**Room for Doubt** Wendy Lesser,2008-04-01 Room for Doubt is Wendy Lesser s account of three separate but interlocking occasions for doubt her stay in Berlin a city she had never expected to visit her unwritten book on the philosopher David Hume and her long friendship with the writer Leonard Michaels which constantly broke down and yet endured Through this unusual journey Lesser in the end shows us how once examined things are never quite what she thought they were

**No Room for Doubt** Angela Dove,2009-03-03 A daughter s account of how one moment of violence shattered lives made heroes and continues to affect change in the world On March 25 1988 Debi Whitlock was brutally murdered in her Modesto California home Debi s murder devastated her family and sent her loved ones careening on radically different paths Debi s mother Jacque wanted answers Over the next nine years Jacque courageously fought what others called a losing battle and learned how to deal with the authorities the media and the public so that her daughter s killer would not go unpunished Debi s husband Harold was tossed down another path Police investigators focused their suspicions on him eventually uncovering motives and opportunity but never enough to make a case Judged harshly in the court of public opinion the once funny intelligent and fiercely loyal man fell into a spiral of guilt anger and alcoholism Told by Harold s adult daughter the last person to see Debi alive this is the story of a terrible murder and investigation that led to the ultimate end of one man s life and a renewed sense of purpose and hope in one woman s life *Hume, Holism, and Miracles*

David Johnson,2018-09-05 David Johnson seeks to overthrow one of the widely accepted tenets of Anglo American philosophy that of the success of the Humean case against the rational credibility of reports of miracles In a manner unattempted in any other single work he meticulously examines all the main variants of Humean reasoning on the topic of miracles Hume s own argument and its reconstructions by John Stuart Mill J L Mackie Antony Flew Jordan Howard Sobel and others Hume s view set forth in his essay Of Miracles has been widely thought to be correct Johnson reviews Hume s thesis with clarity and elegance and considers the arguments of some of the most prominent defenders of Hume s case against miracles According to Johnson the Humean argument on this topic is entirely without merit its purported cogency being simply a philosophical myth

**The Faith to Doubt** Stephen Batchelor,2015-04-01 Kierkegaard said that faith without doubt is simply credulity the will to believe too readily especially without adequate evidence and that in Doubt can Faith begin All people involved in spiritual practice of whatever persuasion must confront doubt at one time or another and find a way beyond it to belief

however temporary But faith is not equivalent to mere belief Faith is the condition of ultimate confidence that we have the capacity to follow the path of doubt to its end And courage In this engaging spiritual memoir Stephen Batchelor describes his own training first as a Tibetan Buddhist and then as a Zen practitioner and his own direct struggles along his path It is most uncanny that we are able to ask questions for to question means to acknowledge that we do not know something But it is more than an acknowledgement it includes a yearning to confront an unknown and illuminate it through understanding Questioning is a quest Batchelor is a contemporary Buddhist teacher and writer best known for his secular or agnostic approach to Buddhism He considers Buddhism to be a constantly evolving culture of awakening rather than a religious system based on immutable dogmas and beliefs Buddhism has survived for the past 2 500 years because of its capacity to reinvent itself in accord with the needs of the different Asian societies with which it has creatively interacted throughout its history As Buddhism encounters modernity it enters a vital new phase of its development Through his writings translations and teaching Stephen engages in a critical exploration of Buddhism s role in the modern world which has earned him both condemnation as a heretic and praise as a reformer

questions and readings for further study      **The Witch of Pungo** Scott O. Moore, 2024-05-22 The authoritative cultural history of Virginia's most famous accused witch In 1706 Grace Sherwood was ducked after her neighbors in Princess Anne County accused her of witchcraft Binding and throwing her into the Lynnhaven River they waited to see whether she would float to the top evidence of her guilt or sink proof of her innocence Incredibly she survived This bizarre spectacle became an early piece of Virginia folklore as stories about Sherwood the Witch of Pungo spread Her legend still looms large in Tidewater In 2006 Governor Tim Kaine even issued an informal pardon of Sherwood read aloud by the mayor of Virginia Beach before the annual reenactment of Sherwood's ducking This is the first book to explore Grace Sherwood's life and cultural impact in depth Anyone interested in colonial Virginia American folklore and the history and legacy of witch trials will find much to enjoy in this spellbinding book      **The Christian mother's magazine, ed. by Mrs. Milner** Mary Milner, 1845      *Reginald Hastings* Eliot Warburton, 1850      *Is Religion Killing Us?* Jack Nelson-Pallmeyer, 2015-08-27 Coverage of recent world events has focused on violence associated with Islam In this courageous and controversial book Jack Nelson Pallmeyer claims that this narrow view ignores the broader and unfortunate relationship between human violence and the sacred texts of Jews Christians and Muslims Both the Bible and the Quran he believes are riddled with violent images of God and with passages that can be reasonably interpreted to justify violence against enemies in service to God's will According to Nelson Pallmeyer many wondered how Muslims could in God's name kill innocent civilians by flying airplanes into the World Trade Center and the Pentagon Few however questioned U.S. leaders and citizens invoking God's name or assuming God's favor to fight the responsive war against terrorism And in the Middle East the roots of the continuing and seemingly unsolvable conflict and violence are to be found in both the Torah and the Quran Nelson Pallmeyer challenges the understanding of power that lies at the heart of the sacred texts of Judaism Christianity and Islam He argues that nonviolence is powerful and necessary and that a viable future for human beings and the planet depends on challenging the ways in which sacred texts reinforce visions of power that are largely abusive A viable future he says depends on re-visioning God's power Jack Nelson Pallmeyer is Assistant Professor of Justice and Peace Studies at the University of St. Thomas in St. Paul Minnesota For more than twenty years he has studied and written about the relationship of religion violence and peace and his books include *Jesus Against Christianity* *Reclaiming the Missing Jesus* Trinity Press International and *School of Assassins* *Guns Greed and Globalization*      *Reconsidering Difference* Todd May, 1997-04-15 French philosophy since World War II has been preoccupied with the issue of difference Specifically it has wanted to promote or to leave room for ways of living and of being that differ from those usually seen in contemporary Western society Given the experience of the Holocaust the motivation for such a preoccupation is not difficult to see For some thinkers especially Jean-Luc Nancy Jacques Derrida Emmanuel Levinas and Gilles Deleuze this preoccupation has led to a mode of philosophizing that privileges difference as a philosophical category Nancy privileges difference as a mode of conceiving community Derrida as a mode of

conceiving linguistic meaning Levinas as a mode of conceiving ethics and Deleuze as a mode of conceiving ontology

Reconsidering Difference has a twofold task the primary one critical and the secondary one reconstructive The critical task is to show that these various privilegings are philosophical failures They wind up for reasons unique to each position endorsing positions that are either incoherent or implausible Todd May considers the incoherencies of each position and offers an alternative approach His reconstructive task which he calls contingent holism takes the phenomena under investigation community language ethics and ontology and sketches a way of reconceiving them that preserves the motivations of the rejected positions without falling into the problems that beset them

**The Baroque Night** Spencer Golub, 2018-09-15 In The Baroque Night authorial idiosyncrasy hybridizes the concepts of baroque and noir across the fields of film theater literature and philosophy arguing for mental function as form as an impossible object a container in which the container itself is the thing contained The book is an experiment in thinking difference and thinking differently an ethics of otherness and the abstract Spencer Golub inverts the unreality of the real and the reality of fiction exposing the tropes of memory identity and authenticity as a scenic route through life that ultimately blocks the view The Baroque Night draws upon materials that have not previously been included in studies of either the baroque or film noir while offering new perspectives on other more familiar sources Leibniz's concepts of the monad and compossibility provide organizing thought models and death fear and mental illness cast their anamorphic images across surfaces that are deeper and closer than they at first appear Key characters and situations in the book derive from the works of Alfred Hitchcock Henri Georges Clozot Jean Pierre Melville Oscar Wilde Georges Perec Patricia Highsmith William Shakespeare Jean Racine Pierre Corneille and Arthur Conan Doyle among many others This is virtuality and reality for the phobic making it a fascinating and viable document of and episteme for the anxious age in which we always find ourselves living though not yet fully alive This performance of suspect evidence speaks to and in the ways we are organically inauthentic the cause of our own causality and our own worst eyewitnesses to all that appears and disappears in space and time
