## **Roman Law In Context:**

*Roman Law in Context* David Johnston, 1999-09-28 *Roman Law in Context* explains how Roman law worked for those who lived by it by viewing it in the light of the society and economy in which it operated. The book discusses three main areas of Roman law and life: the family and inheritance, property and the use of land, commercial transactions and the management of businesses. It also deals with the question of litigation and how readily the Roman citizen could assert his or her legal rights in practice. In addition, it provides an introduction to using the main sources of Roman law. The book ends with an epilogue discussing the role of Roman law in medieval and modern Europe, a bibliographical essay and a glossary of legal terms. The book involves the minimum of legal technicality and is intended to be accessible to students and teachers of Roman history as well as interested general readers.

*The Cambridge Companion to Roman Law* David Johnston, 2015-02-16 This book reflects the wide range of current scholarship on Roman law. The essays newly commissioned for this volume cover the sources of evidence for classical Roman law, the elements of private law as well as criminal and public law and the second life of Roman law in Byzantium in civil and canon law and in political discourse from AD 1100 to the present. Roman law nowadays is studied in many different ways which is reflected in the diversity of approaches in the essays. Some focus on how the law evolved in ancient Rome, others on its place in the daily life of the Roman citizen, still others on how Roman legal concepts and doctrines have been deployed through the ages. All of them are responses to one and the same thing: the sheer intellectual vitality of Roman law which has secured its place as a central element in the intellectual tradition and history of the West.

*The Historical and Institutional Context of Roman Law* George Mousourakis, 2017-03-02 Roman law forms an important part of the intellectual background of many legal systems currently in force in continental Europe, Latin America and other parts of the world. This book traces the historical development of Roman law from the earliest period of Roman history up to and including Justinian's codification in the sixth century AD. It examines the nature of the sources of law, forms of legal procedure, the mechanisms by which legal judgments were put into effect, the development of legal science and the role of the jurists in shaping the law. The final chapter of the book outlines the history of Roman law during the Middle Ages and discusses the way in which Roman law furnished the basis of the civil law.

systems of continental Europe The book combines the perspectives of legal history with those of social political and economic history Special attention is given to the political development of the Roman society and to the historical events and socio economic factors that influenced the growth and progress of the law Designed to provide a general introduction to the history of Roman law this book will appeal to law students whose course of studies includes Roman law legal history and comparative law It will also prove of value to students and scholars interested in ancient history and classics **The Oxford Handbook of Roman Law and Society** Paul J. du Plessis, Clifford Ando, Kaius Tuori, 2016 The Handbook is intended to survey the landscape of contemporary research and chart principal directions of future inquiry Its aim is to bring to bear upon Roman legal study the full range of intellectual resources of contemporary legal history from comparison to popular constitutionalism from international private law to law and society This unique contribution of the volume sets it apart from others in the field Furthermore the volume brings the study of Roman law into closer alignment and thus into dialogue with historical sociological and anthropological research in law in other periods The volume is therefore directed not simply to ancient historians and legal historians already focused on the ancient world but to historians of all periods interested in law and its complex and multifaceted relationship to society **Borkowski's Textbook on Roman Law** Paul J. du Plessis, 2015 This volume provides students with an exposition of Roman civil law and procedures setting the law in context of the history of Rome and keeping the use of Latin phrases to a minimum The text uses numerous quotations from Justinian's Digest and Institutes Literature and the Law of Nations, 1580-1680 Christopher N. Warren, 2015-05-28 Literature and the Law of Nations 1580 1680 is a literary history of international law in the age of Shakespeare Milton Grotius and Hobbes Seeking to revise the ways scholars understand early modern English literature in relation to the history of international law it argues that scholars of law and literature have tacitly accepted specious but politically consequential assumptions about whether international law is real law Literature and the Law of Nations shows how major writers of the English Renaissance deployed genres like epic tragedy comedy tragicomedy and history to solidify the canonical subjects and objects of modern international law By demonstrating how Renaissance literary genres informed modern categories like public international law private international law international legal personality and human rights the book over its seven chapters and conclusion helps early modern literary scholars think anew about the legal entailments of genre and scholars in law and literature long accustomed to treating all law with a single broad brush better confront the distinct complexities fault lines and variegated histories at the heart of international law The Historical Context of Roman Law Michael A. Lambiris, 1997-01-01 Provides an introduction to an understanding of the historical events which shaped Roman law giving an accessible account of major events social economic and political institutions and the customs practices and beliefs of the various periods of Roman history and the manner in which Romans created and enforced law **Textbook on Roman Law** J. **Anthropology of Law** David A. Kaden, 2016-09-30 Drawing from Michel Foucault's understanding of power David A. Kaden explores how relations of power are instrumental in forming law as an object of discourse in the Gospel of Matthew and in the Letters of Paul This is a comparative project in that the author examines the role that power relations play in generating discussions of law in the first century context and in several ethnographies from the field of the anthropology of law from Indonesia Mexico the Philippines and colonial era Hawaii Discussions of law proliferate in situations where the relations of power within social groups come into contact with social forces outside the group David A. Kaden's interdisciplinary approach reframes how law is studied in Christian Origins scholarship especially Pauline and Matthean scholarship by focusing on what makes discourses on law possible For this he relies heavily on cross cultural ethnographic materials from legal anthropology **The Unheard Voice of Law in Bartolomé de Las Casas's Brevísima Relación de la Destrucción de las Indias** David T. Orique, 2021-04-13

**From Mesopotamia to the Mishnah** Jonathan S. Milgram, 2016-06-20 In this study Jonathan S Milgram demonstrates that the transformation of inheritance law from the biblical to the tannaitic period is best explained against the backdrop of the legal and social contexts in which the tannaitic laws were formulated Employing text and source critical methods he argues that in the absence of the hermeneutic underpinnings for tannaitic innovations the laws were not the result of the rabbinic imagination and its penchant for inventive interpretation of Scripture Turning to the rich repositories in biblical ancient near eastern Second Temple Greek Elephantine Judean desert and Roman sources the author searches for conceptual parallels and antecedents as well as formulae and terminology adopted and adapted by the tannaim Since the tannaitic traditions reflect the social and economic
