising portrait of the brilliant and contradictory man alone in the White House President Nixon is a startling narrative of a desperately introverted man who dreamed of becoming the architect of his times Late at night he sat upstairs in the White House writing notes to himself on his yellow pads struggling to define himself and his goals Compassionate Bold New Courageous Zest for the job not lonely but awesome Goals reorganized govt Each day a chance to do something memorable for someone Need to be good to do good Need for joy serenity confidence inspiration But downstairs he was building a house of deception He could trust no one because in his isolation he thought other people were like him He governed by secret orders and false records memorizing scripts for public appearances and even for one on one meetings with his own staff and cabinet His principal assistants Haldeman and Henry Kissinger spied on him as he spied on them while cabinet members generals and admirals spied on all of them rifling briefcases and desks tapping each other's phones in a house where no one knew what was true anymore Nixon's first aim was to restore order in an America at war with itself over Vietnam But in fact he prolonged the fighting there lying systematically about what was happening both in the field and in the peace negotiations He startled the world by going to communist China and seeking détente with the Soviet Union and then secretly persuaded Mao and Brezhnev to lie for him to protect petty White House secrets Still he was a man of vision imagining a new world order trying to stall the deadly race war he believed was inevitable between the West including Russia and Asia led by China and Japan At home he promised welfare reform revenue sharing drug programs and environmental protection and he presided reluctantly over the desegregation of public schools all the while declaring that domestic governance was just building outhouses in Peoria Reeves shows a presidency doomed from the start It begins with Nixon and Kissinger using the CIA to cover up a 1969 murder by American soldiers in Vietnam that led to the theft and publication of the Pentagon Papers then to secret counterintelligence units in the White House and finally to the burglaries and cover up that came to be known as Watergate Richard Reeves's President Nixon will stand as the authoritative account of Nixon in the White House It is an astonishing story *High Crimes and Misdemeanors in Presidential Impeachment* H. Brown, 2010-01-04 US Constitution states that the President is subject to removal from office upon impeachment and conviction of treason bribery and other high Crimes and Misdemeanors In this book Brown examines history behind this clause as well as the impeachments of Presidents Johnson Nixon and Clinton **Nixon's Darkest Secrets** Don Fulsom, 2024-09-04 Fulsom digs deeper into the mire of the Nixon presidency a book which bristles with revelations about the most disgraced American leader in history Muriel Dobbin author

and former White House correspondent Richard Nixon left the White House in 1974 as our most disgraced president but the American people never knew the full extent of his demons deceptions paranoia prejudices hatreds and chicanery Calling on his work in covering Nixon scores of interviews with members of Congress White House staffers and others close to our nation s thirty seventh president and invaluable newly declassified documents and recordings veteran journalist Don Fulsom sheds new light on Tricky Dick The author s revelations include That the future president sabotaged the 1968 peace talks for political gain By the time Nixon became president in 1969 he had linked to the mob for more than two decades and as president had a close connection with New Orleans boss Carlos Marcello the most powerful Mafioso in the nation The president had a drinking problem and top aides referred to him as Our Drunk Nixon had a misogynist streak and was abusive toward first lady Pat Nixon The intimate and possibly homosexual nature of Nixon s relationship with confidante Charles Bebe Rebozo a banker with mob ties Testimony alleging that the president had ordered the killing of White House reporter Jack Anderson Fulsom s examination of these and other startling aspects of Nixon s personal and political dimensions paint an unflinching portrait of a leader who was once the most powerful man in the world Nixon s Darkest Secrets provides a chilling final chapter in literature on our most troubled president **Watergate, 1973-1974** John M. Parrish,2023-11-07

Watergate 1973 1974 explores America s most dramatic constitutional crisis of the twentieth century the investigation of the Watergate burglary The scandal brought the nation s political system to the brink of disaster the US president had defied established norms of democracy and his enemies and allies alike struggled to hold together the country s fragile constitutional order In the game students portray members of Congress journalists and key figures from the Nixon administration all seeking to advance their faction s goals while also seeking a way to resolve the Watergate crisis

Richard Nixon and the Vietnam War David F. Schmitz,2014-04-04 In *Richard Nixon and the Vietnam War* accomplished foreign relations historian David F Shmitz provides students of US history and the Vietnam era with an up to date analysis of Nixon s Vietnam policy in a brief and accessible book that addresses the main controversies of the Nixon years President Richard Nixon s first presidential term oversaw the definitive crucible of the Vietnam War Nixon came into office seeking the kind of decisive victory that had eluded President Johnson and went about expanding the war overtly and covertly in order to uphold a policy of containment protect America s credibility and defy the left s antiwar movement at home Tactically politically Nixon s moves made sense However by 1971 the president was forced to significantly de escalate the American presence and seek a negotiated end to the war which is now accepted as an American defeat and a resounding failure of American foreign relations Schmitz addresses the main controversies of Nixon s Vietnam strategy and in so doing manages to trace back the ways in which this most calculating and perceptive politician wound up resigning from office a fraud and failure Finally the book seeks to place the impact of Nixon s policies and decisions in the larger context of post World War II American society and analyzes the full costs of the Vietnam War that the nation feels to this day Stayin' Alive Jefferson

Cowie,2010-09-14 Winner of the 2011 Merle Curti award an epic account that recasts the 1970s as the key turning point in modern U S history from the renowned historian A wide ranging cultural and political history that will forever redefine a misunderstood decade Stayin Alive is prizewinning historian Jefferson Cowie s remarkable account of how working class America hit the rocks in the political and economic upheavals of the 1970s In this edgy and incisive book part political intrigue part labor history with large doses of American music film and television lore Cowie with an ear for the power and poetry of vernacular speech Cleveland Plain Dealer reveals America s fascinating path from rising incomes and optimism of the New Deal to the widening economic inequalities and dampened expectations of the present *The President's Day*

Matthew N. Beckmann,2024-10-15 A president s work is defined by two challenges knowing what to do and finding the time to do it While the first of these has commanded extensive attention the second has received little to none until now The President s Day is a groundbreaking study of the history theory and practice of modern presidential time management Matthew N Beckmann argues that the seemingly innocuous task of scheduling turns out to be anything but In choosing what and who will fill their time presidents determine their value define their role and drive their agenda Combining extensive archival research with interviews spanning administrations from John F Kennedy to George W Bush Beckmann exposes each president s signature pattern in terms of when to work how long to work how much to pack in what to prioritize and whom to see along the way In these ways The President s Day demystifies what John F Kennedy called the secret of the presidential enterprise **Lying in State** Eric Alterman,2020-08-11 This definitive history of presidential lying reveals how our

standards for truthfulness have eroded and why Trump s lies are especially dangerous If there s one thing we know about Donald Trump it s that he lies But he s by no means the first president to do so In Lying in State Eric Alterman asks how we ended up with such a pathologically dishonest commander in chief showing that from early on the United States has persistently expanded its power and hegemony on the basis of presidential lies He also reveals the cumulative effect of this deception each lie a president tells makes it more acceptable for subsequent presidents to lie and the media s complicity in spreading misinformation Donald Trump then represents not an aberration but the culmination of an age old trend Full of vivid historical examples and trenchant analysis Lying in State is essential reading for anyone seeking to understand how we arrived in this age of alternative facts *Nixonland* Rick Perlstein,2008-05-13 Perlstein aims here at nothing less than

weaving a tapestry of social upheaval His success is dazzling Los Angeles Times Both brilliant and fun a consuming journey back into the making of modern politics Jon Meacham Nixonland is a grand historical epic Rick Perlstein has turned a story we think we know American politics between the opposing presidential landslides of 1964 and 1972 into an often surprising and always fascinating new narrative Jeffrey Toobin Rick Perlstein s bestselling account of how the Nixon era laid the groundwork for the political divide that marks our country today Told with vivid urgency and sharp political insight Nixonland recaptures America s turbulent 1960s and early 1970s and reveals how Richard Nixon rose from the political

grave to seize and hold the presidency of the United States Perlstein's epic account begins in the blood and fire of the 1965 Watts riots nine months after Lyndon Johnson's historic landslide victory over Barry Goldwater appeared to herald a permanent liberal consensus in the United States Yet the next year scores of liberals were tossed out of Congress America was more divided than ever and a disgraced politician was on his way to a shocking comeback Richard Nixon Between 1965 and 1972 America experienced no less than a second civil war Out of its ashes the political world we know now was born Filled with prodigious research and driven by a powerful narrative Rick Perlstein's magisterial account of how it all happened confirms his place as one of our country's most celebrated historians Bringing Down a President Andrea Balis, Elizabeth Levy, 2019-08-06 A middle grade retelling of Richard Nixon's downfall Bringing Down A President The Watergate Scandal is an inventive and timely look at one of the biggest scandals to ever rock our nation by Andrea Balis and Elizabeth Levy featuring graphic novel style illustrations by Tim Foley Comprised almost completely of primary source quotes good thing Nixon's recorder was on and interspersed with contextual narrative this captivating account of the trials and tribulations of the Nixon Administration has been rendered screenplay style offering an extraordinarily immediate narrative of one of America's most turbulent eras *Focus On: 100 Most Popular 20Th-century American Politicians* Wikipedia contributors,

The Road to War Marvin Kalb, 2013-05-10 The Road to War examines how presidential commitments can lead to the use of American military force and to war Marvin Kalb notes that since World War II presidents have relied more on commitments public and private than they have on declarations of war even though the U S Constitution declares rather unambiguously that Congress has the responsibility to declare war *Hollywood's Last Golden Age* Jonathan Kirshner, 2012-10-05 Between 1967 and 1976 a number of extraordinary factors converged to produce an uncommonly adventurous era in the history of American film The end of censorship the decline of the studio system economic changes in the industry and demographic shifts among audiences filmmakers and critics created an unprecedented opportunity for a new type of Hollywood movie one that Jonathan Kirshner identifies as the seventies film In Hollywood's Last Golden Age Kirshner shows the ways in which key films from this period including Chinatown Five Easy Pieces The Graduate and Nashville as well as underappreciated films such as The Friends of Eddie Coyle Kluge and Night Moves were important works of art in continuous dialogue with the political social personal and philosophical issues of their times These seventies films reflected the era's social and political upheavals the civil rights movement the domestic consequences of the Vietnam war the sexual revolution women's liberation the end of the long postwar economic boom the Shakespearean saga of the Nixon Administration and Watergate Hollywood films in this brief exceptional moment embraced a new aesthetic and a new approach to storytelling creating self consciously gritty character driven explorations of moral and narrative ambiguity Although the rise of the blockbuster in the second half of the 1970s largely ended Hollywood's embrace of more challenging films Kirshner argues that seventies filmmakers showed that it was possible to combine commercial entertainment with

serious explorations of politics society and characters interior lives **The Presidents Club** Nancy Gibbs, Michael Duffy, 2012-04-17 The New York Times bestselling history of the private relationships among the last thirteen presidents the partnerships private deals rescue missions and rivalries of those select men who served as commander in chief The Presidents Club established at Dwight Eisenhower's inauguration by Harry Truman and Herbert Hoover is a complicated place its members are bound forever by the experience of the Oval Office and yet are eternal rivals for history's favor Among their secrets How Jack Kennedy tried to blame Ike for the Bay of Pigs How Ike quietly helped Reagan win his first race in 1966 How Richard Nixon conspired with Lyndon Johnson to get elected and then betrayed him How Jerry Ford and Jimmy Carter turned a deep enmity into an alliance The unspoken pact between a father and son named Bush And the roots of the rivalry between Clinton and Barack Obama Time magazine editors and presidential historians Nancy Gibbs and Michael Duffy offer a new and revealing lens on the American presidency exploring the club as a hidden instrument of power that has changed the course of history **The Age of Nixon** Carl Freedman, 2012-01-27 The fundamental argument this book is first that Richard Nixon though not generally regarded as a charismatic or emotionally outgoing politician like Franklin Roosevelt or Ronald Reagan did establish profound psychic connections with the American people connections that can be detected both in the brilliant electoral success that he enjoyed for most of his career and in his ultimate defeat during the Watergate scandal and second and even more important that these connections are symptomatic of many of the most important currents in American life The book is not just a work of political history or political biography but a study of cultural power that is a study in the ways that culture shapes our politics and frames our sense of possibilities and values In its application of Marxist psychoanalytic and other theoretical tools to the study of American electoral politics and in a way designed for the general as well as for the academic reader it is a new kind of book **Henry Kissinger and the American Century** Jeremi Suri, 2007 Suri offers a thought provoking interpretive study of one of the most influential and controversial political figures of the 20th century Drawing on extensive research and interviews with Kissinger and others Suri analyzes the sources of Kissinger's ideas and explains why he pursued the policies he did Republicans and Race Timothy N. Thurber, 2023-04-14 Skeptics might rationalize that Mitt Romney received a scant 6 percent of the black vote in 2012 only because African Americans would naturally favor one of their own But since 1964 no Republican presidential candidate has attracted more than 15 percent of the black electorate and few GOP candidates for other offices have fared much better No segment of the American electorate is more reliably Democratic than African Americans The GOP meanwhile remains nearly an all white party In this path breaking book historian Timothy Thurber illuminates the deep roots of this gulf by exploring the contentious and sometimes surprising relationship between African Americans and the Republican Party from the end of World War II through Richard Nixon's presidency The GOP he shows shaped the modern civil rights movement but the struggle for racial equality also transformed the GOP Thurber challenges conventional wisdom that the party of Lincoln disappeared in the mid

1960s Prior to 1964 the GOP was indifferent or hostile to many of the demands from civil rights activists During the height of the civil rights revolution Republicans were essential to enacting federal policies that made American society more egalitarian The GOP helped defend and sometimes expanded those reforms in the early 1970s Conservatives were not as dominant after 1964 as scholars and pundits often portray Yet throughout these three decades the rift between African Americans and the GOP remained substantial They disagreed often sharply over the role of the federal government particularly regarding economic matters and the integration of schools and neighborhoods They had different views about race and American society They also clashed in the political arena where Republicans wrote off the black vote as unwinnable irrelevant or counterproductive to their drive to supplant the Democrats as the nation's majority party The GOP preferred to court whites nationwide sometimes by appealing to their racial animosities That strategy often yielded electoral success but the legacy of the past looms large in the early twenty first century With its depth of research and insight Republicans and Race will stand as a definitive study as the GOP ponders the composition of its base in future elections

Ambition, Pragmatism, and Party Scott Kaufman, 2017-12-04 Within eight turbulent months in 1974 Gerald Ford went from the United States House of Representatives where he was the minority leader to the White House as the country's first and only unelected president His unprecedented rise to power after Richard Nixon's equally unprecedented fall has garnered the lion's share of scholarly attention devoted to America's thirty eighth president But Gerald Ford's 1913-2006 life and career in and out of Washington spanned nearly the entire twentieth century *Ambition Pragmatism and Party* captures for the first time the full scope of Ford's long and remarkable political life The man who emerges from these pages is keenly ambitious determined to climb the political ladder in Washington and loyal to his party but not a political ideologue Drawing on interviews with family and congressional and administrative officials presidential historian Scott Kaufman traces Ford's path from a Depression era childhood through service in World War II to entry into Congress shortly after the Cold War began He delves deeply into the workings of Congress and legislative executive relations offering insight into Ford's role as the House minority leader in a time of conservative insurgency in the Republican Party Kaufman's account of the Ford presidency provides a new perspective on how human rights figured in the making of U.S. foreign policy in the Cold War era and how environmental issues figured in the making of domestic policy It also presents a close look at the 1976 presidential election emphasizing the significance of image in that contest and extensive coverage of Ford's post presidency In sum *Ambition Pragmatism and Party* is the most comprehensive political biography of Gerald Ford and will become the definitive resource on the thirty eighth president of the United States

Playing Politics with Natural Disaster Timothy W. Kneeland, 2020-04-15 Hurricane Agnes struck the United States in June of 1972 just months before a pivotal election and at the dawn of the deindustrialization period across the Northeast The response by local state and national officials had long term consequences for all Americans President Richard Nixon used the tragedy for political gain by delivering a generous

relief package to the key states of New York and Pennsylvania in a bid to win over voters After his landslide reelection in 1972 Nixon cut benefits for disaster victims and then passed legislation to push responsibility for disaster preparation and mitigation on to states and localities The impact led to the rise of emergency management and inspired the development of the Federal Emergency Management Agency FEMA With a particular focus on events in New York and Pennsylvania Timothy W Kneeland narrates how local state and federal authorities responded to the immediate crisis of Hurricane Agnes and managed the long term recovery The impact of Agnes was horrific as the storm left 122 people dead forced tens of thousands into homelessness and caused billions of dollars in damage from Florida to New York In its aftermath local officials and leaders directed disaster relief funds to rebuild their shattered cities and reshaped future disaster policies Playing Politics with Natural Disaster explains how the political decisions by local state and federal officials shaped state and national disaster policy and continues to influence emergency preparedness and response to this day **Grand Old Party** Lewis L. Gould,2012 This highly readable narrative history of the Republican Party profiles the G O P from its emergence as an antislavery party during the 1850s to its current place as champion of political conservatism
