Ronald Reagan Robert Mann,2019-10-01 In the 1960s transitioning from acting to politics was rare Ronald Reagan was not the first to do it but he was the first to jump from the screen to the stump and on to credibility as a presidential contender Reagan s transformation from struggling liberal actor to influential conservative spokesman in five years and then to the California governorship six years later is a remarkable and compelling story In *Becoming Ronald Reagan* Robert Mann explores Reagan s early life and his career during the 1950s and early 1960s his growing desire for acclaim in high school and college his political awakening as a young Hollywood actor his ideological evolution in the 1950s as he traveled the country for General Electric the refining of his political skills during this period his growing aversion to big government and his disdain for the totalitarian leaders in the Soviet Union and elsewhere All these experiences and more shaped Reagan s politics and influenced his career as an elected official Mann not only demonstrates how Reagan the actor became Reagan the political leader and how the liberal became a conservative he also shows how the skills Reagan learned and the lessons he absorbed from 1954 to 1964 made him the inspiring leader so many Americans remember and revere to this day *Becoming Ronald Reagan* is an indelible portrait of a true American icon and a politician like none other Purchase the audio edition **The Triumph of Nancy Reagan** Karen Tumulty,2021-04-13 The definitive biography of the fiercely vigilant and politically astute First Lady who shaped one of the most consequential presidencies of the 20th century Nancy Reagan

The Enduring Reagan Hugh Heclo,James W. Ceaser,George H. Nash,Stephen F. Knott,Paul G. Kengor,Andrew E. Busch,Stephen F. Hayward,Michael Barone,2009-09-04 Essays on the fortieth president and how he changed our world Hands down the finest compilation on Ronald Reagan that exists Robert G Kaufman author of *In Defense of the Bush Doctrine* A former Sunday school teacher and Hollywood actor Ronald Reagan was an unlikely candidate for president but his charisma conviction and leadership earned him the governorship of California from which he launched his successful bid to become the fortieth president of the United States in 1980 Reagan s political legacy continues to be the standard by which all conservatives are judged In *The Enduring Reagan* editor Charles W Dunn brings together eight prominent scholars to examine the political career and legacy of Ronald Reagan This anthology offers a bold reassessment of the Reagan years and the impact they had on the United States and the world Includes contributions by Charles W Dunn Hugh Heclo James W Ceaser George H Nash Stephen F Knott Paul G Kengor Andrew E Busch Steven F Hayward Michael Barone *What Reagan Couldn't Tell Us* Lawrence Nesbitt,2011-12 Many of Ronald Reagan s ways were not only unusual but seem to contradict his others Some authors are so perplexed by his nature they are reluctant to even assign intelligence to his mentality They suspect he operated on everything from instinct to hunches to gut feelings and guesses Lawrence Nesbitt s six years of extensive research has revealed a single psychological key that makes sense of the anomalies and contradictions He has uncovered a powerful and nearly unique mindset that directed almost all of Reagan s conduct then and causes the confusion now This unusual belief also explains how a man so old and riddled with flaws could accomplish so much and leave the

presidency with an approval rating of nearly 70% the highest of any two term president in United States history Nesbitt shows the controlling role this mindset played in Reagan s youth in his years as a Hollywood actor during his tenure as California governor through his two terms as president and even later What Reagan Couldn t Tell Us offers a previously untold analysis of Reagan one that will encourage discussion for years to come I found Lawrence Nesbitt s explanation of what made Ronald Reagan tick very plausible fascinating and enlightening His revolutionary conclusions about the former president seem well founded on solid evidence He gives us a new Reagan to appreciate James D Mallory MD author former psychiatric director of Atlanta Counseling Center and medical director of RAPHA Transforming America Robert M. Collins,2009-08-22 Robert Collins examines the critical and controversial developments of the 1980s and the unmistakable influence of Ronald Reagan on their making Portraying the former president as a complex political figure who combined ideological conservatism with political pragmatism Collins demonstrates how Reagan s policies helped limit the scope of government control inflation reduce the threat of nuclear war and defeat communism In the 1980s other changes occurred as well including the advent of the personal computer a revolution in information technology a more globalized national economy and a restructuring of the American corporation In the realm of culture MTV self help gurus and postmodernism realized the cultural shifts of the postwar era creating a conflict that pitted cultural conservatism against a secular multicultural view of the world Entertaining and erudite Transforming America explores the events movements and ideas that profoundly changed American culture and politics during an important decade *Reconsidering Reagan* Daniel S. Lucks,2020-08-04 2021 Prose Award Finalist A long overdue and sober examination of President Ronald Reagan s racist politics that continue to harm communities today and helped shape the modern conservative movement Ronald Reagan is hailed as a transformative president and an American icon but within his twentieth century politics lies a racial legacy that is rarely discussed Both political parties point to Reagan as the right kind of conservative but fail to acknowledge his political attacks on people of color prior to and during his presidency Reconsidering Reagan corrects that narrative and reveals how his views policies and actions were devastating for Black Americans and racial minorities and that the effects continue to resonate today Using research from previously untapped resources including the Black press which critically covered Reagan s entire political career Daniel S Lucks traces Reagan s gradual embrace of conservatism his opposition to landmark civil rights legislation his coziness with segregationists and his skill in tapping into white anxiety about race riding a wave of white backlash all the way to the Presidency He argues that Reagan has the worst civil rights record of any President since the 1920s including supporting South African apartheid packing courts with conservatives targeting laws prohibiting discrimination in education and housing and launching the War on Drugs which had cataclysmic consequences on the lives of Black and Brown people Linking the past to the present Lucks expertly examines how Reagan set the blueprint for President Trump and proves that he is not an anomaly but in fact the logical successor to bring back the racially tumultuous America

that Reagan conceptualized **Patriot's History® of the Modern World, Vol. II** Larry Schweikart,Dave Dougherty,2013-12-05 The bestselling historians turn their focus to America s role in the world since the end of World War II Schweikart author of the number one New York Times bestseller A Patriot s History of the United States and Dougherty take a critical look at America from the postwar boom to her search for identity in the twenty first century The second volume of A Patriot s History of the Modern World picks up in 1945 with a world irrevocably altered by World War II and a powerful victorious United States But new foes and challenges soon arose the growing sphere of Communist influence hostile dictatorships and unreliable socialist allies the emergence of China as an economic contender and the threat of world Islamification The book reestablishes the argument of American exceptionalism and the interplay of our democratic pillars Judeo Christian religious beliefs free market capitalism land ownership and common law around the world Schweikart and Dougherty offer a fascinating conservative history of the last six decades **Planet Neptune and the Modern Us**

Presidents: Franklin Roosevelt to Barack Obama Suzanne Angioli,2016-04-05 While studying the astrological birth charts of all the US presidents I discovered that those of the thirteen modern US presidents from Franklin Roosevelt to Barack Obama all had the natal Sun the planet most associated with ones basic identity making an aspect certain designated degrees between two planets to their natal Neptune This was surprising since I would have thought that politicians particularly those aspiring to the presidency would have an overwhelming emphasis on the Sun Mars aspect but not on the Sun Neptune aspect What I discovered in my research was that good politicians are not warriors Sun Mars per se who use the techniques of warfare to muscle their way through adversity Rather they are good actors Sun Neptune who are essentially chameleons Sun Neptune operating in the foggy Neptune realm of subtlety Neptune and seduction using their sensitivity Neptune and charm Neptune to serve their intuitive Neptune sides to try to achieve their goals It became apparent that a good politician is excellent at assuming different roles in order to fit a given political situation and move his agenda forward The Sun in aspect to Neptune is not unusual but there is no aggregate population that has 100 percent of its members with this aspect like the modern presidents I was intrigued with this occurrence and thus set out to research their individual biographies to see just how this aspect played out in their lives After all it seemed to be almost a prerequisite for being elected to the modern Oval Office Targeted: Beirut Jack Carr,James M. Ross,2015-10-13 This illuminating book presents a provocative expert account of America s changing relationship with Israel Kirkus starred review When it comes to Israel U S policy has always emphasized the unbreakable bond between the two countries and our ironclad commitment to Israel s security Today our ties to Israel are so close that when there are differences they tend to make the news But it was not always this way Dennis Ross has been a direct participant in shaping U S policy toward Israel for decades He served as Bill Clinton s envoy for Arab Israeli peace and was an active player in the debates over how we should guide our policies In Doomed to Succeed he takes readers behind the scenes of every administration from Truman to Obama revealing each president s attitudes toward Israel and the Middle East the debates between key advisers and the events that drove the policies and at times led to a shift in approach Ross points out how distancing the United States from Israel in the Eisenhower Nixon Bush and Obama administrations never yielded any benefits and why that lesson has never been learned Doomed to Succeed offers compelling advice for future administrations as they continue to shape America s policy on Israel
