Reforming Korea's Industrial Conglomerates:

Reforming Korea's Industrial Conglomerates Edward Montgomery Graham, 2003 In 1998 the Korean economy experienced the deepest recession since the Korean War Within a year a number of smaller industrial conglomerates had failed In this study Graham examines the causes of this situation tracing them back to the aggressive industrial policy begun by president Park Chung hee during the late 1960s He also analyzes reforms undertaken since 1997 concluding that they have not been entirely successful *Reforming the IMF for the 21st Century*, 2006 **The Oxford Handbook of South Korean Politics** JeongHun Han, Ramon Pacheco Pardo, Youngho Cho, 2023-01-24 This Handbook presents and analyses contemporary South Korean politics bringing together domestic political economic social cultural and demographic developments and putting them in the context of trends in fellow developed countries *Neoliberalism and Institutional Reform in East Asia* Meredith Jung-En Woo, 2007-11-06 This book brings together scholars of political economy law and sociology to interrogate the seemingly unproblematic notions the rules of law good corporate governance and flexible labour market that inform neoliberal policy prescriptions It also discusses how these concepts have been translated and practiced in East Asia **Transformations in the Brazilian and Korean Processes of Capitalist Development between the Early 1950s and the Mid-2010s: From Global Capital Accumulation to Late Industrialisation** Nicolás Grinberg, 2023-10-16 Challenging mainstream nation centred theories of economic development Nicol s Grinberg examines the specificities of capitalist development in Brazil and South Korea by starting from their modes of participation in the international division of labour and hence in the production of surplus value on a global scale Contrary to those theories he does not consider these as resulting simply from the economic policies of nation states and their associated political institutions nor from local class struggle dynamics or geopolitical developments Rather drawing on key insights from Marx s critique of political economy his analysis begins by recognising that the process of capitalist development is global in terms of its economic dynamics and historical trends and national only in its political and institutional forms of realisation State mediated patterns of economic development and institutional change in Brazil and Korea as well as the intra and inter state political processes through which these have come about are then considered mediations in the conformation and reproduction of the nationally differentiated uneven process of capital s valorisation on a global scale *The Korean Developmental State* Ian Pirie, 2007-09-12 Ian Pirie gives a comprehensive and up to date analysis of state and economic restructuring in South Korea since the 1997 crisis **The Korean Automotive Industry, Volume 2** A.J. Jacobs, 2023-08-24 This volume chronicles the maturation of the South Korean auto industry and its native automakers from the 1997 Asian Crisis to 2019 After examining the context for domestic vehicle production in South Korea the author presents multiple case studies for all five Korean automakers General Motors Korea Daewoo Motors Kia Hyundai Ssangyong and Renault Samsung This includes coverage of Hyundai Kia s foreign plants in North America Europe India China and Emerging Asia The book closes by assessing the five

to ten year future outlooks for Korean automakers at home and abroad This important work will prove informative to scholars of business management automotive history international development Asian studies and public administration *Routledge Handbook of Korean Politics and Public Administration* Chung-in Moon,M. Jae Moon,2020-01-29 The Routledge Handbook of Korean Politics and Public Administration gathers the expertise of leading international scholars to survey the full spectrum of contemporary South Korean international relations public management and public policies Divided into four parts the handbook covers a range of issues including domestic Korean political parties elections and leadership foreign policy national security and relations with North Korea public administration governance and finance and economic social and environmental public policies Offering a complete overview of the field the handbook is an invaluable resource for academics researchers policy analysts graduate and undergraduate students studying South Korean Politics and International Relations as well as East Asian Politics *Regulatory Reform* Russell Pittman,2003 **The Economic and Strategic Rise of China and India** D. Denoon,2007-09-03 This book demonstrates the connection between economic and strategic developments in Asia with several interrelated arguments The author asserts that there is no single explanation for the 1997 financial crisis in the Pacific Rim states nor for the slow recovery afterwards The author also points out that China is not the only major power rising in Asia India is close behind and warns that while many observers are proceeding as if current U S treaties will continue indefinitely Asia is already preparing for changing patrons
