Redneck Manifesto:

The Redneck Manifesto Jim Goad,1997 In an era of political correctness why has the redneck remained fair game for any manner of public insult In a short brilliantly reasoned book that he hopes will raise the consciousness of a nation Jim Goad takes readers into the mind and soul of this usually ignored and always denigrated class of citizen Mordant and biting his treatise demonstrates how The Redneck Nation has found its voice The Redneck Manifesto Jim Goad,1997 **The New Right** Michael Malice,2019-05-14 The definitive firsthand account of the movement that permanently broke the American political consensus What do internet trolls economic populists white nationalists techno anarchists and Alex Jones have in common Nothing except for an unrelenting hatred of evangelical progressivism and the so called Cathedral from whence it pours forth Contrary to the dissembling explanations from the corporate press this movement did not emerge overnight nor are its varied subgroups in any sense interchangeable with one another As united by their opposition as they are divided by their goals the members of the New Right are willfully suspicious of those in the mainstream who would seek to tell their story Fortunately author Michael Malice was there from the very inception and in *The New Right* recounts their tale from the beginning Malice provides an authoritative and unbiased portrait of the New Right as a movement of ideas ideas that he traces to surprisingly diverse ideological roots From the heterodox right wing of the 1940s to the Buchanan Rothbard alliance of 1992 and all the way through to what he witnessed personally in Charlottesville *The New Right* is a thorough firsthand accounting of the concepts characters and chronology of this widely misunderstood sociopolitical phenomenon Today's fringe is tomorrow's orthodoxy As entertaining as it is informative *The New Right* is required reading for every American across the spectrum who would like to learn more about the past present and future of our divided political culture

Consumption of Inequality K. Good White People Shannon Sullivan, 2014-05-15 Argues for the necessity of a new ethos for middle class white anti racism Building on her book *Revealing Whiteness* Shannon Sullivan identifies a constellation of attitudes common among well meaning white liberals that she sums up as white middle class goodness an orientation she critiques for being more concerned with establishing anti racist bona fides than with confronting systematic racism and privilege Sullivan untangles the complex relationships between class and race in contemporary white identity and outlines four ways this orientation is expressed each serving to establish one's lack of racism the denigration of lower class white people as responsible for ongoing white racism the demonization of antebellum slaveholders an emphasis on colorblindness especially in the context of white childrearing and the cultivation of attitudes of white guilt shame and betrayal To move beyond these distancing strategies Sullivan argues white people need a new ethos that acknowledges and transforms their whiteness in the pursuit of racial justice rather than seeking a self righteous distance from it

Thinking the US South Shannon Sullivan, 2021-03-15 Knowledge emerges from contexts which are shaped by people's experiences The varied essays in *Thinking the US South* Contemporary Philosophy from Southern Perspectives demonstrate that Southern identities borders and practices play an important but unacknowledged role in ethical political emotional and global issues connected to knowledge production Not merely one geographical region among others the US South is sometimes a fantasy and other times a nightmare but it is always a prominent component of the American national imaginary In connection with the Global North and Global South the US South provides a valuable perspective from which to explore race class gender and other inter and intra American differences The result is a fresh look at how identity is constituted the role of place ancestors and belonging in identity formation the impact of regional differences on what counts as political resistance the ways that affect and emotional labor circulate practices of boundary policing deportation and mourning issues of disability and slowness racial and other forms of suffering and above all the question of whether and how doing philosophy changes when done from Southern standpoints Examining racist tropes Indigenous land claims Black Southern philosophical perspectives migrant labor and more this incisive anthology makes clear that roots matter
