intellectual traditions and social practices underlining how Russia's vast geographical dimensions have profoundly informed Russia's state and nation building both in practice and concept Combining concepts of space and empire the collection offers a reconsideration of Soviet imperial legacy by studying its cultural and societal underpinnings from previously unexplored perspectives In so doing it provides a reconceptualization of the theoretical and methodological foundations of contemporary imperial and spatial studies through the example of the experience provided by Soviet society and culture

**Political Grammars** Davide Tarizzo, 2021-04-06 Do we need to be a people *populus* in order to embrace democracy and live together in peace If so what is a *populus* Is it by definition a nation What exactly do we mean by nationality In this book Davide Tarizzo takes up the problem of modern democratic liberal peoples how to define them how to explain their invariance over time and how to differentiate one people from another Specifically Tarizzo proposes that Jacques Lacan's

theory of the subject enables us to clearly distinguish between the notion of personal identity and the notion of subjectivity and that this very distinction is critical to understanding the nature of nations whose sense of nationhood does not rest on any self evident identity or pre existent cultural or ethnic homogeneity between individuals

Developing an argument about the birth and rise of modern peoples that draws on the American Declaration of Independence of 1776 and the French Declaration of the Rights of Man and the Citizen of 1789 as examples Tarizzo introduces the concept of political grammar a phrase that denotes the conditions of political subjectification that enable the enunciation of an emergent we Democracy Tarizzo argues flourishes when the opening between subjectivity and identity is maintained And in fact as he compellingly demonstrates depending on the political grammar at work democracy can be productively perceived as a process of never ending recovery from a lack of clear national identity
