*Romanian Grammar* Christiana Hoffman,1991 Learn to speak and write Romanian in 30 days , **Re-Configuring Romanian Culture on its Way Towards Modernity** Alexandra Chiriac,2022-09-26 As a direct result of an international conference organized in the year 2021 the volume tries to shed light on the way in which the translation activity contributed to the Romanian culture and language drawing from different traditions and cultures it came in contact with directly or indirectly and thus mingling the own Slavonic church tradition with the new and revolutionary ideas of the Western world and using this mix to modernise the society language and the politics in this region Furthermore this eclectic collection of articles highlights the fact that it was neither the exclusive merit of the Transylvanian scholars nor of the Moldavian or Wallachian ones to have contributed decisively to the formation of the national consciousness and to the standardisation of the language but it was rather the collaboration the circulation of people and ideas that furthered the modernity in all three Romanian Principalities Without disregarding the regional specificity of the Romanian Enlightenment the volume focuses on the interconnections of the agents involved in the cultural transfer on the networks they created for the dissemination of knowledge and political thought and on the common effort to render the new ideas and concepts of the foreign cultures in a

national language that could be accessible to the Romanians

### **The Diachrony of Differential Object Marking in**

**Romanian** Virginia Hill,Alexandru Mardale,2021-06-15 This book provides a comprehensive investigation of the origins development and stabilization of differential object marking DOM in Romanian DOM a means by which a grammar distinguishes between objects based on semantic features such as animacy or definiteness has been a fruitful area of research in syntax historical linguistics and typology In this volume Virginia Hill and Alexandru Mardale demonstrate that Romanian DOM reflects a typological mix of Balkan and Romance patterns and is in fact composed of three distinct mechanisms Their analysis of these mechanisms reveals that DOM triggers in Romanian are located in the nominal domain in contrast to languages such as Spanish where they are located in the verbal domain The cross linguistic perspective adopted in the volume sheds light on existing typologies of DOM particularly in relation to the variation observed in the merging location of the DOM particle and of the doubling pronominal clitic Romanian Primer Pasquale De Marco,2025-03-08

**Word Order and Parameter Change in Romanian** Alexandru Nicolae, 2019-06-06 The book provides a comprehensive description and in depth analysis of the major word order changes that took place in the clausal and the nominal domains in the transition from old to modern Romanian The data are set in a comparative Romance perspective with attention also paid to the impact of the Balkan Sprachbund and the influence of Old Church Slavonic Alexandru Nicolae s analysis is based on a qualitative and quantitative examination of a large number of phenomena in a representative corpus of old Romanian texts Some of these phenomena such as scrambling interpolation discontinuous constituents and variation in the position and linearization of DP internal adjectival modifiers are found across Romance while others such as the low position for pronominal cliticization are relatively rare Still others are specific to old and modern Romanian such as the proclitic and enclitic realization of the same pronominal clitic the low definite article and the adjectival article construction From an empirical perspective the volume fills a gap in the Romance linguistics literature as several of the phenomena it explores have been largely neglected to date More broadly it offers a valuable contribution to research into word order typology and change the nature and content of syntactic parameters and the theory of grammaticalization and syntactic change
