Japanese Drama and Culture in the 1960s D.G. Goodman, 2017-09-08 This title was first published in 1988 In this book the author has translated five postwar experimental Japanese plays and recreated the artistic social and spiritual milieu in which they were created He describes the turning point in Japanese thinking about the nature and limitations of a Western oriented modern culture and the creation of underground theatres which in which evolved a new mythology of history Professor Goodman sees these developments as an interplay between personal and political ie revolutionary salvation

Wordwarp Jack Goodfellow, 2005-03 Language is both a medium and a tool Words allow us to share concepts and emotions but language can also be used to exert power and change minds Set in present day Europe Wordwarp is a fictional adventure recounting a hidden war of words secret projects in different countries using highly evolved forms of in vitro intelligence to build codes into our languages and propagate particular mindsets Tim Griffon an American journalist and occasional rock musician is living a lazy existence in Cologne when suddenly he s caught up in ominous mind bending neurological experiments conflicting love affairs and detours along the frontier of death As the linguistic codes battle for people s minds Griffon sees a way to resist with his talents for nonsense and rampant rock **Lyra Celtica , Science with Storytelling** Jane Stenson, Sherry Norfolk, Lynette J. Ford, 2017-02-06 This book is about the intersection of storytelling and science Recognizing that humans are hard wired for narrative this collection of new essays integrates the two in a special way to teach science in the K 6 classroom As science education changes its focus to concepts that bridge various disciplines along with science and engineering practices storytelling offers opportunities to enhance the science classroom Lesson plans are provided each presenting a story its alignment with science Next Generation Science Standards language arts Common Core State Standards and theater arts standards National Core Arts Standards Instructional plans include a rationale preparation activities and assessment **Historical Common Names of Great Plains Plants Volume I:**

Historical Names (paperback) Elaine Nowick, 2014-10 Containing thousands of entries of both vernacular and scientific names of Great Plains plants the literature that informs this exhaustive listing spans nearly 300 years Author Elaine Nowick has drawn from sources as diverse as Linnaeus Lewis and Clark and local university extension publications to compile the gamut of practical and often fanciful common plant names used over the years Each common name is accompanied by a definitive scientific name with references and authority information Interspersed with scientifically correct botanical line drawings the entries are written in standard ICBN format making this a useful volume for scholars as well as lay enthusiasts alike Volume 1 presents in alphabetical order all the historical common names of plants recorded in Great Plains flora herbaria and botanical collections together with the scientific names of species to which those common names have been applied *Who Gets to Be Indian?* Dina Gilio-Whitaker, 2025-10-07 An investigation into how Native American identity became a commodity from cultural appropriation to ethnic fraud to disenrollment Settler capitalism has been so effective

that the very identities of Indigenous people have been usurped misconstrued and weaponized In Who Gets to Be Indian scholar and writer Dina Gilio Whitaker Colville Confederated Tribes explores how ethnic fraud and the commodification of Indianness has resulted in mass confusion about what it means to be Indigenous in the United States As an entry point to the seemingly intractable problem of ethnic fraud Gilio Whitaker critically looks to the film industry including a case study of Sacheen Littlefeather who is most known as the Native American woman that rejected an Oscar on behalf of Marlon Brando in 1973 though later revealed she was not who she said she was Gilio Whitaker argues that this pretendian phenomenon originated in Southern California when the United States was forcing assimilation of Indians into white America culturally but also into its capitalist economic system With Indianness becoming a marketized commodity in the Hollywood film business the field became open to anyone who could convincingly adopt an Indian persona Deeply researched using socio historical analysis Gilio Whitaker offers insights from her own experiences grappling with identity to provide clarity and help readers understand how the commodification of Indianness have ultimately left many people of legitimate American Indian heritage to be disconnected from their tribes Personal and compelling Gilio Whitaker takes settler capitalism to task and helps us better understand how we got here in order to counteract the abuses of pretendianism and disenrollment
