The Steeples of Old New England Kirk Shivel,1998 The church steeple was one of the first art forms to be cultivated in this new land becoming one of early Americas principal artistic achievements The backstory of this distinctive art form is a fascinating one The Yankees a homogenous group emerged in New England in the early 18th century Their artistic abilities in design are also prevalent in silverwork and furniture craft however it was in their steeples that they excelled and in which they were best expressed In *The Steeples of Old New England* Kirk Shivel traces both the history of these steeples and the Yankee society that built them including many examples and anecdotes covering the period between 1701 through 1860 This book provides a wealth of information students of history architecture and religion or anyone else interested in reading about or visiting these historical landmarks These magnificent edifices rose up everywhere on the newly settled New England landscape the earliest built only a half century before the American Revolution and the last built right before the Civil War There are over 115 exquisitely beautiful illustrations some full color and others taken from documents of the period A comprehensive directory and bibliography are also included *Old New England Churches and Their Children* Dolores Bacon,1906 *The Romance of Old New England Churches* Crawford Mary Caroline 1874-1932,HardPress,2013-06 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be

certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy **The American Catalogue** ,1905 **Who's who in New England** ,1909 The Annual American Catalog, 1900-1909 ,1904

Protestant Worship and Church Architecture James F. White,2003-02-28 Each year a billion dollars is spent on church buildings in the United States Yet there is no authoritative book available to guide building committees ministers and others responsible for new churches in the theological implications of their work Dr White explores the theological and historical considerations relevant to building for Protestant worship Surprisingly these are often ignored by building committees usually with disastrous results His approach is highly original especially in his theological treatment of worship yet his book is also a operative in the largest sense in that it relates theology to practice Professor White begins with a critical analysis of contemporary concepts of Protestant worship and then defines the liturgical factors in church design Following this there are four chapters giving an historical account of various experiments from the third century to the present This section indicates the tremendous variety of possibilities open to the church builder many of which have been ignored too long A final chapter deals with emotive factors all vitally relevant to the architect choir liturgical art and style The opportunity to design a new church building occurs only once or twice in each generation of church members It is all the more important that it be done carefully since the building will continue to affect the life of the congregation for many years Until fundamental questions as to what the Church is and what the Church does in worship are raised a congregation is not prepared to build This book will help churches find the answers The 155 item bibliography should be of value to many since a recent extensive bibliography on Protestant church architecture does not exist This book also contains 60 diagrams of experiments in plan garnered from nearly 2000 years of history *Who's who in America* ,1924 **The Church Eclectic** ,1903 **Woman's Who's who of America** John W. Leonard,1914 **Annual List of New and Important Books Added to the Public Library of the City of Boston** ,1904 Illustrated Catalogue of Books, Standard and Holiday McClurg, Firm, Booksellers, Chicago,1902 Class List Tufts Library,1900 The Atlantic Monthly ,1904 *Theodosia, the First Gentlewoman of Her Time* Charles Felton Pidgin,1907
