Rediscovering The 1st Nations Of Canada:

Rediscovering the First Nations of Canada John W. Friesen, 1997 Overview of the history lifestyles and spirituality of native races of major regions of Canada

Rediscovered Self Ronald Niezen, 2009-05-18 In a series of thematically linked essays Ronald Niezen discusses the ways new rights standards and networks of activist collaboration facilitate indigenous claims about culture adding coherence to their histories institutions and group qualities Drawing on historical legal and ethnographic material on aboriginal communities in northern Canada Niezen illustrates the ways indigenous peoples worldwide are identifying and acting upon new opportunities to further their rights and identities He shows how within the constraints of state and international legal systems activist lobbying strategies and public ideas and expectations indigenous leaders are working to overcome the injuries of imposed change political exclusion and loss of identity Taken together the essays provide a critical understanding of the ways in which people are seeking cultural justice while rearticulating and at times re dignifying the collective self The Rediscovered Self shows how through the processes and aims of justice distinct ways of life begin to be expressed through new media formal procedures and transnational collaborations

The Indo-Europeans Rediscovered J. P. Mallory, 2025-06-10 A lifetime's study brings revealing expertise to an oft misunderstood topic in human history the origin and language of the Indo Europeans Today the number of

native speakers of Indo European languages across the world is approximated to be over 2.6 billion about 45 percent of the Earth's population. Yet the idea that an ancient prehistoric population in one time and place gave rise to a wide variety of peoples and languages is one with a long and troubled past. In this expansive investigation based on more than forty years of research, archaeologist J. P. Mallory navigates the complex history of our search for the Indo European homeland, offering fresh insight into the debates surrounding origin as well as the latest genetic research. In this compelling account, Mallory explores ancient migrations, linguistics, and archaeology, applying cutting edge genetic research to untangle the key arguments with wit and verve. He addresses how the controversial idea of a single shared homeland has been viewed by scientists, archaeologists, and linguists across the past century and reconsiders how, in the case of the Nazis and more recent nationalist movements, they have been manipulated for political advantage. The author goes on to analyze the linguistic trail linking current populations to the Indo Europeans, looking at Sanskrit, Greek, Latin, and more, as he traces linguistic origins across multiple peoples and cultures, bringing the most up to date phylogenetic research to bear on this story. Ultimately, this important volume offers the most conclusive and nuanced understanding of an oft misrepresented and misunderstood topic.

The Palgrave Companion to North American Utopias J. Friesen, 2016-02-25. The Palgrave Companion to North American Utopias is a fascinating virtual catalogue of utopian societies and communes from past to present. The authors assert that the formation of a utopian society is both possible and feasible and give examples of how to create one of our own. The Museum Called Canada Charlotte Gray, Sara Angel, 2004. Hold our history in your hands with a spectacular virtual museum that is at once a sweeping exploration of Canadian history and culture, an indispensable reference guide, and a remarkable treasury of information. Welcome to a museum so vast and full of wonder that it could only be called Canada. Each of The Museum Called Canada's 25 rooms houses carefully chosen exhibits that illuminate a significant historical theme. This majestic collection brings together high art and popular culture, science and nature, rare objects and whimsical ephemera. Here you will see the empty eye sockets of Tyrannosaurus Rex and be able to examine intricate and ethereal wood carved angels built for Quebec's Rideau Chapel. Exhibits span the breadth of our nation from the Yuquot Whaler's Shrine of Vancouver Island's Nootka to an anti Confederation poster from the controversially soon to be province Newfoundland. Your guide to the collection is historian and author Charlotte Gray. For each room in the museum, Gray has written a short essay that delves into the world of a particularly evocative artifact and its importance in the context of the room's theme and time period. The Museum Called Canada, with its expansive vision, its surprising juxtapositions, its visual feasts, and intellectual explorations, is a beautiful and inspiring place that you will want to visit again and again. **Nation Maker** Richard J. Gwyn, 2011-09-27. 1 NATIONAL BESTSELLER. An exciting story passionately told and rich in detail, this major biography is the second volume of the bestselling award winning *John A: The Man Who Made Us* by well known journalist and highly respected author Richard Gwyn. John A. Macdonald, Canada's first and most important prime minister, is the man who made

Confederation happen who built this country over the next quarter century and who shaped what it is today From Confederation Day in 1867 where this volume picks up Macdonald finessed a reluctant union of four provinces in central and eastern Canada into a strong nation despite indifference from Britain and annexationist sentiment in the United States But it wasn't easy The wily Macdonald faced constant crises throughout these years from Louis Riel's two rebellions through to the Pacific Scandal that almost undid his government and his quest to find the spine of the nation the railroad that would link east to west Gwyn paints a superb portrait of Canada and its leaders through these formative years and also delves deep to show us Macdonald the man as he marries for the second time deals with the birth of a disabled child and the assassination of his close friend Darcy McGee and wrestles with whether Riel should hang Indelibly Gwyn shows us Macdonald's love of this country and his ability to joust with forces who would have been just as happy to see the end of Canada before it had really begun creating a must read for all Canadians

First Nations in the Twenty-first Century John W.

Friesen, Virginia Agnes Lyons Friesen, 2005 As the 21st century progresses happenings in Aboriginal communities are increasingly gaining the attention of Canadians Some headway has been made in several significant areas such as constitutional status treaty negotiations economic development land claims residential school litigation and health and welfare The number of Aboriginal youth graduating from high school has increased and a greater number of Aboriginal youth are enrolled in post secondary institutions Despite these gains however there are a number of related frontiers in education to conquer if Canada's First Nations are to gain equality with other Canadians Six of these frontiers are outlined in this book and constitute vital topics of concern
