Rix, Anna Lena Sandberg, 2014-01-17 The articles in this second issue of *Romantik Journal for the Study of Romanticisms* demonstrate the crucial role of emergent regionalism and nationalism within the Romantic movement However the contributors also explore how the transmission of ideas and

inspiration took place across national as well as linguistic boundaries and how knowledge was transferred from one domain of knowledge to another The articles provide a new map of such cultural exchanges in the Romantic era and the multiplicity of agencies that made them possible

Romantik continues to locate the plurality of European Romanticisms within a comprehensive and multilingual context

Family Romance John Lanchester, 2008-01-29 The author of *The Debt to Pleasure* digs into his family's extraordinary past in a memoir as enthralling as his finest fiction It was only when his mother died that John Lanchester realized how little he really knew about his parents With the cache of letters and papers she left behind he set out to reconstruct just who his parents had been In doing so he did much more than trace the remarkable story of a reluctant international banker a secretive former nun and the life they shared he also gained extraordinary insight into his own nature and a deeper understanding of the universal push pull of family love and family loss Part detective work part evocation of character this is above all compelling storytelling

Medieval Romance and Material Culture

Nicholas Perkins, 2015 Studies of how the physical manifests itself in medieval romance and medieval romances as objects themselves Medieval romance narratives glitter with the material objects that were valued and exchanged in late medieval society lovers rings and warriors swords holy relics and desirable or corrupted bodies Romance however is also a genre in which such objects make meaning on numerous levels and not always in predictable ways These new essays examine from diverse perspectives how romances respond to material culture but also show how romance as a genre helps to constitute and transmit that culture Focusing on romances circulating in Britain and Ireland between the twelfth and sixteenth

centuries individual chapters address such questions as the relationship between objects and protagonists in romance narrative the materiality of male and female bodies the interaction between visual and verbal representations of romance poetic form and manuscript textuality and how a nineteenth century edition of medieval romances provoked artists to

Radulescu Robert Allen Rouse **In Search of Ireland** Brian Graham, 2002-11-01 In Search of Ireland argues that Ireland's political problems are created by conflicts and confusions of identity It brings together a number of distinguished contributors each of whom examines a particular aspect of Ireland's diverse cultural geography and history Issues covered

include the changing definitions of Irishness the roles of class and gender in constructing traditional alignments of identity the role of ethnicity in Irish society the invention and imagining of Irish place the political implications of a pluralistic Ireland The contributors demonstrate that many people both inside and outside of Ireland continue to define themselves and their

conflicts through simple sectarian stereotypes The authors argue that politicians and others must reject these outdated either/or representations and accommodate instead the fluidity of Irish identity James Anderson University of Newcastle Upon Tyne S J Connolly Queen's University Belfast Neville Douglas Queen's University Belfast Brian Graham University of Ulster
