uncontrollable wanderings The reception of the meaning of the formal systems thoughtful poses and attitudes involves to be sure the active presence of the spectator in a sort of visual dialogue with the portrait that is not considered exclusively as a fixed commemorative system but rather as an interactive structure In the perspective of the reception the observer becomes a fundamental element for the construction of the meaning of the image that from this very private perspective undergoes obvious momentous transformations Observer and image thus become integral parts of a fascinating system of visual exchange not unlike the mechanisms of verbal dialogue both members of the pair take on contemporaneously the dual role of subject object restructuring the complex relational web established in a rapport between an I and a you Beyond the temporal contingencies each portrait is recounted and seduces us through the universal language of fame this incarnates deeply the artist s attempt to describe the personality of the subjects portrayed consigning the multiform essence of their nature to one attitude or to a single expression by resorting to a refined psychological introspection in an attempt to render visually the subject s inner world It is owing to the above considerations that while I applaud the felicitous initiative of giving life to such a culturally transcendent exhibition I would wish that all those who will have the pleasure of visiting it or at least of perusing the pages of this catalogue will be able to perceive the portraits of the individual popes not as so many freestanding elements but rather as integrated parts of a related set of men who albeit struggling with the many and varied anxieties of everyday life endeavored to serve Christ among their brothers each one with a clear perception of himself as servo servorum Dei the servant of God s servants Through looks attitudes and symbols committed by the artist in a well constructed iconographic code to the pictorial or sculptural page the discerning observer cannot help but grasp a veiled spiritual harmony that reflects the profound mystery of faith and propagates an echo of the ineffable beauty of God revealing how through art man pulled between the eternal and the transient strives to draw close to his Creator Francesco Cardinal Marchisano Vicar General of the Pope for the State of Vatican City
