

[Roman Political Institutions]

- Greek political institutions found their way into Rome...the Republic was based on aristocratic rule and citizenship of the people...all citizens had a say in government but in the end were not the overall leaders
- Republican Rome had a Senate of aristocrats and two consuls who held the executive powers...in times of crisis, the Senate had the power to choose a dictator...Patricians and Plebians!
- Early Rome created the 12 Tables, a system of laws that prevented abuse of power amongst the classes...laws were always considered adaptable
- The Empire was a different beast...although the Senate remained in a meaningless state...emperors retained the confidence of the people through "bread and circuses"...it maintained local autonomy under the rule of Roman governors during its existence...rebel and the Roman military was sent to quell you!
- Rome was generally tolerant of other cultures and beliefs and religions...though they had a problem with Christians during the empire, it was only because the Christians would not put matters of the state of their God
