Leading the Roman Army Jonathan Eaton, 2020-07-30 A historian and archeological scholar examines the complex relationship between Roman emperors and their armies For the emperors of Ancient Rome effective political management of the army was vital to the overall stability of the empire In Leading the Roman Army historian Jonathan Mark Eaton examines how emperors endeavored to control the military from the battle of Actium in 31 BC to the demise of the Severan dynasty in AD 235 This study draws on the latest evidence from archaeological epigraphic literary and numismatic sources on the relationship between the emperor and his soldiers It demonstrates that the emperor was not only the army's commander in chief but also their patron and benefactor even after their discharge from military service With forces dispersed along the frontiers of the empire the emperor needed a strong military hierarchy to impose discipline He also needed to ensure the loyalty of his officers by building mutually beneficial relationships with them To this end the imperial army became a complex network of loyalty ties which protected the emperor from military subversion **Caesar's Army** Harry Pratt Judson, 2011-06 Caesar's Army in peace and war Students of military history have long been fascinated by the history armies and great commanders of ancient Rome for within its organisation strategy tactics weapons campaigns and wars are to be found the origins of each of the military disciplines demonstrated by often sophisticated methods and practices developed millennia in the past and yet still able to provide valuable lessons to strategists and tacticians in the modern world Rome had a long history and in keeping with all empires marched a Hard road to its zenith before commencing an equally long decline We

context of their regal antecedents down to the time of its most famous leader Julius Caesar The transition from clan based forces through the Servian levy and the development of the manipular and cohortal legion is examined along with the associated weapons tactics and operational capabilities We see how the legions shaped up against the challenges of successive enemies from the Celts and Samnites the Carthaginians and the hitherto dominant Hellenistic armies based on the Macedonian style pike phalanx

Roman Standards & Standard-Bearers (1) Raffaele D'Amato, 2018-01-25 Roman unit standards played a important role both ceremonially and on the battlefield With the armies of the late Roman Republic and early Empire continually engaged on the frontiers the soldiers selected for the dangerous honour of carrying them were figures of particular renown and splendour Standard bearers wore special armour with the heads and pelts of animals such as bears wolves or even lions draped over their helmets and shoulders The standards themselves varied greatly from the legion's Eagle and imperial portrait image to various cohort signa flags vexilla and even dragon windsocks dracones copied from barbarian enemies and allies This first volume of a two part series by Roman army expert Raffaele D Amato uses detailed colour plates and the latest research to examine these vital cogs in the Roman army machine that drove its soldiers to conquer the known world
