

*Reflections
on Resemblance,
Ritual, and Religion*

Brian K. Smith

Reflections On Resemblance Ritual And Religion

Pankaj Jain, Jeffery D. Long

Reflections On Resemblance Ritual And Religion:

Reflections on Resemblance, Ritual, and Religion Brian K. Smith, 1998-01-01 The classical Vedic texts that deal with large scale sacrificial ritual and those writings that deal with domestic ritual have traditionally been treated as unrelated The former are devoted to the explication of rituals that are dominated by wealthy male elites the latter concern humble private ceremonies more open to female participation *Reflections on Resemblance Ritual and Religion* argues that there is in fact a fundamental connection between these two large and important bodies of Indic religious literature

Reflections on Resemblance, Ritual, and Religion Brian K. Smith, Lama Marut, 1989 Examining such issues as the definition of religion the nature and purpose of ritual the dynamics of sacrifice and substitution and the process of change and continuity in traditions this volume explores the organizational principles of the ancient sacrificial system and the role Vedic religion plays in later orthodox Hinduism Smith argues that Vedic conceptions of the cosmos the nature of the human being visions of the afterlife and representations of ritual theory can all be understood in similar terms

Ritual Theory, Ritual Practice Catherine Bell, 1992-01-30 Ritual studies today figures as a central element of religious discourse for many scholars around the world *Ritual Theory Ritual Practice* Catherine Bell's sweeping and seminal work on the subject helped legitimize the field In this volume Bell re examines the issues methods and ramifications of our interest in ritual by concentrating on anthropology sociology and the history of religions Now with a new foreword by Diane Jonte Pace Bell's work is a must read for understanding the evolution of the field of ritual studies and its current state

Identity as Reasoned Choice Jonardon Ganeri, 2012-02-02 In an increasingly multi religious and multi ethnic world identity has become something actively chosen rather than merely acquired at birth This book essentially analyzes the resources available to make such a choice Looking into the world of intellectual India this unique comparative survey focuses on the identity resources offered by India's traditions of reasoning and public debate Arguing that identity is a formation of reason it draws on Indian theory to claim that identities are constructed from exercises of reason as derivation from exemplary cases The book demonstrates that contemporary debates on global governance and cosmopolitan identities can benefit from these Indian resources which were developed within an intercultural pluralism context with an emphasis on consensual resolution of conflict This groundbreaking work builds on themes developed by Amartya Sen to provide a creative pursuit of Indian reasoning that will appeal to anyone studying politics philosophy and Asian political thought

Religion, Narrative and Public Imagination in South Asia James Hegarty, 2013-03 The Sanskrit Mahabharata is one of the greatest works of world literature and pivotal for the understanding of both Hindu traditions and wider society in ancient medieval and modern South Asia This book presents a new synthesis of philological anthropological and cognitive linguistic method and theory in relation to the study of narrative text by focusing on the form and function of the Mahabharata in the context of early South Asia Arguing that the combination of structural and thematic features that have helped to establish the enduring cultural centrality of religious narrative in

South Asia was first outlined in the text the book highlights the Mahabharata's complex orientation to the cosmic social and textual past. The book shows the extent to which narrative is integral to human social life and more generally the creation and maintenance of religious ideologies. It highlights the contexts of origin and transmission and the cultural function of the Mahabharata in first millennium South Asia and by extension in medieval and modern South Asia by drawing on both textual and epigraphic sources. The book draws attention to what is culturally specific about the origination and transmission of early South Asian narrative and what can be used to enrich our orientation to narrative in human social life more globally. Veda and Torah Barbara A. Holdrege, 2012-02-01 Enlarges our understanding of the term scripture through a comparative study of Veda and Torah. Religion in India Fred W. Clothey, 2007-01-24 Religion in India is an ideal first introduction to India's fascinating and varied religious history. Fred Clothey surveys the religions of India from prehistory and Indo-European migration through to the modern period. Exploring the interactions between different religious movements over time and engaging with some of the liveliest debates in religious studies, he examines the rituals, mythologies, arts, ethics, and social and cultural contexts of religion as lived in the past and present on the subcontinent. Key topics discussed include Hinduism, its origins and development over time, minority religions such as Christianity, Judaism, Islam, Sikhism, Zoroastrianism, Jainism, and Buddhism, the influences of colonialism on Indian religion, the spread of Indian religions in the rest of the world, the practice of religion in everyday life, including case studies of pilgrimages, festivals, temples, and rituals, and the role of women. Written by an experienced teacher, this student-friendly textbook is full of clear, lively discussion and vivid examples. Complete with maps and illustrations and useful pedagogical features including timelines, a comprehensive glossary, and recommended further reading, specific to each chapter, this is an invaluable resource for students beginning their studies of Indian religions.

What is Religion? Idinopulos, Brian C. Wilson, 2018-09-24 What is Religion consists of fourteen essays written by a selection of scholars who represent a wide spectrum of approaches to the academic study of religion. Each of the essays is an effort not only to take stock of the present controversy concerning appropriate methodologies for the study of religion but also to take one giant step beyond that to formulate a precise definition of religion. Given the considerable confusion today about what it is exactly that religious studies scholars take to be their subject matter when they presume to professionally teach about religion, this volume provides a much-needed forum for leading scholars to debate and clarify what professors of religious studies understand as the central object or objects under their scrutiny. Indian and Western Philosophical Concepts in Religion Pankaj Jain, Jeffery D. Long, 2022-12-19 Philosophical concepts are influential in the theories and methods to study the world's religions. Even though the disciplines of anthropology and religious studies now encompass communities and cultures across the world, the theories and methods used to study world religions and cultures continue to be rooted in Western philosophies. For instance, one of the most widely used textbooks used in introductory courses on religious studies introduces major theoreticians such as Edward Burnett Tylor, James Frazer, Sigmund Freud, Emile Durkheim,

Karl Marx Max Weber Mircea Eliade William James E E Evans Pritchard and Clifford Geertz Their theories are based on Western philosophy In contrast in Indic philosophical systems such as Buddhism Hinduism and Jainism one of the common views on reality is that the world both within one self and outside is a flow with nothing permanent both the observer and the observed undergoing constant transformation This volume is based on such innovative ideas coming from different Indic philosophies and how they can enrich the theory and methods in religious studies **The Robert Bellah Reader** Robert N. Bellah, Steven M. Tipton, 2006-10-09 Comparative and theoretical American religion University and society Sociology and theology

Ignite the flame of optimism with is motivational masterpiece, Find Positivity in **Reflections On Resemblance Ritual And Religion** . In a downloadable PDF format (PDF Size: *), this ebook is a beacon of encouragement. Download now and let the words propel you towards a brighter, more motivated tomorrow.
