Wagner, 1980 The Romantics to Rodin Peter The Encyclopedia of Indianapolis David J. Bodenhamer, Robert G. Barrows, 1994-11-22 A work of this Fucso.1980 magnitude and high quality will obviously be indispensable to anyone studying the history of Indianapolis and its region The Journal of American History absorbing and accurate Although it is a monument to Indianapolis do not be fooled into thinking this tome is impersonal or boring It's not It's about people interesting people The Encyclopedia of Indianapolis is as engaging as a biography Arts Indiana comprehensive and detailed might well become the model for other such efforts Library Journal With more than 1 600 separate entries and 300 illustrations The Encyclopedia of Indianapolis is a model of what a modern city encyclopedia should be From the city s inception through its remarkable transformation into a leading urban center the history and people of Indianapolis are detailed in factual and interpretive articles on major topics including business education religion social services politics ethnicity sports and culture "French Sculpture Following the Franco-Prussian War, 1870?0 " Michael Dorsch, 2017-07-05 French Sculpture Following the Franco Prussian War 1870 80 investigates the role played by the trope of the strong woman fallen man in re establishing morale among the French people following the Franco Prussian War The study explores how certain French sculptors including Falgui Merci Barrias and Rodin presented this recent history of defeat in commemorative monuments that increasingly dominated public space across France during the final decades of the nineteenth century Though it focuses on French nationalism and the commemoration of war or as is the case with the French following the Franco Prussian War the commemoration of defeat this volume also examines shifts in gender roles in the latter half of the nineteenth century and the impact of military defeat on relations between the sexes The book probes the aesthetic discourse of the period concerning the merits of traditional allegorical sculpture versus new fangled realist sculpture in depicting modern life Drawing on extensive archival research Michael Dorsch gives a voice to the sculptures he discusses restoring these often ignored works to their proper place in history French Master Drawings from the Collection of Muriel Butkin Carter E. Foster, Sylvain Bellenger, Patrick Shaw Cable, Cleveland Museum of Art, 2001 Accompanying an exhibition at the Cleveland Museum of Art last fall and now at the Dahesh Museum in New York this catalog focuses upon the French drawings in Muriel Butkin's highly specialized collection which she has promised to the Cleveland Museum To assemble her diverse yet nicely integrated set of drawings Butkin started buying 18th century French drawings when they were affordable In the mid 1970s with the guidance of art historian Gabriel Weisberg she expanded her collection to include 19th century French drawings These drawings were counter to the mainstream impressionist and

postimpressionist taste of the time and focused more on academic French subject matter such as life drawings portraits or compositional studies In the preface Butkin herself reinforces her taste by saying that drawings are much more personal and spontaneous than paintings often demonstrating the artistic process Foster curator of drawings at the Cleveland Museum and other scholars present a well researched volume that contributes new information to a very specialized field of art history It is greatly disappointing however that the bulk of the reproductions are in black and white often missing the subtly colored tones in many of the drawings Nonetheless this is recommended for museum and academic libraries that support graduate programs in art history 183 b w illustrations **Historical Dictionary of Romantic Art and Architecture** Allison Lee Palmer, 2019-07-26 Romanticism is multifaceted and a wide range of nostalgic emotional and exotic concerns were expressed in such styles and movements as the Gothic Revival Classical Revival Orientalism and the Pre Raphaelite Brotherhood Some movements were regional and subject specific such as the Hudson River School of landscape painting in the United States and the German Nazarene movement which focused primarily on religious art in Rome The movements range across Western Europe and include the United States This dictionary will provide a fuller historical context for Romanticism and enable the reader to identify major trends and explore artists of the period This second edition of Historical Dictionary of Romantic Art and Architecture contains a chronology an introduction and an extensive bibliography The dictionary section has over 300 cross referenced entries on major artists of the romantic era as well as entries on related art movements styles aesthetic philosophies and philosophers This book is an excellent resource for students researchers and anyone wanting to know more about Romantic art American Sculpture in the Metropolitan Museum of Art: A catalogue of works by artists born between 1865 and 1885 Metropolitan Museum of Art (New York, N.Y.), Lauretta Dimmick, Donna J. Hassler, 1999 Volume One This volume catalogues the distinguished and comprehensive collection of approximately 400 works of American sculpture by artists born before 1865 This publication includes an introduction on the history of the collection's formation particularly in the context of the Museum's early years of acquisitions and discusses the outstanding personalities involved Metropolitan Museum of Art website The Invention of the Model Susan Waller, 2017-07-05 Although mastery of the representation of the human figure was central to art making as early as the fifteenth century in Europe in the nineteenth century French imagination the artist's model became identified as a distinct social type and cultural trope This study of the artist's model in Paris between 1830 and 1870 incorporates three histories a social history of professional models a cultural history of models as social types and an art history of representations of the model in elite and popular visual culture It takes as its starting point the artist model transaction demonstrating that stereotypes of the model that figured in the public imagination were framed both by gender and ethnicity the book develops a nuanced typology of different types of models Interwoven with the analysis of the constructed identities of models are accounts of the lives of particular models and the histories of the urban population groups from which they emerged The Invention of the Model

Artists and Models in Paris 1830 1870 is an adept exploration of a major issue in nineteenth century art which will be of interest not only to art historians but also to social and French cultural historians Pavie in the Borderlands Betje Black Klier, 2000-11-01 Pavie in the Borderlands describes the cultural forces that shaped the trans Mississippi West between 1765 and 1838 by focusing on the extraordinary Pavie family From their settlement on the Louisiana frontier three generations of Pavies witnessed the creation of the U S and its territorial expansion through the Louisiana Purchase Betje Black Klier relates the experiences of the Pavies through the adventures of their kinsman Th odore an enterprising eighteen year old who left provincial France to visit Louisiana and Texas in 1829 and 1830 Th odore kept a journal and published his exploits in a volume entitled Souvenirs atlantiques In the first of its two parts Pavie in the Borderlands provides the story of the family s early experiences in North America a biographical study of Th odore translations of some of his colorful letters from the borderlands and an analysis of how his travels transformed him The second part of the volume presents the first English translation of a substantial portion of Th odore s journal including reproductions of his sketches of Louisiana and Texas environs Klier unveils the young scholar and artist as the most significant nineteenth century travel writer to journey west of the Mississippi By intertwining Louisiana and Texas history with French history Pavie in the Borderlands provides important new insights on the region s environmental social economic cultural and intellectual history Drapery Gen Dov, 2001-12-21 Gen Doy investigates the hitherto neglected meanings of drapery and the draped body in visual culture The baroque and the classical are her subjects as are Freud's Gravida Clerambault's writings and photographs of draped figures the fetishistic play between veiling and revealing and the meanings of drapery in recent art from Christo's wrapped Reichstag to the impact of the modern women s movement on fine art practice Yet she also finds and focuses on the draped body now in places like Algeria and Kosovo where drapery s connotations are no longer those of purity and civilized elegance but of barbarism poverty and savage death Funerary Arts and Tomb Cult SuzanneGlover Lindsay, 2017-07-05 Even before the upheaval of the Revolution France sought a new formal language for a regenerated nation Nowhere is this clearer than in its tombs some among its most famous modern sculpture rarely discussed as funerary projects Unlike other art historical studies of tombs this one frames sculptural examples within the full spectrum of the material funerary arts of the period along with architecture and landscape This book further widens the standard scope to shed new and needed light on the interplay of the funerary arts tomb cult and the mentalities that shaped them in France over a period famous for profound and often violent change Suzanne Glover Lindsay also brings the abundant recent work on the body to the funerary arts and tomb cult for the first time confronting cultural and aesthetic issues through her examination of a celebrated sculptural type the recumbent effigy of the deceased in death Using many unfamiliar period sources this study reinterprets several famous tombs and funerals and introduces significant enterprises that are little known today to suggest the prominent place held by tomb cult in nineteenth century France Images of the tombs complement the text to underline sculpture s unique formal power in
