Rookledges International Handbook Of Type Designers A Biographical Directory:

Rookledge's International Handbook of Type Designers Ron Eason, Sarah Rookledge, Gordon Rookledge, 1993-04-01 Rookledge's International Handbook brings together for the first time in one convenient reference book brief biographies of over 175 type designers. It provides a fascinating insight into the personalities behind most of the text type faces used today and to the circumstances surrounding their design. Starting with the first printed book Gutenberg's 42 Line Bible of 1455 all the major figures are covered: designers, punch cutters, teachers and manufacturers, and the story is brought up to date by including some of the younger designers such as Neville Brody and Zuzana Licko as well as established designers like Matthew Carter and Adrian Frutiger. Preceding the alphabetical directory, a short essay outlines the main trends in type design and two indexes by subject and by typeface and a glossary of technical terms complete the work, making it a unique reference book for both professional and student. Jacket Rookledge's International Handbook of Type Designers Ron Eason, Sarah Rookledge, Phil Baines, Gordon Rookledge, 1994 *Dutch Type* Jan Middendorp, 2004 Overzicht van vooral de 20e eeuwse Nederlandse typografie **Library Collection Development for Professional Programs: Trends and Best Practices** Holder, Sara, 2012-07-31 Collection development: the process used by librarians to choose items for a particular library or section of a library can be time consuming and difficult due to the many factors that must be taken into consideration. *Library Collection Development for Professional Programs: Trends and Best Practices* addresses the challenging task of collection development in modern academic libraries, which is largely learned on the job. This publication contains practical advice and innovative strategies essential for current collection development librarians and future librarians seeking guidance in this complex position. **Rookledge's Classic International Typefinder** Christopher Perfect, Gordon Rookledge, Phil Baines, 2004-12-28 This volume helps designers to recognize and identify typefaces seen and used on an everyday basis and also provides assistance with the process of typeface selection. Modernism Today Sjef Houppermans, Pete Liebrechts, Jan Baetens, Otto Boele, 2013-10-25 This book manifests at least four recent shifts and tendencies within Modernist studies in general that point at the expansion of this increasingly interdisciplinary field. First, Modernist studies has seen a temporal expansion to the extent that scholars in the field have come to turn to both the pre and posterior history of Modernism. Second, the field has witnessed a spatial expansion in that increasingly so researchers have also come to scrutinize the Modernisms of regions at the fringes of Europe and beyond. Thirdly, a vertical expansion too has marked Modernist studies in recent decades, not only by further expanding the canon of women writers and exploring the continuum between high and lowbrow but also by looking at the artistic and mediatized hierarchies and cross fertilizations operative in the period. A fourth conceptual expansion of the field shows that whereas concepts such as middlebrow, *arri re garde* and to some extent even *avant garde* were once exotic notions of at best marginal

importance in European Modernist studies they now form part and parcel of the field complicating and expanding it conceptually **Rookledge's International Directory of Type Designers** Ron Eason, Sarah Rookledge, Boyd Hill, 1994
