Lee (Kunsthistoriker),1983      Reflections of Reality in Japanese Art ,      Reflections of Reality in Japanese Art Marjorie Williams,1983      The United States and Cultural Heritage Protection in Japan (1945-1952) Nassrine Azimi,2025-10-01 One of the untold stories of the American military occupation of Japan from 1945 to 1952 is that of efforts by the Arts and Monuments Division of the Supreme Commander for the Allied Powers SCAP for the preservation of Japan s cultural heritage While the role of Allies after WWII in salvaging the cultural heritage of Europe has recently become better known not much is written of the extraordinary vision planning and endeavors by curators and art specialists embedded in the US military and later based in Tokyo and their peers and political masters back in Washington D C all of whom ensured that defeated Japan s cultural heritage was protected in the chaos and misery of post war years      *Art of Japan* Cleveland Museum of Art,Nancy Grossman,James T. Ulak,Marjorie Williams,Laurence Channing,2005 The Cleveland Museum of Art has accumulated one of the premier collections of Japanese art in the West and this publication brings together its best examples of Japanese art      Mondrian's Philosophy of Visual Rhythm Eiichi Tosaki,2017-11-15 This volume investigates the meaning of visual rhythm through Piet Mondrian s unique approach to understanding rhythm in the compositional structure of painting drawing reference from philosophy aesthetics and Zen culture Its innovation lies in its reappraisal of a forgotten definition of rhythm as stasis or composition which can be traced back to ancient Greek thought This conception of rhythm the book argues can be demonstrated in terms of pictorial strategy through analysis of East Asian painting and calligraphy with which Greek thought on rhythm has identifiable commonalities The book demonstrates how these ideas about rhythm draw together various threads of intellectual development in the visual arts that cross disparate aesthetic cultural practices As an icon of early 20th Century Modernism Mondrian s neoplasticism is a serious painterly and philosophical achievement In his painting Mondrian was deeply influenced by Theosophy which took its influence from Eastern aesthetics particularly East Asian and Indian thought However Mondrian s approach to visual rhythm was so idiosyncratic that his contribution to studies of visual rhythm is often under recognized This volume shows that a close inspection of Mondrian s own writing thinking and painting has much to tell scholars about how to understand a long forgotten aspect of visual rhythm Rodin s famous criticism of photography athlete in motion is forever frozen can be applied to Muybridge s zoopraxiscope the Futurists rendition of stroboscopic images and Duchamp s *Nude Descending a Staircase* Through a comparative study between Mondrian s painting and these seminal works this volume initiates a new convention for the cognition of the surface of painting as visual rhythm Mondrian s simultaneous emphasis on the static and the rhythmic is hardly fodder for a publicist Eiichi Tosaki has taken on the challenge of elucidating Mondrian s theories of rhythm and particularly his conception of static

rhythm The result is a tour de force that will forever alter the reader's encounter with the works of Mondrian Prof Kathleen Higgins *Reflections of Reality in Japanese Art* Marjorie Williams, Jo Zuppan, Cleveland Museum of Art, 1983 Critical Perspectives on Classicism in Japanese Painting Elizabeth Lillehoj, 2004-01-01 In the West classical art inextricably linked to concerns of a ruling or dominant class commonly refers to art with traditional themes and styles that resurrect a past golden era Although art of the early Edo period 1600-1868 encompasses a spectrum of themes and styles references to the past are so common that many Japanese art historians have variously described this period as a classical revival era of classicism or a renaissance How did seventeenth century artists and patrons imagine the past Why did they so often select styles and themes from the court culture of the Heian period 794-1185 Were references to the past something new or were artists and patrons in previous periods equally interested in manners that came to be seen as classical How did classical manners relate to other styles and themes found in Edo art In considering such questions the contributors to this volume hold that classicism has been an amorphous changing concept in Japan just as in the West Troublesome in its ambiguity and implications it cannot be separated from the political and ideological interests of those who have employed it over the years The modern writers who first
