The Development of Russian Evangelical Spirituality Gregory L. Nichols, 2011-11-09 Today many evangelicals in the Russian speaking world emphasize sanctification as a distinctive mark of their Christian faith This is a unique characteristic particularly in the European context Their historic tapestry has been woven from a number of threads that originated in the second half of the nineteenth century Missionary efforts of the German Baptists a revival sparked by a British evangelist and a pietistic awakening among the Mennonites in the South converged to form a tapestry that displays Protestant Baptist and Anabaptist heritage Ivan Kargel uniquely participated in the formation and ministry of each of these threads His life spans from Tsarist Russia to the Soviet Union Kargel refused to adhere to a systematic view of theology Instead he urged believers to go to Scripture and draw from the riches of a life united with Christ Kargel's influence today is keenly felt across the Russian speaking evangelical world as they seek to identify the roots of their spiritual identity This book examines the influences on Ivan Kargel and offers insights into how his life and work are expressed in the tapestry of Russian evangelical spirituality

The Acoustic Self in English Modernism and Beyond Zoltan Varga, 2022-02-17 Drawing on the analogy between musical meaning making and human subjectivity this book develops the concept of the acoustic self exploring the ways in which musical characterization and structure are related to issues of subject representation in the modernist English novel The volume is framed around three musical topics the fugue absolute music and Gesamtkunstwerk arguing that these three modes of musicalization address modernist dilemmas around selfhood and identity Varga reflects on the manifestations of the acoustic self in examples from the works of E M Forster Aldous Huxley and Virginia Woolf and such musicians as Bach

Beethoven Handel and Wagner An additional chapter on jazz and electronic music supplements these inquiries pursuing the acoustic self beyond modernism and thereby inciting further discussion and theorization of musical intermediality as well as recent sonic practices Probing the analogies in the complex interrelationship between music representation and language in fictional texts and the nature of human subjectivity this book will appeal to students and scholars interested in the interface of language and music in such areas as intermediality multimodality literary studies critical theory and modernist studies
