IN THE WORKS OF
PIERRE DE RONSARD

Ronsards Contentious Sisters

Phillip John Usher

Ronsards Contentious Sisters:

Ronsard's Contentious Sisters Roberto E. Campo, 1998 This book examines Ronsard's participation in the heated paragone debate between poets and painters the Renaissance contest for superiority in the ranking of the arts that emerged in counterpoint to the parity centered pseudo Horatian principle of *ut pictura poesis* as is painting so is poetry The book explores issues that despite their importance throughout Ronsard's poetry and the writings of leading paragone theorists such as Leone Battista Alberti and Leonardo da Vinci have remained largely unnoticed In broadest terms Roberto Campo investigates the poet's notions about the differences between poems and pictures More precisely it examines Ronsard's views on two fundamental preoccupations of the theoretical and practical discussions about the arts during the Renaissance which mode of expression word or image can more accurately and meaningfully represent natural realities and abstract celestial truths and thus whose art the poet's or the painter's holds the highest station in the hierarchy of human creative endeavor

Transformations of Memory and Forgetting in Sixteenth-Century France Nicolas Russell, 2011-04-29 This book proposes that in a number of French Renaissance texts we observe a shift in thinking about memory and forgetting Focusing on a corpus of texts by Marguerite de Navarre Pierre de Ronsard and Michel de Montaigne it explores several parallel transformations of and challenges to classical and medieval discourses on memory

Queer (Re)Readings in the French Renaissance Gary Ferguson, 2016-12-05 Focusing on multiple aspects of Renaissance culture and in particular its preoccupation with the reading and rewriting of classical sources this book examines representations of homosexuality in sixteenth century France Analysing a wide range of texts and topics it presents an assessment of queer theory that is grounded in historical examples including French translations of Boccaccio's *Decameron* the poetry of Ronsard works in praise of and satirising Henri III and his mignons Montaigne's *Essais* Brantôme's *Dames galantes* the figures of the androgyne and the hermaphrodite and religious discourses and practices of penance and confession Close comparison with the ancient models on which they drew the elegy and epic the works of Plato Ovid Lucian and others reveals Renaissance writers redeploying an established set of cultural understandings and assumptions at once congruent and at odds with their own society's socio sexual norms Throughout this study emphasis is placed on the coexistence of different models of homosexuality during the Renaissance homosexual desire was simultaneously universal and individual neither of these views excluding the other Insisting equally on points of convergence and difference between Renaissance and modern understandings of homosexuality this book works towards a historicisation of the concept of queerness

Selected Poems Pierre Ronsard, 2002-08-29 Ronsard is considered one of France's greatest love poets yet his poetic achievements are not restricted to his verses of love wine and nature A true Renaissance figure his themes ranged from politics science and philosophy to the bawdy and risqué Using Greco Roman and Italian poetic models and drawing on the rich images of classical mythology Ronsard revolutionised the tradition of French poetry In the 20th century Ronsard's poetry was influential for W B

The Poetry of Place Louisa Mackenzie, 2011-01-01 The sixteenth century in France was marked by religious warfare and shifting political and physical landscapes Between 1549 and 1584 however the Pl iade poets including Pierre de Ronsard Joachim Du Bellay R my Belleau and Antoine de Ba f produced some of the most abiding and irenic depictions of rural French landscapes ever written In *The Poetry of Place* Louisa Mackenzie reveals and analyzes the cultural history of French paysage through her study of lyric poetry and its connections with landscape painting cartography and land use history In the face of destructive environmental change lyric poets in Renaissance France often wrote about idealized physical spaces reclaiming the altered landscape to counteract the violence and loss of the period and creating in the process what Mackenzie following David Harvey terms spaces of hope This unique alliance of French Renaissance studies with cultural geography and eco criticism demonstrates that sixteenth century poetry created a powerful sense of place which continues to inform national and regional sentiment today

Epic Arts in Renaissance France Phillip John Usher, 2014 *Epic Arts in Renaissance France* examines the relationship between art and literature in 16th century France and considers how the epic genre became public via realisations in various other art forms

Setting Plato Straight Todd W. Reeser, 2015-12-28 When we talk of platonic love or relationships today we mean something very different from what Plato meant For this we have fifteenth and sixteenth century European humanists to thank As these scholars most of them Catholic read digested and translated Plato they found themselves faced with a fundamental problem how to be faithful to the text yet not propagate pederasty or homosexuality In *Setting Plato Straight* Todd W Reeser undertakes the first sustained and comprehensive study of Renaissance textual responses to Platonic same sex sexuality Reeser mines an expansive collection of translations commentaries and literary sources to study how Renaissance translators transformed ancient eros into non erotic non homosexual relations He analyzes the interpretive lenses translators employed and the ways in which they read and reread Plato s texts In spite of this cleansing Reeser finds surviving traces of Platonic same sex sexuality that imply a complicated recurring process of course correction of setting Plato straight

The Paragone in Nineteenth-Century Art Sarah J. Lippert, 2019-03-27 Offering an examination of the paragone meaning artistic rivalry in nineteenth century France and England this book considers how artists were impacted by prevailing aesthetic theories or institutional and cultural paradigms to compete in the art world The paragone has been considered primarily in the context of Renaissance art history but in this book readers will see how the legacy of this humanistic competitive model survived into the late nineteenth century

Reading Huizinga Willem Otterspeer, 2010 Summary This study by the renowned

Dutch scholar Willem Otterspeer shows the same hallmark passion with which Huizinga immersed himself in history For Huizinga philology was the mother of all interpretative endeavour the master skill from which all branches of humanities originate and to which they all ultimately return Reading and writing were both part of a collective ritual that channeled human passion into beautiful forms while passion and how to master it remained the fundamental fact of human life Throughout this analysis of Huizinga s oeuvre Otterspeer remains faithful to his main philosophical tenets in which contrast and harmony memory and desire are the warp and weft of his work And again this is precisely what Otterspeer does Reading and writing passion and detachment method and mysticism are here combined in a way that would have delighted Huizinga himself This book is the English translation of the original Dutch edition *Orde en trouw* 2006 **Encyclopedia of British Writers, 16th, 17th, and 18th Centuries** Book Builders LLC.,2005 Presents a two volume A to Z reference on English authors from the sixteenth seventeenth and eighteenth centuries providing information about major figures key schools and genres biographical information author publications and some critical analyses *Poets on Paintings* Robert D. Denham,2010-03-10 Ekphrasis the description of pictorial art in words is the subject of this bibliography More specifically some 2500 poems on paintings are catalogued by type of publication in which they appear and by poet Also included are 2000 entries on the secondary literature of ekphrasis including works on sculpture music photography film and mixed media Current Contents Institute for Scientific Information (Philadelphia),2000 Galdós's Segunda Manera Linda M. Willem,1998 This book explores the change that occurred in the writings of Spanish novelist Benito Perez Galdos when he entered his segunda manera in 1881 with the publication of *La desheredada* his first contemporary novel Critical work on this important phase of Galdos s career has tended to concentrate on the content of his novels with little attention given to the way in which Galdos conveys that content to the reader By studying these works in light of how their stories are told Linda Willem shows that *La desheredada* marks the beginning of a more sophisticated and varied mode of narrative in Galdos s novels Through close readings of his first seven contemporary works Willem shows how the affective response associated with various narrative devices plays a role in the rhetorical strategies of each text Earthly Treasures Catharine Randall,2007 *Earthly Treasures* maps the presence position and use in the narrative of a variety of material objects in Marguerite de Navarre s *Heptameron* There is a wide selection of objects ranging from tapestries with scripture passages woven into the borders fine arts paintings chalices incised with proverbs emblems table linens copies of Bibles or manuscripts clothing masks stage props jewelry furniture and foodstuffs Although the presence of such material objects seems paradoxical given the scriptural mandate to disregard things of this world and to store up treasure rather in heaven Marguerite found license to use such objects both in the Bible and in the daily life oriented and artifact studded sermons and writings collected in the *Table Talk* of Martin Luther
