**The Figure of the Shaman in Contemporary British Poetry** Shamsad Mortuza, 2014-08-11 This genealogical study focuses on the work of five contemporary British poets in order to locate them in a counter cultural tradition that is informed by strategic responses to state terrorism. It identifies some historical moments of ruptures such as the persecution of the Celtic druids by the Romans, the killing of the Welsh bards by Edward I, the appropriation of bardic materials by Romantic poets writing in a post French Revolution era and the beatnik response to a post World War bipolar world in order to contextualise and discuss the poets of British Poetry Revival writing under Thatcherism. Drawing on Mircea Eliade's notion of shamanism as archaic techniques of ecstasy, these poets have transformed Eliade's version of the shaman's elective trauma and enacted a critical rejection of totalitarian tools of the state and society. Categorised as the Technicians of the Sacred and the Technicians of the Body, these shamanic poets include Iain Sinclair, Jeremy Prynne, Brian Catling, Barry MacSweeney and Maggie O'Sullivan. Their poetic strategy is not a New Age fad; it rather investigates and inventories the hidden energies of past and present to wrest spirituality away from the confines of religion and politics while embodying it in textual praxis.

Legacies of Romanticism Carmen Casaliggi, Paul March-Russell, 2013-03-05 This book visits the Romantic legacy that was central to the development of literature and culture from the 1830s onward. Although critical accounts have examined aspects of this long history of indebtedness, this is the first study to survey both Nineteenth and Twentieth century culture. The authors consider the changing notion of Romanticism, looking at the diversity of its writers, the applicability of the term and the ways in which Romanticism has been reconstituted. The chapters cover relevant historical periods and literary trends including the Romantic Gothic, the Victorian era and Modernism as part of a dialectical response to the Romantic legacy. Contributors also examine how Romanticism has been reconstituted within postmodern and postcolonial literature as both a reassessment of the Modernist critique and of the imperial contexts that have throughout this time frame underpinned the Romantic legacy, bringing into focus the contemporaneity of Romanticism and its political legacy. This collection reveals the diversity and continuing relevance of the genre in new and exciting ways, offering insights into writers such as Browning, Ruskin, Pater, Wilde, Lewis, MacNeice and Auster.

**An Introduction to Poetic Forms** Patrick Gill, 2022-12-29 An Introduction to Poetic Forms offers specimen discussions of poems through the lens of form While each of its chapters does provide a standard definition of the form in question in its opening paragraphs their main objective is to provide readings of specific examples to illustrate how individual poets have deviated from or subverted those expectations usually associated with the

form under discussion While providing the most vital information on the most widely taught forms of poetry then this collection will very quickly demonstrate that counting syllables and naming rhyme schemes is not the be all and end all of poetic form Instead each chapter will contain cross references to other literary forms and periods as well as make clear the importance of the respective form to the culture at large be it the democratising communicative power of the ballad or the objectifying male gaze of the blazon and resistance to same in the contreblazon the efficacy of form is explored in the fullness of its cultural dimensions In using standard definitions only as a starting point and instead focusing on lively debates around the cultural impact of poetic form the textbook helps students and instructors to see poetic forms not as a static and lifeless affair but as living breathing testament to the ongoing evolution of cultural debates In the final analysis the book is interested in showing the complexities and contradictions inherent in the very nature of literary form itself how each concrete example deviates from the standard template while at the same time employing it as a foil to generate meaning

Fictional Worlds and Philosophical Reflection Garry Hagberg,2022-01-31 This edited collection investigates the kinds of philosophical reflection we can undertake in the imaginative worlds of literature Opening with a look into the relations between philosophical thought and literary interpretation the volume proceeds through absorbing discussions of the ways we can see life through the lens of literature the relations between philosophical saying and literary showing and some ways we can see the literary past philosophically and assess its significance for the present Taken as a whole the volume shows how imagined contexts can be a source of knowledge a source of conceptual clarification and a source of insight and understanding And because philosophical thinking is undertaken after all in words a heightened sensitivity to the precise employments of our words particularly philosophically central words such as truth reality perception knowledge selfhood illusion understanding falsehood can bring a clarity and a refreshed sense of the life that our words take on in fully described contexts of usage And in these imagined contexts we can also see more acutely and deeply into the meaning of words about words metaphor and figurative tropes verbal coherence intelligibility implication sense and indeed the word meaning itself Moving from a philosophical issue into a literary world in which the central concepts of that issue are in play can thus enrich our comprehension of those concepts and in the strongest cases substantively change the way we see them With a combination of conceptual acuity and literary sensitivity this volume maps out some of the territory that philosophical reflection and literary engagement share
