Romanticism Reconsidered English Institute, 1968 **ROMANTICISM RECONSIDERED**, 1963 **Romanticism Reconsidered** Northrop Frye, 1963 **Romanticism Reconsidered** Northrop Frye, 1968 Romanticism and Anthony Trollope L. J. Swingle, 1990 Examines Trollope in terms of Romantic literary art Criticism of Society in the English Novel Between the Wars Hena Maes-Jelinek, 2013-05-22 The main concern of this study is the artist's vision of society its major theme is the relation between the individual and society resulting from the impact of social and political upheavals on individual life By criticism of society I mean the novelist's awareness of the social reality and of the individual's response to it the writers I deal with all proved alive to the changes that were taking place in English society between the two World Wars Though the social attitudes of the inter war years as well as the writers response to them were shaped by lasting and complex influences such as trends in philosophy and science the two Wars stand out as determining factors in the development of the novel the consequences of the First were explored by most writers in the Twenties whereas in the following decade the novelists felt compelled to voice the anxiety aroused by the threat of another conflict and to warn against its possible effects After the First World War many writers felt keenly the social disruption the old standards which were thought to have made this suicidal War possible were distrusted the code of behaviour and the moral values of the older generation were openly criticized for having led to bankruptcy Disparagement of authority increased the individual's sense of isolation his insecurity his disgust or fear Even the search for pleasure so widely satirized in the Twenties was the expression of a cynicism born of despair The ensuing disengagement of the individual from his environment became a major theme in the novel his isolation was at once a cause for resentment and the source of his fierce individualism Romanticism in National Context Roy Porter, Mikulas Teich, 1988-05-27 Special emphasis is placed on the interplay between Romantic culture and social political and economic change in this study of the course of Romanticism in various European countries

Romanticism and the Re-Invention of Modern Religion Alexander J. B. Hampton, 2019-01-17 The fundamental concern of Romanticism which brought about its inception determined its development and set its end was the need to create a new language for religion *Romanticism* Lilian R. Furst, 2017-07-06 First published in 1969 this work traces the evolution of Romanticism and in doing so demonstrates its novelty as an imaginative and emotional perception of the world in contrast to the rationalistic approach which was dominant in the seventeenth century It identifies the fundamental similarities between Romantic writing in England France and Germany as well as their differences brought about by divergent literary and social backgrounds The book is concluded by a review of the problems that arise from a simple definition of Romanticism

Romanticism Carmen Casaliggi, Porscha Fermanis, 2016-05-12 The Romantic period coincided with revolutionary transformations of traditional political and human rights discourses as well as witnessing rapid advances in technology and a primitivist return to nature As a broad global movement Romanticism strongly impacted on the literature and arts of the late

eighteenth and early nineteenth centuries in ways that are still being debated and negotiated today Examining the poetry fiction non fiction drama and the arts of the period this book considers Important propositions and landmark ideas in the Romantic period Key debates and critical approaches to Romantic studies New and revisionary approaches to Romantic literature and art The ways in which Romantic writing interacts with broader trends in history politics and aesthetics European and Global Romanticism The legacies of Romanticism in the twentieth and twenty first centuries Containing useful reader friendly features such as explanatory case studies chapter summaries and suggestions for further reading this clear and engaging book is an invaluable resource for anyone who intends to study and research the complexity and diversity of the Romantic period as well as the historical conditions which produced it *Skylark Meets Meadowlark* Thomas C. Gannon,2009-11-01 A Native rereading of both British Romanticism and mainstream Euro American ecocriticism this cross cultural transatlantic study of literary imaginings about birds sets the agenda for a more sophisticated and nuanced ecocriticism Lakota critic Thomas C Gannon explores how poets and nature writers in Britain and Native America have incorporated birds into their writings He discerns an evolution in humankind s representations and attitudes toward other species by examining the avian images and tropes in British Romantic and Native American literatures and by considering how such literary treatment succeeds from an ecological or animal rights perspective Such depictions Gannon argues reveal much about underlying cultural and historical relationships with the Other whether other species or other peoples He elucidates the changing interconnections between birds and humans in British Romanticism from Cowper to Clare with particular attention to Wordsworth Coleridge Shelley Byron and Keats Gannon then considers how birds are imagined by Native writers including early Lakota authors and contemporary poets such as Linda Hogan and Joy Harjo Ultimately he shows how the sensitive and far reaching connections with nature forged by Native American writers encourage a more holistic reimagining of humankind s relationship to other animals [English Fiction of the Romantic Period 1789-1830](#) Gary Kelly,2016-04-15 English Fiction of the Romantic Period 1789 1830 is the first comprehensive historical survey of fiction from that period for many decades It combines a clear awareness of the period s social history with recent developments in literary criticism theory and history and explains the astounding variety of forms in Romantic fiction in terms of the various cultural political social regional and gender conflicts of the time It provides a broad ranging survey from the major authors and works through to the sub genres of the period Jan Austin and Sir Walter Scott are discussed alongside the Gothic Romance political and feminist fiction social satire and regional rural and historical novels It also provides a comparison of the methods of distribution and marketing and the availability of books then and now examines cheap popular fiction and children s fiction and considers the recent debate about the place of prose fiction in a Romantic literature hitherto dominated by poetry [English Poetry of the Romantic Period 1789-1830](#) J.R. Watson,2014-03-18 On its first appearance English Poetry of the Romantic Period was widely praised as one of the best introductions to the subject This edition includes updated

material in the light of recent work in Romanticism and Romantic poetry The book discusses the concerns that linked the Romantic poets from their responses to the political and social upheavals around them to their interest in the poet's visionary and prophetic role It includes helpful and authoritative discussions of figures such as Blake Clare Coleridge Crabbe Keats Scott Shelley and Wordsworth *The Edinburgh Review in the Literary Culture of Romantic Britain* William Christie, 2016-06-16 From its first issue published on the 10th October 1802 Francis Jeffrey's Edinburgh Review established a strong reputation and exerted a powerful influence This is a literary study of the Edinburgh Review for over fifty years It contextualizes the periodical within the culture wars of the Romantic era *Evangelical Dictionary of Theology (Baker Reference Library)* Walter A. Elwell, 2001-05-01 Fifteen years after its original publication comes a thoroughly revised edition of the Evangelical Dictionary of Theology Every article from the original edition has been revisited With some articles being removed others revised and many new articles added the result is a completely new dictionary covering systematic historical and philosophical theology as well as theological ethics [Knowledge and Indifference in English Romantic Prose](#) Tim Milnes, 2003-02-27 This 2003 study sheds light on the way in which the English Romantics dealt with the basic problems of knowledge particularly as they inherited them from the philosopher David Hume Kant complained that the failure of philosophy in the eighteenth century to answer empirical scepticism had produced a culture of indifferentism Tim Milnes explores the way in which Romantic writers extended this epistemic indifference through their resistance to argumentation and finds that it exists in a perpetual state of tension with a compulsion to know This tension is most clearly evident in the prose writing of the period in works such as Wordsworth's Preface to Lyrical Ballads Hazlitt's Essay on the Principles of Human Action and Coleridge's Biographia Literaria Milnes argues that it is in their oscillation between knowledge and indifference that the Romantics prefigure the ambivalent negotiations of modern post analytic philosophy **Romantic narratives in international politics** Alexander Spencer, 2016-07-01 Introducing insights from literary studies and narratology into international relations this study examines the romantic narratives of pirates in Somalia rebels in Libya and private military and security companies in Iraq **Prisoners of Hope?** Crawford Gribben, Timothy C. F. Stunt, 2007-09-01 A fervent millennial hope has often existed at the heart of Protestant evangelicalism Varieties of eschatology have exercised a profound impact on the movement's theology and history Although millennialism had a respected lineage within conservative Protestantism it flourished with enormous energy in the early nineteenth century as evangelicals responded to the threat of the American and European revolutions and the cultural pessimism of the Romantic movement By mid century the millennialism that had first been articulated for the defense of Protestant conservatism had paved the way for the subversion of historic theology and church practice as a growing confidence in biblical inerrancy and the literal hermeneutic challenged many of the historical assumptions of the evangelical faith This volume of essays expands on neglected aspects of the impact of the evangelical millennialism in Britain and Ireland between 1800 and 1880 and includes an essay charting recent trends

in the study of millennialism *Lafayette in Two Worlds* Lloyd S. Kramer, 2000-11-09 Lloyd Kramer offers a new interpretation of the cultural and political significance of the career of the Marquis de Lafayette which spanned the American Revolution the French Revolutions of 1789 and 1830 and the Polish Uprising of 1830 31 Moving beyond traditional biography Kramer traces the wide ranging influence of Lafayette s public and personal life including his contributions to the emergence of nationalist ideologies in Europe and America his extensive connections with liberal political theorists and his close friendships with prominent writers many of them women Kramer places Lafayette on the cusp of the two worlds of America and France politics and literature the Enlightenment and the Romantic movement public affairs and private life revolution and nationalism and men and women He argues that Lafayette s experiences reveal how public figures can symbolize the aspirations of a society as a whole and he stresses Lafayette s important role in a cultural network of contemporaries that included Germaine de Stael Benjamin Constant Frances Wright James Fenimore Cooper and Alexis de Tocqueville History Biography **Spirits of Fire** G. A. Rosso, Daniel P. Watkins, 1990 This work is a compilation of twelve essays on romantic literature by practitioners of a resurgent historical criticism sharing the common assumption that no aspect of the object of literary study escapes the conditioning power of historical change
