The World As I Measure It: Volume Beta: An

Autobiographical Reflection Larry Ashkenazy, Beta The World As I Measure It is a deeply personal reflection from the author behind a series of celebrated works This autobiography charts the life journey that influenced the creation of those books offering a unique glimpse into the major events and thoughts that shaped the author s intellectual path However it is not a companion or guide to their published works Instead this narrative stands apart sharing the milestones and experiences that led to the development of the ideas readers will find within the books themselves For those interested in the mind behind the words this is a revealing and thoughtful chronicle

Education, Leadership and Islam

Saeeda Shah, 2015-07-03 Educational institutions are undergoing complex and sensitive changes in the context of immigration international mobility globalisation and shifting economic scenarios making highly challenging demands on educational leaders Leadership is increasingly being perceived and theorised as pivotal to students achievement and institutional performance In this book Saeeda Shah considers educational leadership from an Islamic perspective to debate theoretical positions underpinned by Islamic texts and teachings and the resulting conceptualisations and interpretations While educational leadership literature and research have flourished in recent years this is predominantly informed by Western ideologies concepts theories and practices Education Leadership and Islam focuses on contemporary educational settings and practices drawing on research and empirical evidence from multicultural contexts in order to enrich theory and inform policy and practice in relevant frameworks particularly in relation to the growing Muslim population in the West Chapters also discuss gender in Islam educational expectations and Islamic faith schools to comprehensively explore education in relation to Islamism Situating Muslims within contemporary societies this book extends debates regarding educational philosophy and leadership endorsing diversity and plurality through an appreciation of difference Education Leadership and Islam will appeal to education researchers as well as social and political scientists attempting to understand Muslim educational issues in contemporary life both in the east and in the west This book offers critical insight into educational theory and practice and as such will be key reading for policy makers and educational leaders

Self-Reflection

Sandra Christian, 2020-04-16 How often do you take time to reflect When do you feel safe enough to be vulnerable Can you be completely honest with yourself about what you think and feel Sandra Christian takes us on a fascinating journey in this book A woman of mixed ethnical origin she was classified at birth as Colored Indian under the Apartheid regime in South Africa where she tried to find peace despite being different She later flees to Europe as a young mother where under great psychological pressure she establishes herself and succeeds in creating a life for herself and her son Only it comes at a cost In this book she reflects on numerous aspects of her life that have made

her the woman she is today She encourages you the reader though poignant questions to stand still and seriously connect with your inner self helping you to understand why you do the things you do and showing you how to create the amazing life you desire

God's Existence: Religious and Scientific Reflection Ravi K. Puri Ph.D.,2022-12-06 When war crimes and calamities occur the belief in God is shaken The idea comes to mind Does God Exist If there is a God then why is he not preventing deadly events comprising genocides assassinations crimes and atrocities On the contrary He does not interfere That means there is no God Are people worshiping at various religious places Churches Mosques and Temples for various reasons wasting their time If God does not exist all these religious places should be closed and turned into cinemas entertainment clubs and sports stadiums God is not any object that His existence can be proved It can be felt by seeing His splendid creation The act of creation reveals the creator To know His existence is to know his magnificent creation and redemption He is the transcendent designer and has not revealed Himself so far to anyone No God His prophet deputy or beloved can interfere with any life on any planet Each soul has its journey and is responsible for its actions God is apathetic to the creation of the universe or any happening in the universe The universe goes on as per its natural laws So let us not blame God for any catastrophe occurring in the world

The Names of God in Judaism, Christianity, and Islam Máire Byrne,2011-07-07 This book offers a welcome solution to the growing need for a common language in interfaith dialogue particularly between the three Abrahamic faiths in our modern pluralistic society The book suggests that the names given to God in the Hebrew Bible the New Testament and the Qur'an could be the very foundations and building blocks for a common language between the Jewish Christian and Islamic faiths On both a formal interfaith level as well as between everyday followers of each doctrine this book facilitates a more fruitful and universal understanding and respect of each sacred text exploring both the commonalities and differences between each theology and their individual receptions In a practical application of the methodologies of comparative theology Maire Byrne shows that the titles names and epithets given to God in the sacred texts of Judaism Christianity and Islam contribute towards similar images of God in each case and elucidates the importance of this for providing a viable starting point for interfaith dialogue
