Romaines Crimean War:

Romaine's Crimean War William Govett Romaine, 2005 The Crimean War 1854-56 between the United Kingdom, France and the Ottoman Empire on the one hand and Russia on the other has become notorious for the poor administration and bad generalship suffered by the British forces. Four fifths of their deaths were due not to enemy action but to sickness and disease. Contemporary accounts have often

The Railway that Helped Win the Crimean War Anthony Dawson, 2022-09-15 Week after week the guns of the British expeditionary force battered away at the defences of Sevastopol, eight miles away from Balaklava, the port through which all besiegers' supplies arrived. As autumn turned to winter, rain and frost turned the track from Balaklava into a muddy quagmire and soon it became virtually impassable. Horses were dying daily in their endeavours to pull carts up the hills to the siege lines and with few supplies reaching the front, the troops suffered terribly from malnutrition and frostbite. Unless a solution could be found, the entire operation was doomed to humiliating, disastrous failure. When news of the terrible plight of the troops reached the UK, a leading railway contractor and his partners undertook to build a railway at cost from Balaklava to the front line and promised that they could construct it in just three weeks after they arrived in the Crimea. Though it took almost seven weeks to complete the railway in that time, a double track which rose 500 feet from the port and travelled for seven miles to the siege lines had been laid. With food, clothing and ammunition at last able to reach the front, the British along with their French allies were able to capture Sevastopol and bring the Crimean War to an end. In this comprehensive and detailed account of the construction and use of what became known as the Grand Crimean Central Railway, the author describes the astonishing achievement in building the first railway ever employed in warfare and the first to be used for casualty evacuation thousands of miles from the UK.

The Crimean War Professor Andrew Lambert, 2013-07-28 In contrast to every other book about the conflict, Andrew Lambert's ground-breaking study *The Crimean War: British Grand Strategy against Russia, 1853-1856* is neither an operational history of the armies in the Crimea nor a study of the diplomacy of the conflict. The core concern is with grand strategy: the development and implementation of national policy and strategy. The key concepts are strategic, derived from the works of Carl von Clausewitz and Sir Julian Corbett, and the main focus is on naval, not military, operations. This original approach rejected the 'Continentalist' orthodoxy that dominated contemporary writing about the history of war, reflecting an era when British security policy was dominated by the Inner German Frontier, the British Army of the Rhine and Air Force Germany. Originally published in 1990, the book appeared just as the Cold War ended; the strategic landscape for Britain began shifting away from the continent and new commitments were emerging that heralded a return to maritime strategy, as adumbrated in the defence policy papers of the 1990s. With a new introduction that contextualises the 1990 text and situates it in the developing historiography of the Crimean War, the new edition makes this essential book available to a new generation of scholars.

A Victorian Dissenter David E. Seip, 2018-04-24 This book introduces the reader to Robert Govett 1813 1901 dissenting clergyman and author who wrote as a scholar of biblical prophecy primarily on the subject of the exclusion of believers in the Millennial Kingdom an idea of which he conceived The purpose of the book is threefold 1 to describe Govett his life and his printed work 2 to analyze Govett s eschatological beliefs especially those he originated and 3 to investigate why a respected theologian in England who had published over 180 books and tracts disappeared from dissenting print culture early in the twentieth century Govett s doctrine of exclusion was heavily intertwined with most of his writings It was a topic that he developed throughout his career Yet as the center of dispensationalism shifted to America Govett s views of the Rapture began to be seen as extreme The book explains why Govett was eclipsed as the center of the evangelical movement shifted and its theology ossified Since his death Govett has been occasionally remembered in scholarship but with increasing inaccuracies and skepticism This book seeks to remove the mystery
