Romanticism Style And Civilization:

Style and Civilizations Alfred Louis Kroeber, 1963 An Analysis of Classic and Romantic Style in Painting and Music as a Possible Approach to Aesthetic Awareness Mary Martha Barry, 1983 *Picturing the Romantic* Elisabeth Ansel, Johannes Grave, Christin Neubauer, Mira Claire Zadrozny, 2025-09-30 European Romanticism in the visual arts has always been defined by transnational transfer processes It is surprising that international aspects of Romantic movements have been in contrast to literary studies a gap in art historical research Picturing the Romantic addresses this issue and reveals new perspectives on European Romanticism s in the visual arts by reconsidering the phenomenon s traditional canon geographical dimensions and terminology and analysing various examples of the complex and heterogeneous works of Romantic painting In fifteen original essays renowned and early career researchers examine the question of whether to speak of several independently considered Romanticisms or one European Romanticism They adopt a transnational perspective on Romantic art in and beyond Europe focusing on the interconnections between the countries **A Guide to Romantic Love: the Romantic Character and the Romantic Tradition** Ariana Gonzalez Hernandez, 2018-02-17 Romantic love is something that is actually a product of a romantic culture It s a product of its traditions and of the character of those who subscribe to its values In this comprehensive guide you will not only learn about the romantic character and the traditions that enable you to cultivate romantic love in your life you will also learn about the culture itself as well as its history enabling you to develop a profound understanding and appreciation for this culture and the unique type of relationship that it yields This guide isn t just about creating romantic relationships or about culture It s about self improvement about building character about potential and about becoming complete in the process Since our relationships are a reflection of who we are then the improvement of our relationships naturally begins with the improvement of ourselves Peoples of the romantic culture have captured the hearts of the world for centuries Their enigmatic ways provoke fascination and curiosity among those foreign to their cultures The mystery of their enigmatic ways is solved once and for all by providing you with a window into their seemingly magical world At the same time you will learn how to take part in their culture in order to create your own enigmatic persona and your own magical and truly romantic and loving relationships *Library of Congress Subject Headings* Library of Congress, 2010 Dialectic of Romanticism Peter Murphy, David Roberts, 2005-10-01 Dialectic of Romanticism presents a radical new assessment of the aesthetic and philosophical history and future of modernity An exploration of the internal critique of modernism treats romanticism later historicism and post modernism as central to the development of European modernism alongside enlightenment and like the enlightenment subject to its own dead ends and fatalities An external critique of modernism recovers concepts of civilization and civic aesthetics which are trans historical simultaneously modern and classically inspired and provides a counter both to romantic historicism and enlightened models of progress Finally a retrospective critique of modernism analyses what happens to modernism s romantic archaic and

technological futurist visions when they are translated from Europe to America Dialectic of Romanticism argues that out of the European dialectic of romanticism and enlightenment a new dialectic of modernity is emerging in the New World one which points beyond modernism and postmodernism *Library of Congress Subject Headings* Library of Congress. Cataloging Policy and Support Office,2007 *Mediating Order and Chaos* Rodney Farnsworth,2021-11-08 This literature centered study offers an interdisciplinary approach to Romantic culture It is pioneering in that it employs the complexity method of anthropology Recent literary studies employ the complexity chaos theory adapted from the natural sciences however here is presented for the first time a complexity method taken from the social human sciences This complexity method is useful in mediating not only contradictions within Romanticism but the chaos of contemporary theories concerning it One of the intensifying literary debates is that between the so called Greens and Reds naturalists and humanists *Mediating Order and Chaos* not only traces the split between nature and man to Romantic Culture but finds there too a Spinozian vision of man and nature in unity thereby denying any naturalist humanist split This volume is of interest for those who wish to see essays in the holistic approach to culture Centering on hydraulics hydrology and meteorology this study examines literature painting music economics and the rhetoric of science philosophy and politics it therewith demonstrates how the water cycle was transformed into a cosmic metaphor that mediated in the form of several complex adaptive systems between the chaos of too much change and that of not enough *Handbook of American Romanticism* Philipp Löffler,Clemens Spahr,Jan Stievermann,2021-07-05 The Handbook of American Romanticism presents a comprehensive survey of the various schools authors and works that constituted antebellum literature in the United States The volume is designed to feature a selection of representative case studies and to assess them within two complementary frameworks the most relevant historical political and institutional contexts of the antebellum decades and the consequent re appropriations of the Romantic period by academic literary criticism in the twentieth and early twenty first centuries **Encyclopedia of the Romantic Era, 1760-1850** Christopher John Murray,2013-05-13 In 850 analytical articles this two volume set explores the developments that influenced the profound changes in thought and sensibility during the second half of the eighteenth century and the first half of the nineteenth century The Encyclopedia provides readers with a clear detailed and accurate reference source on the literature thought music and art of the period demonstrating the rich interplay of international influences and cross currents at work and to explore the many issues raised by the very concepts of Romantic and Romanticism **Romantic Anti-capitalism and Nature** Robert Sayre,Michael Löwy,2019-10-16 Romantic Anti capitalism and Nature examines the deep connections between the romantic rebellion against modernity and ecological concern with modern threats to nature The chapters deal with expressions of romantic culture from a wide variety of different areas travel writing painting utopian vision cultural studies political philosophy and activist socio political writing The authors discuss a highly diverse group of figures William Bartram Thomas Cole William Morris Walter Benjamin Raymond Williams and Naomi Klein from the late

eighteenth to the early twenty first century They are rooted individually in English American and German cultures but share a common perspective the romantic protest against modern bourgeois civilisation and its destruction of the natural environment Although a rich ecocritical literature has developed since the 1990s particularly in the United States and Britain that addresses many aspects of ecology and its intersection with romanticism they almost exclusively focus on literature and define romanticism as a limited literary period of the late eighteenth and early nineteenth centuries This study is one of the first to suggest a much broader view of the romantic relation to ecological discourse and representation covering a range of cultural creations and viewing romanticism as a cultural critique or protest against capitalist industrialist modernity in the name of past pre modern or pre capitalist values This book will be of great interest to students and scholars of ecology romanticism and the history of capitalism

Romantic Love and Sexual Behavior Victor C. de Munck, 1998-04-16 Westerners believe that love makes life worth living that sex is a natural desire different in kind from love and that only cynics reduce our love life to a calculation of economic or genetic factors In this volume essays explore these and other assumptions about the relationship between romantic love and sex This represents the first interdisciplinary social science study of love and sex Contributors ask and answer questions such as Is love just sex idealized or is it a transcendent and divine emotion Is love a cultural construct that is shared by members of the same culture or is it a matter of personal taste What keeps promiscuous people from using condoms even when they know they are at risk Are black professional men so rare that their conceptions of love and sex differ from those of white professional men Are brutal sexual fantasies an exclusively male domain and are they always excluded from love fantasies among normal adolescents Is divorce a culturally induced response to evolutionary reproductive strategies that compel individuals to maximize their genetic legacy Are marriages or relationships less satisfying or stable when an actual mate falls short of the fantasy of the ideal mate Is there a universal core to love and sex that is camouflaged by other cultural norms such as modesty and sexual segregation Is rape perceived as more acceptable when the rapist says he was motivated by love What do cult movements and romantic love have in common As they attempt to answer these and other questions the authors extend our understanding of the variety of ways that love and sex are conceptualized connected or separated

Romantic Nationalism in Eastern Europe Serhiy Bilenky, 2012-05-16 This book explores the political imagination of Eastern Europe in the 1830s and 1840s when Polish Russian and Ukrainian intellectuals came to

identify themselves as belonging to communities known as nations or nationalities Bilenky approaches this topic from a transnational perspective revealing the ways in which modern Russian Polish and Ukrainian nationalities were formed and refashioned through the challenges they presented to one another both as neighboring communities and as minorities within a given community Further all three nations defined themselves as a result of their interactions with the Russian and Austrian empires Fueled by the Romantic search for national roots they developed a number of separate yet often overlapping and inclusive senses of national identity thereby producing myriad versions of Russianness Polishness and Ukrainianness
