Richard Evans, 2017-02-10 This volume has its origin in the 14th University of South Africa Classics Colloquium in which the topic and title of the event were inspired by Josiah Ober's seminal work *Mass and Elite in Democratic Athens* 1989 Indeed the influence this work has had on later research in all aspects of the Greek and Roman world is reflected by the diversity of the papers collected here which take their cue and starting point from the argument that in Ober's words 1989 338

Rhetorical communication between masses and elites was a primary means by which the strategic ends of social stability and political order were achieved However the contributors to the volume have also sought to build further on such conclusions and to offer new perceptions about a spread of issues affecting mass and elite interaction in a far wider number of locations around the ancient Mediterranean over a much longer chronological span Thus the conclusions here suggest that once the concept of mass and elite was established in the minds of Greeks and later Romans it became a universal component of political life and from there was easily transferred to economic activity or religion In casting the net beyond the confines of Athens although the city is also represented here to amongst others Syracuse the cities of Asia Minor Pompeii and Rome and to literary and philosophical discourse in each instance that interplay between the wider body of the community and the hierarchically privileged can be shown to have governed and directed the thoughts and actions of the participants
