Black Africans in the British Imagination
Cassander L. Smith, 2016-12-14 As Spain and England vied for dominance of the Atlantic world during the sixteenth and seventeenth centuries mounting political and religious tensions between the two empires raised a troubling specter for contemporary British writers attempting to justify early English imperial efforts Specifically these writers focused on encounters with black Africans throughout the Atlantic world attempting to use these points of contact to articulate and defend England s global ambitions In *Black Africans in the British Imagination* Cassander L. Smith investigates how the physical presence of black Africans both enabled and disrupted English literary responses to Spanish imperialism By examining the extent to which this population helped to shape early English narratives from political pamphlets to travelogues Smith offers new perspectives on the literary social and political impact of black Africans in the early Atlantic world With detailed analysis of the earliest English language accounts from the Atlantic world including writings by Sir Francis Drake Sir Walter Raleigh and Richard Ligon Smith approaches contact narratives from the perspective of black Africans recovering figures often relegated to the margins This interdisciplinary study explores understandings of race and cross cultural interaction and revises notions of whiteness blackness and indigeneity Smith reveals the extent to which contact with black Africans impeded English efforts to stigmatize the Spanish empire as villainous and to malign Spain s administration of its colonies In addition her study illustrates how black presences influenced the narrative choices of

European and later Euro American writers providing a more nuanced understanding of black Africans role in contemporary literary productions of the region

The Savage and Modern Self Robbie Richardson, 2018-04-13 The Savage and Modern Self examines the representations of North American Indians in novels poetry plays and material culture from eighteenth century Britain Author Robbie Richardson argues that depictions of Indians in British literature were used to critique and articulate evolving ideas about consumerism colonialism Britishness and ultimately the modern self over the course of the century Considering the ways in which British writers represented contact between Britons and Indians both at home and abroad the author shows how these sites of contact moved from a self affirmation of British authority earlier in the century to a mutual corruption to a desire to appropriate perceived traits of Indianess Looking at texts exclusively produced in Britain The Savage and Modern Self reveals that the modern finds definition through imagined scenes of cultural contact By the end of the century Richardson concludes the hybrid Indian Briton emerging in literature and visual culture exemplifies a form of modern British masculinity
