Counterpoints Stephanie Tara Schwartz, May Telmissany, 2010-03-08 Revolving around the theme of counterpoint extensively used by Edward Said as the interplay of diverse ideas and discrepant experiences this book aims to explore Said s contribution to the fields of comparative literature literary criticism postcolonial theory exilic and transnational studies and socio political thought among many others Overshadowed by his legitimate political positions in support to the Palestinian cause and at odds with Islamophobic hostilities Said s intellectual achievements in the fields of humanities and philosophical thinking should equally be acknowledged and celebrated Said articulates his notion of counterpoints through a vivid description of the composition of Western classical music In the counterpoint of Western classical music various themes play off one another with only a provisional privilege being given to any particular one yet in the resulting polyphony there is concert and order an organized interplay that derives from the themes not from a rigorous melodic or formal principle outside the work This book pays tribute to Said s contrapuntal methodology as well as to his academic and humanistic legacy

Postcolonial Theory and Autobiography David Huddart, 2008-04-18 Cultural theory has often been criticized for covert Eurocentric and universalist tendencies. Its concepts and ideas are implicitly applicable to everyone, ironing over any individuality or cultural difference. Postcolonial theory has challenged these limitations of cultural theory, and Postcolonial Theory and Autobiography addresses the central challenge posed by its autobiographical turn. Despite the fact that autobiography is frequently dismissed for its Western masculine bias, David Huddart argues for its continued relevance as a central explanatory category in understanding postcolonial theory and its relation to subjectivity. Focusing on the influence of post-structuralist theory on postcolonial theory and vice versa, this study suggests that autobiography constitutes a general philosophical resistance to universal concepts and theories. Offering a fresh perspective on familiar critical figures like Edward W. Said and Gayatri Chakravorty Spivak by putting them in the context of readings of the work of Jacques Derrida, Gilles Deleuze, and Alain Badiou, this book relates the theory of autobiography to expressions of new universalisms that, together with postcolonial theory, rethink and extend norms of experience, investigation, and knowledge.

Caribbean Women Writers and Globalization Helen C. Scott, 2016-04-08 Caribbean Women Writers and Globalization offers a fresh reading of contemporary literature by Caribbean women in the context of global and local economic forces, providing a valuable corrective to much Caribbean feminist literary criticism. Departing from the trend towards thematic diasporic studies, Helen Scott considers each text in light of its national, historical, and cultural origins, while also acknowledging regional and international patterns. Though the work of Caribbean women writers is apparently less political than the male-dominated literature of national liberation, Scott argues that these women nonetheless express the sociopolitical realities of the postindependent Caribbean, providing insight into the dynamics of imperialism that survive the demise of formal colonialism. In addition, she identifies the specific aesthetic qualities that reach beyond the confines of geography and history in the work of such writers as Oonya Kempadoo, Jamaica Kincaid, Edwidge Danticat, Pauline Melville, and Janice Shinebourne. Throughout, Scott's persuasive and accessible study sustains the dialectical principle that art is inseparable from social forces and yet always strains against the limits they impose. Her book will be an indispensable resource for literature and women's studies scholars as well as for those interested in postcolonial cultural and globalization studies.

Critical Theory Amirhosein Khandizaji, Wolfgang Sohst, 2025-07-01 Critical Theory: The Last Stand for Emancipation gathers leading voices in contemporary critical thought to reassert the enduring relevance of a tradition forged in resistance. From the early insights of the Frankfurt School to its intersections with decolonial, queer, ecological, and postcolonial critiques, this volume maps the evolving terrain of a radical project devoted to unveiling domination and envisioning emancipation. At a time when neoliberal orthodoxy undermines critical scholarship and authoritarian populism distorts public discourse, this book refuses resignation. It offers instead a lucid and urgent intervention, one that confronts the alienations of digital life, the legacies of colonial violence, and the manufactured chaos of late capitalism. With essays ranging from genealogy to praxis, from epistemology to

affect this collection insists that critical theory is not an academic relic but a living practice of resistance Whether reckoning with the failures of progress or reclaiming hope as a political act Critical Theory The Last Stand for Emancipation is a call to think deeply act ethically and remember that critique remains a vital tool in the struggle for a more just world *Sanctuary* Nicole A. Waligora-Davis, 2011-03-01 In 2005 hurricane Katrina and its aftermath starkly revealed the continued racial polarization of America Disproportionately impacted by the ravages of the storm displaced black victims were often characterized by the media as refugees The characterization was wrong headed and yet deeply revealing Sanctuary African Americans and Empire traces the long history of this and related terms like alien and foreign a rhetorical shorthand that has shortchanged black America for over 250 years In tracing the language and politics that have informed debates about African American citizenship Sanctuary in effect illustrates the historical paradox of African American subjecthood while frequently the target of legislation slave law the Black Codes and Jim Crow blacks seldom benefited from the actions of the state Blackness helped to define social cultural and legal aspects of American citizenship in a manner that excluded black people themselves They have been treated rather as foreigners in their home country African American civil rights efforts worked to change this Activists and intellectuals demanded equality but they were often fighting for something even more fundamental the recognition that blacks were in fact human beings As citizenship forced acknowledgement of the humanity of African Americans it thus became a gateway to both civil and human rights Waligora Davis shows how artists like Langston Hughes underscored the power of language to define political realities how critics like W E B Du Bois imagined democratic political strategies and how they and other public figures have used their writing as a forum to challenge the bankruptcy of a social economy in which the value of human life is predicated on race and civil identity
