Powell,2019-08-23 Here Come the Romans is a progressive survey on the historical influence of Rome and how it influenced the times events customs religious institutions and specifically the life of Jesus the Jewish people and the New Testament Its progressive style guides the reader through a six hundred and seventy five year period of selected history to educate how Rome fitted the biblical narrative and story The Bible ascribes divine inspiration to the Scriptures but we often forget the human side The birth of prophecy or all Scriptures originated out of human struggles circumstances and situations This book will teach and inform Bible readers on the origins of parties sects authorities and the backgrounds of the times that influenced the writers as they wrote the New Testament books Rome had its starting point before 605 BC viz 753 BC but its presence in the land of Judea and Jerusalem was not solidified until a little more than a half century before the birth of Christ It emerged from a simple monarchy to a senate ruled republic into the world's first major superpower ruled by Caesars and Procurators The presence of Rome with Jews and Christians vastly affected the writings of all twenty seven books of the New Testament as we have them today Photographic Travel Books Danièle Méaux,2017-07-24 Since early in its history

photography has been used by a diversity of travellers whose collected photographs have been compiled into albums But Photographic Travel as a genre of art did not appear before the second half of the twentieth century and had a singular fate and fortune in the US as well as in Europe The initial objective of some itinerant photographers is to make a book their shooting practice is conditioned by this objective as well as their travel experience Their books designed as one coherent whole refer to their wandering experience even though their stories are never completely free from fiction In these books their travels are converged and their subjectivity is revealed It is therefore relevant to call such books made of photographs and possibly words about the travel experience Photographic Travel books comparably to Travel books Danièle Méaux has tackled the task of characterizing this genre Coherent Chiastic Oeuvre in the Unity of Luke-Acts John M. Powell,2025-06-20 This book expands on scholarly arguments that the Gospel of Luke and Acts of the Apostles was originally intended as a single

unified work It offers fresh insights by addressing overlooked perspectives and further exploring the literary theological and historical connections between the two volumes Central to this study is the argument that the ascension narratives at the end of Luke and the beginning of Acts form a chiastic structure uniting and conjoining both volumes Rather than redefining Luke Acts as First and Second Luke this study affirms their distinct literary genres Luke s Gospel rightly belongs among the canonical Gospels and Acts bridges the Gospels with the Epistles acting similar to a historical narrative It does not seek to alter their canonical separation but asserts that Luke deliberately composed them as a continuous interdependent account By examining how this pivotal event structures the text it provides compelling evidence of Luke s intentional design

demonstrating that the ascension is the hinge that seamlessly connects both volumes **The Victor Journey Through the**

MEMOIR Ada Nicolescu,2025-05-23 In this time of great tension between the harsh Communist East and the Western World 1961 the coldest time of the Cold War a young Jewish woman emigrates from Communist Romania to free Paris the culture capital of Europe She has been threatened and persecuted in Romania and she is happy to fly to Paris the city of her dreams But her sense of danger and insecurity follows her to the West and places her in a precarious situation she has been stripped of her citizenship she is stateless she has no passport no money and is not permitted to work She is in danger of deportation In addition this is the time when the building of the Berlin Wall begins Informed people speak about mobilization of the Armed Forces and a possible World War III In spite of this the heroine s passionate love for Paris for its beauty and freedom makes this trip deeply meaningful *Photo-era Magazine* Juan C. Abel,Thomas Harrison Cummings,Wilfred A. French,A. H. Beardsley,1922 **The Christian Theological Tradition** Mark McInroy,Michael J. Hollerich,2019-07-26 The fourth edition

of *The Christian Theological Tradition* provides students with essential theological knowledge of key persons and events of

the Bible and the Christian faith and of Christianity's multifaceted encounter with Western culture. Historically arranged, the textbook addresses major theological themes such as revelation, God, Jesus Christ, Creation, salvation, and the church. The textbook deals with the entire Christian tradition from an orientation that is both Catholic and ecumenical, with the fourth edition including expanded coverage of modern Protestant Christianity. The Christian Theological Tradition has been thoroughly revised and updated with nine new or rewritten chapters, including a new section on the reception of the Second Vatican Council, including the pontificate of Pope Francis; a new treatment of contemporary developments in liberation and environmental theology; a new examination of the relationship between science and Christianity; an entirely rewritten treatment of Islam that focuses on the ways in which the Christian tradition has historically understood and responded to Islam; a new discussion of the New Atheism with theological responses to this influential movement; new textboxes on aspects of religious life such as liturgy, prayer, art, moral teaching, and social institutions appropriate to given chapters. With the assistance of images and maps, key words, and recommended reading, this textbook outlines the methods for Christian theology and demonstrates the relevance of the Christian theological tradition for our contemporary world. This is an ideal resource for students of theology, biblical studies, or religious studies, and anyone wanting an accessible and comprehensive introduction to the Christian theological tradition.

**The Regional Travel Guide for Lazio (Italy)**, Visualizing the Past Kathrin Maurer, 2013-03-22. Visual media had a decisive impact on how the past was perceived in historicist culture in nineteenth-century Germany. The panorama, photography, and book illustrations can portray the past under the auspices of spatiality. Research on historicist culture often neglects this dimension of space and concentrates on traditional historicist paradigms such as temporality, narrative, and teleology. By investigating the visual vocabulary of different historicist genres, academic historiography, illustrated history books, historical maps, this volume expands an understanding of German historicist culture as a multi-medial phenomenon and shows that the past is conveyed in spatial forms such as travel locations, national and colonial spaces, as well as geographical areas. Tracing these concepts of historical space, this volume demonstrates that the image works as a powerful tool to propagate the ideology of German imperialism in the nineteenth century but also can critically reflect the political agendas of national historicism.
