An Unspoken Hunger Terry Tempest Williams, 1995-08-29 The acclaimed author of Refuge here weaves together a resonant and often rhapsodic manifesto on behalf of the landscapes she loves combining the power of her observations in the field with her personal experience as a woman a Mormon and a Westerner Through the grace of her stories we come to see how a lack of intimacy with the natural world has initiated a lack of intimacy with each other Williams shadows lions on the Serengeti and spots night herons in the Bronx She pays homage to the rogue spirits of Edward Abbey and Georgia O Keeffe contemplates the unfathomable wildness of bears and directs us to a politics of place The result is an utterly persuasive book one that has the power to change the way we live upon the earth

The Apocalypse Is Everywhere Anne Rehill, 2009-11-12 This wide ranging exploration of the apocalypse in Western culture seeks to understand how we have come to be so preoccupied with spectacular visions of our own annihilation offering abundant examples of the changing nature of our imagined destruction and predisposing readers to discover many more all around them The Apocalypse Is Everywhere A Popular History of America s Favorite Nightmare explores why apocalyptic thinking exists how it has been manifested in Western culture through the ages and how it has woven itself so thoroughly into our popular culture today Beginning with contemporary apocalyptic expressions the book demonstrates how surprisingly widespread they are It then discusses how we inherited them and where they arose Author Annie Rehill surveys the ancient belief systems from

which Christianity evolved including ancient Judaism and other faiths She explores the vision outlined in the Book of Revelation and traces the apocalyptic thread through the Middle Ages across the Reformation and Enlightenment and to the Americas Finally to prove that the Apocalypse is indeed everywhere Rehill returns to the present to consider the idea of apocalypse as it occurs in movies books comics and graphic novels games music and art as well as in televangelism and even presidential speeches Her fascinating scholarship will surely have readers looking about them with new eyes

The Epic History of the American West William Nester, 2025-10-30 The American West evokes powerful imagery warriors on horseback cowboys in saloons and pioneers in wagons heading westward It symbolizes freedom reinvention and the American Dream However this idealized image obscures the complex often violent history of the West which is as unjust as it is inspiring Historians debate the boundaries of the American West but it is clear that it is a dynamic concept both a place and an idea evolving over time For three centuries the frontier and western history overlapped until the frontier disappeared in 1890 Early narratives celebrated explorers settlers and entrepreneurs who developed the West portraying them as heroic figures However modern historians criticize this triumphant view highlighting the exploitation racism and ecological damage caused by Western expansion They focus on marginalized groups racial minorities women and workers while critiquing the often overlooked injustices faced by Indigenous peoples and others This revisionist perspective emphasizes the darker aspects of Western history challenging previous glorifications of development and heroism The Epic History of the American West bridges traditional and revisionist views exploring the region's complex legacy from violent struggles to ongoing cultural and ideological conflicts It reflects the West's enduring significance blending history and mythology to reveal its multifaceted nature

American Women Conservationists Madelyn Holmes, 2004-04-20 This collection of biographies describes twelve women conservationists who helped change the ways Americans interact with the natural environment Their writings led Americans to think differently about their land deserts are not wastelands swamps have value and harmful insects don't have to be controlled chemically

These women not only wrote on behalf of conservation of the American landscape but also described strategies for living exemplary environmentally sound lives during the past century. From a bird lover to a back to the land activist, these women gave early warning of the detrimental effects of neglecting conservation. The main part of this work covers six historical figures who pioneered in their thinking and writing about the environment: Mary Austin, Florence Merriam Bailey, Rosalie Edge, Marjory Stoneman Douglas, Helen Nearing, and Rachel Carson. A later chapter gives portraits of six post-World War II conservationists: Faith McNulty, Ann Zwinger, Sue Hubbell, Anne LaBastille, Mollie Beattie, and Terry Tempest Williams. The work covers a broad range of conservationist concerns, including preservation of deserts and old growth forests, wildlife protection, wetlands maintenance, self-sufficient sustainable ways of producing food, and pollution control. A conclusion examines where conservationists have picked up after Rachel Carson's *Silent Spring* (1962) and gives conservation ideas for our time. An appendix lists the published writings of the twelve conservationists.

Toward a Literary Ecology Karen E. Waldron, Rob Friedman, 2013-07-29. Scholarship of literature and the environment demonstrates myriad understandings of nature and culture. While some work in the field results in approaches that belong in the realm of cultural studies, other scholars have expanded the boundaries of ecocriticism to connect the practice more explicitly to disciplines such as the biological sciences, human geography, or philosophy. Even so, the field of ecocriticism has yet to clearly articulate its interdisciplinary and transdisciplinary nature. In *Toward a Literary Ecology: Places and Spaces in American Literature*, editors Karen E. Waldron and Robert Friedman have assembled a collection of essays that study the interconnections between literature and the environment to theorize literary ecology. The disciplinary perspectives in these essays allow readers to comprehend places and environments and to represent, express, or strive for that comprehension through literature. Contributors to this volume explore the works of several authors, including Gary Snyder, Karen Tei Yamashita, Rachel Carson, Terry Tempest Williams, Chip Ward, and Mary Oliver. Other essays discuss such topics as urban fiction as a model of literary ecology, the geographies of belonging in the work of Native American poets, and the literary ecology of place in new nature writing. Investigating texts for the complex interconnections they represent, *Toward a Literary Ecology* suggests what such texts might teach us about the interconnections of our own world. This volume also offers a means of analyzing representations of people in places within the realm of an historical, cultural, and geographically bounded yet diverse American literature. Intended for students of literature and ecology, this collection will also appeal to scholars of geography, cultural studies, philosophy, biology, history, anthropology, and other related disciplines.

The Oxford Encyclopedia of American Literature Jay Parini, 2004. The *Encyclopedia of American Literature* gathers together 350 essays from over 190 leading scholars on the whole of American literature from European discovery to the present. At the core of the *Encyclopedia* lie 250 essays on poets, playwrights, essayists, and novelists. Figures such as Whitman, Melville, Faulkner, Frost, and Morrison are discussed in detail, with each examined in the context of his or her times, an assessment of the writer's current reputation.
