Comintern Aesthetics Amelia Glaser, Steven S. Lee, 2020-02-24 Founded by Vladimir Lenin in 1919 to instigate a world revolution the Comintern sought to advance not only the proletarian struggle but also a wide variety of radical causes including fighting against imperialism and racism in settings as varied as Ireland India the United States and China Notoriously and from the organization's outset these causes grew ever more subservient to Soviet state interest and Stalinist centralization Comintern Aesthetics shows how the cultural and political networks emerging from the Comintern have persisted even after the Comintern's demise in 1943 Tracing these networks through a multiplicity of artistic forms geared towards advancing a common liberated humanity this volume captures both the failure and the enduring allure of a Soviet centred world revolution The sixteen chapters in this edited volume examine cultural and revolutionary circuits that once connected Moscow to China Southeast Asia India the Near East Eastern Europe Germany Spain and the Americas The Soviet Union of the interwar years provided a template for the convergence of party politics and cultural history but the volume traces how this template was adapted and reworked around the world By emphasizing the shared Soviet routes of these far flung circuits Comintern Aesthetics recaptures a long lost moment in which cultures could not only transform perception but also highlight alternatives to capitalism namely an anti colonial world imaginary foregrounding race class and gender equality

The Oxford Guide to Literature in English Translation Peter France, 2000 Translation has been a crucial process in world culture over the past two millennia and more In the English speaking cultures many of the most important texts are translations from Homer to Beckett the Bible to Freud Although recent years have seen a boom in translation studies there has been no comprehensive yet convenient guide to this essential element of literature in English Written by eminent scholars from many countries the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature It highlights the place of translation in our culture encouraging awareness of the issues raised making the translator more visible Concentrating on major writers and works it covers translations out of many languages from Greek to Korean from Swahili to Russian For some works e.g. Virgil's Aeneid which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available The Guide is divided into two parts Part I contains substantial essays on theoretical questions a pioneering outline of the history of translation into English and discussions of the problems raised by specific types of text e.g. poetry oral literature The second much longer part consists of entries

grouped by language of origin some are devoted to individual texts e g the Thousand and One Nights or writers e g Ibsen Proust but the majority offer a critical overview of a genre e g Chinese poetry Spanish Golden Age drama or of a national literature e g Hungarian Scottish Gaelic There is a selective bibliography for each entry and an index of authors and translators

The Korean War in Turkish Culture and Society Nadav Solomonovich, 2021-10-15 This book explores the important role that the Korean War played in Turkish culture and society in the 1950s Despite the fact that fewer than 15 000 Turkish soldiers served in Korea this study shows that the Turkish public was exposed to the war in an unprecedented manner considering the relatively small size of the country s military contribution It examines how the Turkish people understood the war and its causes how propaganda was used to sell the war to the public and the impact of these messages on the Turkish public Drawing on literary and visual sources including archival documents newspapers protocols of parliamentary sessions books poems plays memoirs cartoons and films the book shows how the propaganda employed by the state and other influential civic groups in Turkey aimed to shape public opinion regarding the Korean War It explores why this mattered to Turkish politicians viewing this as instrumental in achieving the country s admission to NATO and why it mattered to Turkish people more widely seeing instead a war in the name of universal ideas of freedom humanity and justice and comparing the Turkish case to other states that participated in the war

Contested Spaces in

Contemporary Turkey Fatma Müge Göçek, 2017-06-30 The most significant political development of the post Cold War era was arguably the diffusion of neoliberalism across the globe Yet behind the illusion of abundance and development the rule of

the market can be violent and destructive exploiting the environment dismissing cultural or historical conservation and ignoring individual rights This book now examines the emergence and consequences of neoliberalism in Turkey Of particular importance to the study are the contested spaces those sites of struggle and protest where the impact of this economic system is challenged or negotiated The contributors look beyond the neoliberal cities of the West Istanbul and Ankara to take into account the rest of the country and the groups that are most negatively affected such as the Kurds women and migrants Chapters consider the complexity of neoliberalism in Turkey where the power of the market the agenda of the state and significantly the country's past are shown to have shaped current economic practices and policies Contested Spaces in Contemporary Turkey sheds new light on the societal processes that are re shaping modern Turkey a subject which is of increasing importance considering Erdogan's new model for an Islam based state and in the aftermath of the July 2016 military coup attempt It is at the cutting edge of research on urban history and social space and will be a significant resource for scholars of Turkish Studies and Kurdish Studies

Turkey, from Empire to Revolutionary Republic Sina Akşin, 2007-02 Traces the roots of the Turkish Republic to the Ottoman Empire

Turkey and the Soviet Union During World War II Onur İsci, 2019-11-28 Based on newly accessible Turkish archival documents Onur İsci's study details the deterioration of diplomatic relations between Turkey and the Soviet Union during World War II Turkish Russian relations have a long history of conflict Under Atatürk relations improved he was a master balancer of the great powers During the Second World War however relations between Turkey and the Soviet Union plunged to several degrees below zero as Ottoman era Russophobia began to take hold in Turkish elite circles For the Russians hostility was based on long term apathy stemming from the enormous German investment in the Ottoman Empire for the Turks on the fear of Russian territorial ambitions This book offers a new interpretation of how Russian foreign policy drove Turkey into a peculiar neutrality in the Second World War and eventually into NATO Onur İsci argues that this was a great reversal of Atatürk era policies and that it was the burden of history not realpolitik that caused the move to the west during the Second World War

Historical Dictionary of Turkey Metin Heper, Nur Bilge Criss, 2009-01-21 Turkey is both an old and a new country While the Turks have been living in Anatolia for the last millennium the country has gone through extensive Westernization since the end of the 18th century However in the case of Turkey tradition has not arrested modernization rather the traditional has adapted itself to the modern The revival of Islam and the emergence of certain ethnic identities during the recent decades have not led to the reversal of progress in the economy and democracy There is a thriving private sector and the economy continues to grow At the turn of the 21st century Turkey is the only Muslim country with a democratic political system Although Turkey belongs to both the West and the East its Western credentials are more marked It is a member of the Council of Europe North Atlantic Treaty Organization NATO and Organization for Economic Cooperation and Development OECD and it is presently carrying out negotiations with the European Union EU for accession to that Union as a full member The third
